this is a comprehensive and rounded thematic study of the eu member states the text provides detailed coverage of the principal member states and comparative studies of the smaller states as well as discussing the issue of enlargement and covering empirical themes this book examines the impact of eu membership on the foreign policies of the 12 new member states that joined the eu in 2004 and 2007 among scholars of european politics there is a general consensus that membership in the european union changes the countries that join yet considerable debate remains over what exactly changes to what extent how or why these changes happen and why some countries policies and institutions change more than others expert contributors examine the impact of eu integration and membership with chapters on the 12 new eu entrants since 2004 poland czech republic hungary slovakia slovenia estonia latvia lithuania cyprus malta bulgaria and romania utilizing a common analytical framework each of the country case studies examines the impact of eu membership on the foreign policies of the new member states in three key areas foreign policy making institutions and procedures interests and preferences and strategies and actions the new member states and the european union will be of interest to students and scholars of european studies and european union politics the only comparative analysis of the foreign policies of european union member states examines those policies which are europeanised through the eu s processes and those policies which are retained or excluded from these processes analyses the dual impact of the maastricht treaty on the european union and the post cold war environment on the foreign policy processes of the eu s member states argues for a distinctive approach to the foreign policy analysis of eu states which recognises the fundamental changes that membership brings after the cold war but also acknowledges the diverse role of policies which states seek to retain or advance as being special all the empirical chapters are structured by six sets of explanatory questions foreign policies of eu member states provides a clear and current overview of the motivations and outcomes of eu member states regarding their foreign policy making within and beyond the eu it provides an in depth analysis of intra eu policy making and sheds light in an innovative and understandable way on the lesser known aspects of the inter eu and extra eu foreign policies of the twenty eight member states first eu member states must cooperate within the mechanisms of the eu including the common foreign and security policy cfsp second eu member states continue to construct their own inter eu foreign policies third the sovereign prerogative exercised by all eu member states is to construct their own foreign policies on everything from trade and defence with the rest of the world this combination of clarity thematic structure and empirical case studies make this an ideal textbook for all upper level students of european foreign policy comparative european politics and european studies from back cover this book provides a country by country analysis of how european policy is made and applied in the member states small states in and outside the european union offers a broad overview of the small states problematic in europe it touches upon definition issues history security policy neutrality eu institutional aspects and also includes contributors from central and eastern european countries it presents a thorough analysis of different scenarios for eu institutional reform and their repercussions on the influence of small member states the comparative results are visualized in tables the work contains several contributions from practitioners who give insight into policy games and issues of national sensitivity not usually covered by purely scholarly publications the european environment has changed dramatically through the processes of regional integration and rising interdependence relations between european states both inside and outside the eu are governed as never before by rules norms and fixed procedures the book investigates the consequences of these developments on the foreign and security policy of small states academics and professionals from austria denmark finland ireland lithuania luxembourg slovenia sweden and switzerland as well as from the european commission and the council of ministers elaborate on these issues institutional regulations and traditional power politics as well as the foreign and security policy traditions of the states concerned including the question of neutrality are investigated in addition the book identifies the main interests of small states in today s europe and offers an overview of different strategies these states apply in the realm of foreign and security policy the book is interesting for the case studies it offers as well as for the reflections it contains regarding fundamental questions of the essence of statehood in today s europe this work provides a country by country analysis of how european policy is made and applied its central focus is the involvement in european policy making of national institutions governments parliaments sub national government the courts and public administration the book explores the views of elites

alongside those of the wider population in the european union the chapters place the new member states and the potential candidate serbia on the map of europe in this context for the first time the volume s comparative method goes beyond the standard old member states versus new member states divide it assesses regional differences within central europe and evaluates the problem of european and national identity formation perception of external threats to the eu including russia differences between economic and political elite views about the integration process and the connection between national performance and public opinion about europe even though in each country positive views are dominant about the integration process heterogeneous views prevail behind the image of a unifying europe the book s major contribution is that it makes the new member states more visible and provides hard evidence while remaining theoretically driven furthermore it covers the most important topics that emerge in studies concerning european integration the book is intended for those interested in european integration in general but central and eastern european comparativists will find it particularly useful this book was published as a special issue of europe asia studies examines the ways in which european union policy has influenced and been influenced by each of the 15 member states considers actions of individual states in particular policy areas as well as the history politics and institutions that led to their positions discussion ranges from economic social and environmental issues to security and justice affairs subjects include nationalism and france s planned economy and british efforts to slow eu integration by stressing the need for subsidiarity zeff has influenced and been influenced by each of the twenty five member states the book reviews the eu treaties provisions governing relations between the eu and member state territories such as the netherlands antilles the uk channel islands and the french overseas departments the book includes an overview of each of the relevant territories including their present constitutional relations with their member state and their legal relations with the eu prior to the entry into force of the lisbon treaty the over arching treaty provision for this relationship was article 299 of the ec treaty having traced the development of article 299 from 1957 to the present lisbon framework the book identifies many inconsistencies and issues with this current framework and proposes a new model framework one that is more concise and up to date and which is adaptable to possible future developments useful for eu law departments and research centres eu think tanks eu institutions libraries permanent representatives to the eu and law firms specializing in eu law first published in 1996 routledge is an imprint of taylor francis an informa company this book provides a general introduction to the european union eu as an ever closer union of states and peoples it describes how from its origin in 1958 as an economic community of six states the eu has grown into a political entity of 25 states with a population of more than 450 million it also explains the constitution making process that is currently taking place with a draft constitution now being submitted for ratification by the 25 member states the book shows how the distinctive features of a democratic polity that characterize the separate eu member states are gradually replicated in the european union and how the union is on its way to becoming a democratic polity of its own kind van gerven writes from a legal perspective with an eye to political theory and recent american and european history and with a diverse readership from both sides of the atlantic in mind this book critically examines the process of statebuilding by the eu focusing on its attempts to build member states in the western balkan region this book analyses the european union s policies towards and the impact they have upon the states of the western balkans and assesses how these affect the nature of eu foreign policy to this end it focuses on the tools and mechanisms that the eu employs in its enlargement policy and examines the new instruments of direct intervention in bosnia and kosovo political coercion in the case of croatia and serbia in relation to the international criminal tribunal for the former yugoslavia and stricter conditionality in the western balkan countries the book discusses the key aim of this special form of statebuilding which is to establish functional liberal democratic states in albania bosnia and herzegovina croatia kosovo macedonia montenegro and serbia in order for them to join the eu and to cope with the responsibilities and pressures of membership in the future however the authors argue that while the eu sees itself as an international actor that promotes and protects liberal democratic values norms and principles its experiences in the western balkans demonstrate how the eu s actions in the region have undermined the basic principles of democratic decision making such as the european support for impositions in bosnia and international law kosovo and have consequently contributed to new tensions see police reform in bosnia and the tensions between kosovo and serbia and dependencies this book will be of much interest to students of statebuilding eu politics global governance and ir security studies in general this second edition offers a comparative

introduction to the most important aspects of administrative law in various european union eu member states belgium france germany the netherlands and the uk at the eu level itself and in the us the book contributes to the transboundary understanding of different regimes related to actions and decisions of the administration it is designed for education research and legal practice purposes and therefore the contributions to the book are all based on one and the same format thus making it more accessible for its readers the areas examined include the definition of administrative law who does the administrating the available instruments for the administration the formal rules principles written or unwritten governing administrative actions access to administrative courts against administrative actions decisions enforcement by the administration financial liability of the administration for unlawful actions recent and future developments and conclusions eu law has developed a unique and complex system under which the union and its member states can both act under international law separately jointly or in parallel international law was not set up to deal with such complex and hybrid arrangements which raise questions under both international and eu law this book assesses how eu law has been adapted to cope with the constraints of international law in situations in which the eu and its member states act jointly in relations with other states and international organisations in an innovative scholarly approach reflecting this duality each chapter is jointly written by a team of two authors the various contributions offer new insights into the tension that continues to exist between eu and international law obligations in relation to the joint participation of the eu and its member states in international agreements the proximity of the european union the prospect of membership and actual entry by the new member states nms increased economic and financial integration in the region leading to fast economic growth based on sizeable capital inflows eu membership helped in developing sound macroeconomic and financial stability frameworks in the nms however these frameworks remain work in progress and as such could not safeguard against private sector exuberance or risky policies especially in the face of an unprecedented global financial crisis hence more prudent policies and further strengthening of policy frameworks especially with respect to financial stability seem warranted this book re examines the law governing the obligations of the member states in the european union from the perspective of the interests formulated and pursued by national governments in the eu member states interests provide the source as well as the limitations of the obligations undertaken by the member states in the union from the early days of european integration they have determined how the law frames and defines eu obligations in the treaties in legislation and in the jurisprudence of the eu court of justice the book neither challenges directly nor undermines the current state of the law in the eu instead it introduces a framework for interpreting and analysing legal developments both legislative and jurisprudential from an angle which brings the legal dimension of the membership of states in the european union closer to its political reality by choosing member state interest to frame its analysis of the law the book expresses a clear intention to explore further the interactions and the potential interconnectedness of the intergovernmentalism of eu decision making and the normative supranationalism of the application and the enforcement of member state obligations in particular at the national level analysing how diversity among the member states which arises from different local interests institutional frameworks and socio economic arrangements is assessed and sustained in eu legislation and in the jurisprudence of the court of justice the book examines the impact of eu obligations on member state territorial authority and territoriality providing a new perspective on member state interests and european law the book closes the widening gap between the politics and law of european integration and between its political science and legal analysis the book is essential reading for students and scholars in the field of state law eu law and politics eu law has developed a unique and complex system under which the union and its member states can both act under international law ultimately though international law was not set up to deal with complex and hybrid arrangements leading to confusion a situation which no doubt will be further complicated by the uk s status after brexit this book looks at how eu law has learned to cope with the constraints of international law when dealing this joint participation in an innovative scholarly approach its methodology mirrors this duality with each chapter being written by a team of 2 authors this offers a unique dual perspective on long debated questions anchored by this strong organising framework the essays look at questions of constitutional law international law joint participation and joint agreements the collection is timely as the a unique and complex system under which the union and its member states can both act under international law is facing new challenges not least in the face of brexit la 4e de couverture indique this book offers a comparative introduction by the editor and native authors to
