

Free download Man of ice tweve (Read Only)

the apocalypse of enoch and bhuśunda the apocalypse of enoch and bhuśunda challenges the underlying assumptions of the classical roots of civilization by restoring the original context of creation mythology in this second volume of a chronology of the primeval gods and the western sunrise ancient myths from multiple geographies are correlated to spikes in cosmic rays over the past 120 000 years as documented in ice core data the chronology and content of these myths tell us that the primary forces behind these cataclysms were the most ancient gods hyper nova at the galactic center associated with sgr a the dragon sgr west the beast and sgr east hiranyâksha and hiranyakas ipu with secondary supernova seen as the birth of new destructive gods ancient myth has documented the cataclysmic destruction of the world on at least twenty occasions with four major geo polar migrations which has resulted in a shift of the earth s equator on at least one occasion multiple myths are shown to represent a view of the sky that can only be seen from the antarctic region multiple versions of the myths of orion are analyzed showing clear linkages between the vedic myth of trisanku the book of genesis senmut s tomb and the myths of prajāpati dakṣa representing the oldest version of the orion myth older than trishanku and genesis by 20 000 years the stunning conclusion explains how the watchers of enoch were the vedic descendants of ila and iksvaku these descendants of the seventh manu had been observing and recording the stars as a source of cataclysm for at least 15 000 years prior to enoch thus allowing enoch to prophesize a new heaven that prophecy became the foundation for st john s book of revelations which is shown to be a description of a series of cataclysms attributed to sgr west the book offers a new theory for explaining geo polar migration that theory suggests small shifts in the location of the earth s center of gravity underlie each migration but that there are multiple causes for the shifts included cases from the supreme and inferior courts of philadelphia and from the united states courts soule lawyer s ref manual 1884 musaicum books presents to you this unique sf collection designed and formatted to the highest digital standards and adjusted for readability on all devices h g wells the time machine the war of the worlds the island of doctor moreau the invisible man jules verne journey to the center of the earth 20 000 leagues under the sea the mysterious island mary shelley frankenstein the last man edgar wallace planetoid 127 the green rust otis adelbert kline the venus trilogy the mars series malcolm jameson captain bullard series garrett p serviss edison s conquest of mars a columbus of space the sky pirate arthur conan doyle the professor challenger series francis bacon new atlantis edwin a abbott flatland jack london iron heel the scarlet plague the star rover robert louis stevenson dr jekyll and mr hyde george macdonald lilith h rider haggard king solomon s mines she william h hodgson the house on the borderland the night land edgar allan poe some words with a mummy mellonta tauta h p lovecraft beyond the wall of sleep the cats of ulthar celephaïs edward bellamy looking backward 2000 1887 equality mark twain a connecticut yankee in king arthur s court owen gregory meccania the super state margaret cavendish the blazing world jonathan swift gulliver s travels the coming race james fenimore william morris news from the samuel butler erewhon edward lytton the
