Habits To Avoid

2019-12-09

we are what we repeatedly do excellence then is not an act but a habit aristotle your habits will determine your future jack canfield chains of habit are too light to be felt until they're too heavy to be broken warren buffett it's never been easier to become a millionaire than now this is because of many reasons 1 online business it's never been easier to create a 1m per year business on the internet 2 social media it's never been easier to connect with and learn from other millionaires 3 inflation 1m isn't what it used to be it's becoming less in terms of real wealth every year 4 easy money low interest rates you only need 200,000 in cash to borrow the remaining 800,000 1700 new millionaires are created every day in the united states this is an unbelievable statistic and shows how easy it is to become a millionaire if all these people are becoming millionaires why aren't you it's because of your bad habits most people let their awful habits stop them achieving the success they desire when you let your bad habits control your behavior you lose your self-esteem when your self-esteem is gone it'll be difficult for you to get the body you desire have the health you desire attract the people into your life that you desire attract the fortunate circumstances you desire and most importantly attract the wealth you desire having money is the number 1 thing that will determine how the rest of your life will turn out don't have money good luck paying for your gym membership good luck eating healthily good luck attracting and keeping good people in your life good luck persuading rich people to do business with you good luck getting treated with respect consistently good luck buying assets as you can see in my opinion that if you don't have money you won't be able to have a good life have you ever noticed that the middle class is a dying entity think about the middle class people you grew up with are they still going on 5 vacations a year are they still eating out every night are they still clothes shopping every weekend

a 2 tiered society is emerging the equality we saw in the 20th century is coming to an end by the end of the 21st century the world will be more unequal than ever before we ll see massive sections of the population on universal basic income and the rest with unbelievable amounts of wealth the time is now to get rich if you wait it ll be harder than ever before why data ever noticed that politicians are constantly crying about data the facebook court cases they re pretending to be on the side of the people in reality they want privacy with data so that the masses can t get their hands on the data anymore this will mean that massive companies will have access to all the data and the poor and middle class will become impoverished unable to capitalise on massive trends a i a i will leave around 10 30 of the workforce on universal basic income in the next 20 years before with advancements in technology came job replacements some of the jobs will be replaced however most humans simply won t be able to adapt to the new jobs think about how many people right now aren t tech savvy this is 25 years into the internet do you really think these people will adapt to a i not likely they ll be on basic income while the rich rake it in from their automated systems advancements in biotechnology soon the rich will be able to alter dna to have a cognitive advantage they ll be multiple times smarter than the average human due to these societal changes soon humans won t be able to catch up to the rich there s not much time to finally get rid of your bad habits so you can become a millionaire the problem is most people don t know what habits are preventing them this is why i ve compiled the habits i think are the most crucial for you to eradicate

virtually everybody in the world wants to be a millionaire but not everybody knows what it takes to be a millionaire certainly becoming a millionaire is not an easy task it is in fact an uphill task if not everybody would have become a millionaire but it is a task that can be done so what does it take to be a millionaire like every other attainment in life it takes a number of factors or traits to become a millionaire seriously speaking becoming a millionaire is a game of numbers a millionaire is simply a person who has accumulated a monetary net worth of up to seven digits of any country s currency such as n1 000 000 or 1 000 000 or 1 000 000 or e1 000 000 what this means is that the moment a person has acquired or accumulated the first one million of the country s currency that person is qualified to be called a millionaire ideally any fool can become a millionaire but that is the ideal situation the real fact of life is that about 90 of the world s population from the ages past to the present have not been

able to achieve this feat as simple as it seems the sole reason why many people have not achieved the feat of becoming millionaires is because they have not taken the first step becoming a millionaire is not as lofty difficult and scary as that all that you have to do is to reduce or belittle the mountain and climb it from the bottom up life is a game of numbers and becoming a millionaire is just a game of numbers but it is a game that you must be willing to play nobody wins a game that he is not involved in no matter how much interest he has in the game the only way to become a millionaire is to get involved in playing the millionaire s game it is the game of making money it is the game of saving money it is the game of investing money it is the game of making your money to work for you and above all it is the game of numbers which showcases the miracle of compound interest money is the oil that lubricates the world the human society in which man operates if you lack the knowledge of money the oil or fluid that enables the resources to flow freely you will most likely have great difficulties in getting things organized to achieve your desired goals or to realize your desired dreams therefore with all your getting get understanding or the knowledge of money in order to make things work for you but we have a faulty education system in which nobody taught or teaches us about money yet understanding money what it is how it works how to make it work for you how to earn it and how to keep it is absolutely essential to your life your relationships your world your happiness and your future to exclude the knowledge of money from your education is to exclude you from the best that life has to offer above all learning how to become financially successful is one of the most critical skills that you must seek to acquire money skill is not taught at school or at any other designated institution in the world hence everyone must bear his own burden here it therefore behooves a man of wisdom to seek out such books on money including this one and seek out a quiet place to read learn and acquire the knowledge of money in order to perform optimally in life the goal of this book is to give you some financial education and to get you to change your attitude towards money and how to save and invest it if i can get you to form the habit of saving and investing at least one dollar a day i would have achieved my aim for writing this book and i would be fulfilled as having imparted you and your future generations
