The Dirdir 1979

este trabajo describe un subgénero que ha adquirido en estas últimas décadas una popularidad importante cuyo origen remoto y confuso plantea sin embargo problemas de legado y evolución en argentina ha dado lugar a invenciones muy originales que leen desde la parodia los textos fundadores anglosajones tolkien y entre las cuales destacan tras las cultas y tan mentadas entelequias de borges las de laiseca gorodischer aira particularmente interesantes por su antirrealismo y sus referencias populares en estas páginas se repasan las formas universales de la invención mito cuento tradicional y se determinan los recursos que alejan la ficción de la referencia real se establece también la historicidad del subgénero especificando los nexos entre representaciones de mundos y paradigmas culturales sucesivos por fin se revisa un corpus de obras que cubre de holmberg a cohen pasando por piglia cerca de 150 años de historia literaria argentina todo ello permite poner en claro dentro de la literatura argentina y en relación con la literatura occidental una tipología de los mundos imaginarios que comprueba la importancia de la intención americanista y del carácter híbrido entre lo erudito y lo popular de los textos nacionales
