no more politics just the truth about what we can and must do to protect ourselves fox news military analyst colonel david hunt has dedicated his career to fighting terrorism a twenty nine year u s army veteran he has helped take out an active terrorist camp trained the fbi and special forces in counterterrorism tactics and served as security adviser to six different olympic games and colonel hunt is angry why because even after the terrorist attacks on our country and on americans around the world the people charged with protecting us the politicians and the bureaucrats in military and intelligence still aren t getting the job done they just don t get it provides a much needed wake up call to all americans as politicians posture and pundits bicker we re losing sight of the fundamental problem we re still not equipped to win the war on terror in fact the terrorist threat is far worse than we feared as made frighteningly clear by the fifty pages of documents published here for the first time including a shocking manual taken from the terrorists themselves but instead of just complaining colonel hunt tells us exactly what we must do without regard to political game playing to emerge victorious in the challenge that history has given us these are changes we can make at every level as individual citizens as a government and as a military power as he shows in this book while the government and our military lead the fight to protect us

recent reforms are mere window dressing or worse counterproductive how  
we can fight this war and still safeguard our civil liberties and the  
american way of life how to fix the intelligence disaster and yes the  
politicians in d c still haven t fixed it how we got into this mess in the first  
place it s mostly because our government let the problem fester for three  
decades colonel hunt is no cautious bureaucrat or finger pointer looking  
for political gain he is a straight shooter with deep insight into what s  
happening in the war on terror on the ground and in the government they  
just don t get it lays out in clear and compelling terms the steps we must  
take all of us to win the war on terror and ensure our survival as a free  
proud and strong nation from they just don t get it we re fighting a war for  
our very survival so we d better figure out how to win that s why i m  
writing this book to show us how we can win how we can protect  
ourselves as a fox news military analyst i m paid to offer insight into how  
our armed forces are conducting the fight against our enemies but this  
book shows that to win the war on terror we need to concern ourselves  
with more than just military tactics for one thing we need to look at what  
our political leaders are doing the sad truth is that they still don t get it  
then there s intelligence you ve heard about our intelligence failures but i  
doubt you know how bad it really is even after the reforms i m going to  
tell you and another critical dimension to this story usually gets

everything except good health and really isn t that the most important
