1995-01-09

aging introduces disturbances to the gait and posture of individuals such alterations can originate or result from a wide range of causes making it challenging to understand when modifications are related to pathological or physiological causes many disciplines come together to perform this kind of analysis e g computational and experimental mechanics image processing medicine biology physiology machine learning and data science gait analysis is particularly sensitive to the interactions of different disciplines this technique allows the study of human movements but only through a multidisciplinary approach it is possible to infer relations of causation narrow studies focusing on specific techniques are important to develop the fundamental tools required to study movement in recent years significant methodological advancements have been independently made in these fields however to cross the borders of current science and develop consistent results any new study needs to set interdisciplinary goals an inclusive approach merging multiple aspects would be key in targeting pharmacological or rehabilitation interventions and improving patient care as a whole

InfoWorld

2012

a guide for translators about the translation theory the translation process interpreting subtitling internationalization and localization and computer assisted translation a special section is dedicated to the translator s education and associations the guide include as annexes several independent adaptations of the corresponding european commission works freely available via the eu bookshop as pdf and via setthings com as epub mobi kindle and pdf for a smart sensible translation you should forget not the knowledge acquired at school or university but the corrective standards some people want a translation with the touch of the source version while another people feel that in a successful version we should not be able to guess the original language we have to realize that both people have right and wrong and that their only fault is to present requirement as an absolute truth teachers agree at least on this principle if a sentence is ambiguous the translation must also be there is another critical less easy to argue based on an italian phrase with particularly strong wording traduttore traditore this critique argues that any translation will betray the author s language spirit style because of the choices on all sides what to sacrifice clarity or brevity if the formula in the text is brief and effective but impossible to translate into so few words with the exact meaning one could understand this criticism that it encourages us to read in the text it seems obvious that it is impossible to follow this advice into practice
