analyses the realities of offering services such as education translation editing and writing and then considers the challenges and benefits that result when these boundaries are consciously blurred it thus provides an opportunity for readers to reflect on their professional roles and the services that will best serve their clients needs a recurring theme is therefore the interaction between language professional and client author the book offers insights into the opportunities and challenges presented by considering ourselves first and foremost as writing support professionals differing in our primary approach through teaching translating editing writing or a combination of those but with a common goal this view has major consequences for the training

of professionals who support english language publication by nnes academics and scientists supporting research writing will therefore be a stimulus to professional development for those who support english language publication in real life contexts and an important resource for those entering the profession takes a holistic approach to writing support and reveals how it is best conceived as a spectrum of overlapping and interrelated professional activities stresses the importance of understanding the real world needs of authors in their quest to publish provides insights into the approaches used by experienced practitioners across europe popular science gives our readers the information and tools to improve their technology and their world the core belief that popular science and our readers share the future is going to be better and science and technology are the driving forces that will help make it better this book investigates the changing opportunities in higher education for different social groups during china s transition from the socialist regime to a market economy the first part of the book provides a historical and comparative analysis of the development of the idea of meritocracy since its early origins in china and in more recent western thought the second part then explores higher education reforms in china the part played by supposedly meritocratic forms of selection and the implications of these for social mobility based on original empirical data ye liu sheds light on the socio economic gender and geographical inegualities behind the meritocratic facade of the gaokao III liu argues that the chinese philosophical belief in education based meritocracy had a modern makeover in the gaokao and that this ideology induces working class and rural students to believe in upward social mobility through higher education when the gaokao broke the promise of status improvement for rural students they turned to the chinese communist party and sought political connections by actively applying for its membership this book reveals a bleak picture of visible and invisible inequality in terms of access to and participation in higher education in contemporary china written in an accessible style it offers a valuable resource for researchers and non specialist readers alike 80 of the average person s inner mental chatter is
