The Town and Port of Leith 1892 published 1863 7 the records of st peter s gloucester shed valuable light on the economy of a large medieval abbey

Abū Ma'šar on Historical Astrology: The Book of Religions and Dynasties (On the Great Conjunctions) 2022-11-07 the horatian formula prodesse et delectare was extremely influential in the production of texts across various languages and genres while indeed didactic elements can be attested to in almost any medieval text and while medieval literature displays a range of possibilities to teach and instruct the scope of the present volume is more closely focused on explicitly didactic literature this volume combines contributions that analyse didactic literature in high medieval europe from different vantage points they open new perspectives on education as a working principle or legitimizing strategy in the heterogeneous forms of writing intended to convey knowledge this broad thematic linguistic and geographical scope enables us to view didactic literature as the universal phenomenon it was and prompts us to understand its influence on many aspects of society in high medieval europe and beyond while the contributions explore case studies predominantly from this period of transition and the expansion of the categories of knowledge they also trace some of these developments into the later middle ages to spotlight the lasting influence of high medieval teaching and learning in literature the way medieval writers combine the pleasant with the useful is this book s main question

The History of Scotland 1872 this volume provides the reader with an overview of the diverse functions of the runx family of genes as highlighted in the introduction and several of the 29 chapters humans and other mammals have three runx genes that are known to play specific roles in blood bone and neuronal development however their evolutionary history has recently been traced back to unicellular organisms and their involvement in many well known signaling pathways wnt tgfb notch hippo is indicative of a more general function in cell biology their documented roles in cell fate decisions include control of proliferation differentiation survival senescence and autophagy the pleiotropic effects of runx in development are mirrored in cancer where runx genes can function as oncogenes that collaborate strongly with myc family oncogenes or as tumour suppressor genes in the latter role they display hallmarks of both gatekeepers that modulate p53 responses and caretakers that protect the genome from dna damage several chapters focus on the importance of these genes in leukemia research where runx1 and cbfb are frequently affected by chromosomal translocations that generate fusion oncoproteins while recent studies suggest wider roles for runx modulation in solid cancers moreover runx genes are intimately involved in the development and regulation of the immune system while emerging evidence suggests a role in innate immunity to infectious agents including hiv at the biochemical level the runx family can serve as activators or repressors of transcription and as stable mediators of epigenetic memory through mitosis not surprisingly runx activity is controlled at multiple levels this includes mirnas and a plethora of post translational modifications several chapters highlight the interplay between the three mammalian runx genes where cross talk and partial functional redundancies are evident finally structural analysis of the runx cbfb interaction has led to the development of small molecule inhibitors that provide exciting new tools to decipher the roles of runx in development and as targets for therapy this volume provides a compendium and reference source that will be of broad interest to cancer researchers developmental biologists and immunologists

Annales Ecclesiae Ruthenae, Gratiam Et Communionem Cum S. Sede Romana Habentis, Ritumque Graeco-Slavicum Observantis, Cum Singulari Respectu Ad Dioeceses Ruthenas Leopoliensem, Premisliensem Et Chelmensem 1862 martin bucer s de vera et falsa caenae dominicae administratione marks the collapse of his hopes for a negotiated settlement of the reformation in germany he completed the work in march 1546 as fresh negotiations between catholic and protestant theologians reached an impasse in regensburg as the second session of the council of trent was meeting and as charles v prepared to make war on the protestant league of schmalkalden at one level the work deals with the church s authority to regulate the celebration of the lord s supper but at a more fundamental level it challenges moderate catholics such as the humanist scholar bartholomaeus latomus to decide whether their ultimate loyalties lie with pope and council or with christ and his gospel
