The Everything Store: Jeff Bezos and the Age of Amazon

2013-10-17

winner of the financial times and goldman sachs business book of the year award brad stone s definitive book on amazon and bezos the guardian a masterclass in deeply researched investigative financial journalism riveting the times the definitive story of the largest and most influential company in the world and the man whose drive and determination changed business forever though amazon com started off delivering books through the mail its visionary founder jeff bezos was never content with being just a bookseller he wanted amazon to become the everything store offering limitless selection and seductive convenience at disruptively low prices to achieve that end he developed a corporate culture of relentless ambition and secrecy that s never been cracked until now jeff bezos stands out for his relentless pursuit of new markets leading amazon into risky new ventures like the kindle and cloud computing and transforming retail in the same way that henry ford revolutionised manufacturing amazon placed one of the first and largest bets on the internet nothing would ever be the same again

Brad Stone's The Everything Store

if the stories they tell about themselves are to be believed all of the tech giants apple google microsoft facebook and amazon were built from the ground up through hard work a few good ideas and the entrepreneurial daring to seize an opportunity when it

presented itself with searing wit and blistering commentary bit tyrants provides an urgent corrective to this froth of board room marketing copy that is so often passed off as analysis for fans of corporate fairy tales there are no shortage of official histories that celebrate the innovative genius of steve jobs liberal commentators who fall over themselves to laude bill gates s selfless philanthropy or politicians who will tell us to listen to mark zuckerberg for advice on how to protect our democracy from foreign influence in this highly unauthorized account of the big five s origins rob larsen sets the record straight and in the process shreds every focus grouped bromide about corporate benevolence he could get his hands on those readers unwilling to smile and nod as every day we become more dependent on our phones and apps to do our chores our jobs and our socializing can take heart as larsen provides us with maps to all the shallow graves skeleton filled closets and invective laced emails big tech left behind on its ascent to power his withering analysis will help readers crack the code of the economic dynamics that allowed these companies to become near monopolies very early on and with a little bit of luck his calls for digital socialism might just inspire a viral movement for online revolution
