Il primo passo è quello di identificare il tipo di situazione in cui ci si trova. Si tratta di un'interazione sociale in cui si è sottoposti a un'azione o a un'omissione che si ritiene ingiusta o dannosa. In questi casi, è importante non farsi sopraffare dalle emozioni e mantenere la calma. Il secondo passo è quello di valutare le conseguenze delle diverse opzioni di risposta. Si deve considerare non solo il proprio benessere, ma anche quello degli altri coinvolti. Il terzo passo è quello di scegliere la risposta più appropriata in base alle circostanze. In alcuni casi, può essere sufficiente un'azione di fermezza, in altri invece può essere necessario un dialogo o un'azione di mediazione. Il quarto passo è quello di mettere in atto la scelta e osservare le conseguenze. Se la situazione si ripresenta, è importante valutare se la risposta scelta è stata efficace e, in caso contrario, considerare altre opzioni. In generale, è importante ricordare che l'autodifesa verbale non è un'arma, ma uno strumento che deve essere utilizzato con saggezza e rispetto per gli altri. In questo manuale, vengono presentate diverse tecniche e strategie che possono essere utilizzate in situazioni diverse. Le tecniche di base consistono nell'ascolto attivo, nell'uso di frasi "io" e nell'evitare le generalizzazioni. Le strategie più avanzate includono la negoziazione, la mediazione e l'azione di gruppo. In ogni caso, è importante ricordare che l'autodifesa verbale è un'abilità che si può imparare e migliorare con la pratica. In questo manuale, vengono presentate diverse esercitazioni e attività che possono essere utilizzate per migliorare le proprie competenze in questo campo. In conclusione, l'autodifesa verbale è un'abilità fondamentale per la vita sociale e professionale.
