Crisis and Criticism 1937 this book is a statement of my views on a number of problems in literary theory and contemporary criticism but it is also as any theoretical study must be a progress report a record of inquiry that has not yet concluded in a sense a book on theory cannot really end at a certain point work on it ceases even though one continues to think critically and skeptically about the problems and the solutions that the book contains preface p xi

The Crisis of Criticism 1998 critique and crisis established reinhart koselleck s reputation as the most important german intellectual historian of the postwar period this first english translation of koselleck s tour de force demonstrates a chronological breadth a philosophical depth and an originality which are hardly equalled in any scholarly domain it is a history of the enlightenment in miniature fundamental to our understanding of that period and its consequences like toqueville koselleck views enlightenment intellectuals as an uprooted unrealistic group of onlookers who sowed the seeds of the modern political tensions that first flowered in the french revolution he argues that it was the split that developed between state and society during the enlightenment that fostered the emergence of this intellectual elite divorced from the realities of politics koselleck describes how this disjunction between political authority proper and its subjects led to private spheres that later became centers of moral authority and eventually models for political society that took little or no notice of the constraints under which politicians must inevitably work in this way progressive bourgeois philosophy which seemed to offer the promise of a unified and peaceful world in fact produced just the opposite the book provides a wealth of examples drawn from all of europe to illustrate the still relevant message that we evade the constraints and the necessities of the political realm at our own risk critique and crisis is included in the series studies in contemporary german social thought edited by thomas mccarthy

The Crisis of Political Modernism 2023-04-28 film criticism is in crisis dwelling on the many film journalists made redundant at newspapers magazines and other old media in past years commentators have voiced existential questions about the purpose and worth of the profession in the age of wordpress blogospheres and proclaimed the death of the critic bemoaning the current

anarchy of internet amateurs and the lack of authoritative critics many journalists and academics claim that in the digital age cultural commentary has become dumbed down and fragmented into niche markets mattias freu arguing against these claims examines the history of film critical discourse in france germany the united kingdom and the united states he demonstrates that since its origins film criticism has always found itself in crisis the need to show critical authority and the anxieties over challenges to that authority have been longstanding concerns

Criticism, Crisis, and Contemporary Narrative 2011-01-05 this book offers innovative readings of the motif of crisis as explored by twentieth and twenty first century novelists spanning personal and identity crisis interpersonal relationships and family ties and threats on a global scale

Crisis and Criticism and Literary Writings 1975-10-01 at the beginning of the 21st century film criticism was described as in crisis the decline of print journalism a series of lay offs of prominent critics and the rise of amateur reviewing online spurred a conversation about the decline even death of film criticism this discourse flourished in part because film criticism has been little examined in scholarship to date this book takes a deeper look at film criticism by focusing on its institutional contours this is achieved through a combination of archival research and interviews with prominent film critics and stakeholders including adrian martin lola stephanie zacharek time peter bart variety and andrew sarris the village voice film criticism as a cultural institution first examines the contemporary crisis conversation surrounding film criticism comparing this to historical precedents it then provides what today s crisis conversation does not an account of film criticism s institutional formations using primarily u s and australian case studies based on interviews observation and archival research as well as accounts from other national schools the book maps contemporary film criticism across various sites such as publications or online spaces and organisations such as film critics circles it elucidates film criticism s institutional practices tasks compartments and personae looking at the history of conversations about film criticism shows us that crisis has always been a leitmotif while acknowledging the considerable changes and challenges that film criticism faces today this book situates these within an historical context and proposes an institutional framework that allows us to move beyond crisis discourse looking at film criticism in this way allows us to see that the very question of what counts as film criticism is continually contested within an institutional ecology made up of distinctive critical compartments addressed to distinctive audiences

The permanent crisis of film criticism 2016-04-29 texts by established and emerging writers who address the social and political dimensions of art and art writing in the contemporary context fires burn around the world systemic discrimination persists precarity is increasing and the modern democratic project faces challenges from all sides art writing helps us to understand art which in turn helps us to understand such crises but art writing itself is in crisis newspapers and magazines offer fewer channels than ever for independent art criticism persistent institutional biases exclude the positions of many and a proliferation of platforms presents opportunities and challenges in equal measure this volume presents writing by established and emerging writers who address the social and political dimensions of art and art writing in the contemporary context and the ways in which new art writing and publishing practices promote critical engagement among readerships as never before

Faces of Crisis in 20th- and 21st-Century Prose 2021-05 fragility is a condition that inhabits the foundations of social life it remains mostly unnoticed until something breaks and dislocates the sense of completion in such moments of rupture the social world reveals the stuff of which it is made and

how it actually works it opens itself to question based on this claim this book reconsiders the place of the notions of crisis and critique as fundamental means to grasp the fragile condition of the social and challenges the normalization and dissolution of these concepts in contemporary social theory it draws on fundamental insights from hegel marx and adorno as to recover the importance of the critique of concepts for the critique of society and engages in a series of studies on the work of habermas koselleck arendt and foucault as to consider anew the relationship of crisis and critique as immanent to the political and economic forms of modernity moving from crisis to critique and from critique to crisis the book shows that fragility is a price to be paid for accepting the relational constitution of the social world as a human domain without secure foundations but also for wishing to break free from all attempts at giving closure to social life as an identity without question this book will engage students of sociology political theory and social philosophy alike

Critic of Crisis 1987 there are few forms in which so much authority has been invested with so little reflection as the sentence though a fundamental unit of discourse it has rarely been an explicit object of inquiry often taking a back seat to concepts such as the word trope line or stanza to understand what is at stake in thinking or not thinking about the sentence jan mieszkowski looks at the difficulties confronting nineteenth and twentieth century authors when they try to explain what a sentence is and what it can do from romantic debates about the power of the stand alone sentence to the realist obsession with precision and revision to modernist experiments with ungovernable forms mieszkowski explores the hidden allegiances behind our ever changing stylistic ideals by showing how an investment in superior writing has always been an ethical and a political as well as an aesthetic commitment crises of the sentence offers a new perspective on our love hate relationship with this fundamental compositional category

Crisis and Critique 2016-07-15 this book suggests that old testament scholars should strengthen their growing links with neighbouring academic disciplines and encourage a number of interpretative interests within biblical studies given such a pluralistic context the author's contention is that the canonical approach to old testament study will have a distinctive contribution to make to the discipline without necessarily displacing other traditions of historical and literary inquiry as many scholars have assumed dr brett offers a comprehensive critique of the canonical approach as developed by brevard child and examines the development of child's exegetical practice his hermeneutical theory and the many critical responses which his work has elicited in responding to these criticisms the author examines the most problematic aspects of the canonical approach notably child's inadequate reply to those who emphasize the ideological conflicts that lie behind biblical texts in their final form and seeks to reconstruct the approach in light of contemporary discussions of interpretation in literary theory and the social sciences

Beyond the Crisis of the Arab Literary Criticism 2015-07-05 this book describes how three of the most significant anglophone writers of the first half of the twentieth century yeats eliot and woolf wrestled with a geopolitical situation in which national boundaries had come to seem increasingly permeable at the same time as war among and within individual nation states had come to seem virtually inescapable drawing on jean françois lyotard s analysis of the

elements of performativity in j l austin s speech act theory and making critical use of carl schmitt s writings on sovereignty and world order miller situates the writings of yeats eliot and woolf in the context of what lyotard describes as a civil war of language by virtue of its dissolution of any clear boundary between interiority and exteriority as well as by virtue of its resistance to any decisive form of resolution or regulation this civil war of language takes on dimensions that are ultimately global in scope miller examines the emergence of modernism as bound up with a crisis of personal political and aesthetic sovereignty that undermined traditional distinctions between the public and private in the process he directly engages with the theoretical discourse surrounding the geopolitical impact of globalization and biopolitics a discourse that is central to the influential and widely debated work of such varied figures as carl schmitt hardt and negri giorgio agamben and jean luc nancy this book will be of interest to anyone concerned not only with twentieth century literature but also with questions of nationalism and globalization
