tribal songs and music the scheme for a systematic and
detailed ethnographic survey of the whole of india received
the formal sanction of the government of india in 1901 a
superintendent of ethnography was appointed for each

financed for a period of five afterwards extended to eight
years and an annual allotment of rs 5 000 provided for each

~~notes on monographs and replies to the stereotyped series of~~
questions the replies to these questions were not i am bound
to admit always entirely satisfactory as they broke down both
in accuracy and detail i may as an illustration cite the
following description of making fire by friction they know
how to make fire i e by friction of wood as well as stone etc
they take a triangular cut of stone and one flat oblong size
flat they hit one another with the maintenance of cocoon
fibre or copper then fire sets immediately and also by
rubbing the two barks frequently with each other they make

william logan s malabar is popularly known as malabar manual
it is a huge book of more than 500 000 words it might not be
possible for a casual reader to imbibe all the minute bits of
information from this book however in this commentary of mine
i have tried to insert a lot of such bits and pieces of
information by directly quoting the lines from malabar on
these quoted lines i have built up a lot of arguments and
also added a lot of explanations and interpretations i do
think that it is much easy to go through my commentary than
to read the whole of william logan s book malabar however the
book malabar contains much more items than what this
commentary can aspire to contain this book malabar will give
very detailed information on how a small group of native
englishmen built up a great nation by joining up extremely
minute bits of barbarian and semi barbarian geopolitical
areas in the south asian subcontinent first of all i would
like to place on record what my interest in this book is i do
not have any great interest in the minor details of malabar
or travancore nor about the various castes and their
aspirations claims and counterclaims my interest is basically
connected to my interest in the english colonial rule in the
south asian subcontinent and elsewhere i would quite
categorically mention that it is english colonialism and not
british colonialism which has a slight connection to irish
gaelic and welsh celtic language populations even though i am
not sure about this i think the book malabar was made as ^{people as}

~~of the madras presidency government s endeavour to create a~~
district manual for each of the districts of madras
presidency william logan was a district collector of the
malabar district of madras presidency logan has claimed the
authorship of this book there are locations where other
persons are attributed as the authors of those specific
locations also there is this statement the tidy fact is that
the whole book has been tampered with or doctored by many
others who were the natives of this subcontinent their mood
and mental inclinations are found in various locations of the
book the only exception might be the location where logan
himself has dealt with the history writing more or less
connected to the part where the written records from the
english factory at tellicherry are dealt with his claim
asserted or hinted at of being the author of the text wherein
he is mentioned as the author is in many parts possibly a lie
the book malabar ostensibly written by william logan does not
seem to have been written by him it is true that there is a
very specific location where it is evident that it is logan
who has written the text however in the vast locations of the
textual matter there are locations where it can be felt that
he is not the author at all
