China's Reforms at 30 2016-12-30 petroleum hydrocarbons are both a product of and rich substrate for microorganisms from across all domains of life rooted deeply in the history of microbiology hydrocarbons have been studied as sources of carbon and energy for microorganisms for over a century as global demand for petroleum and its refined products continues to rise so do challenges associated with environmental pollution oil well souring infrastructure corrosion oil recovery transport refining and upgrading of heavy crude oils and bitumens advances in genomics synthetic biology and metabolic engineering has invigorated interest in petroleum microbial biotechnology as interest grows in technologies for in situ methane production biodesulfurization and bidenitrogenation bio upgrading of heavy crudes microbial enhanced oil recovery corrosion control and biocatalysts for generating value added products given the complexity of the global petroleum industry and the harsh conditions in which it operates a deeper understanding of the ecophysiology of aerobic and anaerobic microbial communities that have associations with petroleum

hydrocarbons is needed if robust technologies are to be deployed successfully this research topic highlights recent advances in microbial enhanced oil recovery methanogenic hydrocarbon metabolism and carbon dioxide sequestration bioremediation microbiologically influenced corrosion biodesulfurization and the application of metagenomics to better understand microbial communities associated with petroleum hydrocarbons

THE IMPLEMENTATION OF MODERN AFRICAN CONSTITUTIONS: Challenges and Prospects 2017-09-08 ethiopia has the lowest access to potable water supply in africa despite its abundant water resource in the edja woreda of guraghe zone the average distance travelled to collect water is 46 minutes the financial sustainability of the drinking water sector in the woreda remains an issue for all stakeholders the providers the users government agencies and donors there is no clear guidance for water activities at woreda level thus there are no clearly specified roles and responsibilities therefore the general objective of the study is to identify the challenges and prospects of potable water management in the edja woreda

Petroleum Microbial Biotechnology: Challenges and Prospects 2013-08 electric vehicles prospects and challenges looks at recent design methodologies and technological advancements in electric vehicles and the integration of electric vehicles in the smart grid environment comprehensively covering the fundamentals theory and design recent developments and technical issues involved with electric vehicles considering the prospects challenges and policy status of specific regions and vehicle deployment the global case study references make this book useful for academics and researchers in all engineering and sustainable transport areas presents a systematic and integrated reference on the essentials of theory and design of electric vehicle technologies provides a comprehensive look at the research and development involved in the use of electric vehicle technologies includes global case studies from leading ev regions including nordic and european countries china and india

The Challenges and Prospects of Potable Water Mangement at Edja Woreda-Ethiopia 2011 the negative impacts associated with conventional tourism has occasioned more sustainable forms of tourism including community based tourism cbt among the benefits of cbt are the improvement of rural economies empowerment of the local community and poverty alleviation in as much as cbt has been promoted as being more beneficial to local communities its implementation is not without challenges in the wake of the covid 19 pandemic destination marketing organizations and managers of cbt projects have to adopt different marketing strategies including shifting to target new demographics in an effort to remain sustainable prospects and challenges of community based tourism and changing demographics provides theoretical and empirical insights in the prospects and challenges associated with cbt critically examining issues of structure impact management marketing support changing demographics challenges sustainability and implications for the future of cbt it also highlights critical lessons and trends in cbt from both established and new cbt initiatives to inform the design management marketing and sustainability of cbt projects this book will be a useful addition to the literature on cbt with its coverage of topics such as conservation cultural tourism and sustainable rural livelihoods this book

provides an excellent resource for students academicians researchers tourism and hospitality practitioners managers destination managers stakeholders tour operators and policymakers

The Millennium Development Goals 2019-12-20 the idea and practice of sustainable development has come of age there is a growing interest in supporting people communities society and the earth to adapt to the disturbances and challenges of today and the future many new initiatives have emerged to address specific elements of sustainable development this book discusses the processes challenges and prospects of sustainable development

Afghanistan - Challenges and Prospects 2016 challenges and prospects in african education system the general idea this book is trying to disseminate is to inform readers about the compelling challenges and prospects in african system of education as we all know when issues of africa educational system is raised the first set of thoughts that come to mind is decline in standard deterioration of facilities examination malpractices cult crises or school based violence shortage of teachers underqualified teachers and poor teachers performance which results in poor learning standards lack of classroom discipline that is exacerbated by insufficient resources and inadequate infrastructure failure of appropriate inspection and monitoring and confusion caused by changing curricula without proper communication and training all these have led to massive demoralization and disillusionment among teachers and a negative and worsening perception of african system of education this therefore calls for in depth analysis aimed at tutoring every stakeholder in education on how their action and inactions have individually and collectively contributed to the collapsing state of education in africa however the prospect is that africa s recovery and sustainable development can only be guaranteed through expansion and sustenance of both quantitative and qualitative of the continent s stock of human capital through education in order for education to realize its key role in development it must be provided to the younger segments of african society as quickly as human and financial resources permit with the ultimate goal of developing a comprehensive meaningful and sustainable system of education at all levels and for all age groups this is the message that this book puts across in the six knitted sections

Women Development in Education 2017-07-11 this 50th volume examines current global trends in higher education which include the situation of academic faculty the demand for access the role of the university in society and its governance funding trends and higher education s international dimensions

Nanofertilizers: Challenges and Prospects 2004 master s thesis from the year 2014 in the subject book science nnamdi azikiwe university awka course mass communication language english abstract the study has five objectives namely to find out the contributions that indigenous publishers are making towards the development of the nigerian economy to identify the various ways literamed publications market their books to explore the challenges facing the book industry in general and literamed in particular as well as the prospects available for literamed publications five research questions were also generated for which the study sought to answer in carrying out the study several relevant literatures were reviewed including communication texts

past studies online and offline articles journals as well as papers presented at different fora that have bearing on the subject the theoretical framework for the study is the libertarian theory of the press the study being a survey utilized the questionnaire as instrument for data collection a survey was conducted among the staff of literamed publications limited by administering the questionnaire to a sample of 190 staff drawn through a simple random sampling the findings indicate that publishers are contributing to the growth of the nigerian economy 96 2 the major challenges confronting the publishing industry include book piracy 39 3 and inadequate infrastructure such as electricity 25 1 while the prospects include the ever expanding population of schools enrolment and the policy of compulsory education coupled with government bulk purchases the findings also indicate that the company uses a multi sectoral approach in marketing their books such as institutional sales supply to distributors bookshops and more importantly to schools and end users the study recommends among other things a synergistic approach in fighting copyright violations involving all stakeholders authors printers publishers booksellers nigerian copyright commission and other law enforcement agencies

Electric Vehicles: Prospects and Challenges 2021-09-17 this volume of the international perspectives on education and society series investigates the challenges and prospects for higher education in africa especially issues of development expansion internationalization equity and divergence

Challenges and Prospects for Canadian Social Studies 2015 an analysis of prospects for evangelization in china including lessons from the past

Prospects and Challenges of Community-Based Tourism and Changing Demographics 2013 after decades of turmoil a new phase is opening up for afghanistan in which a new generation comes to the fore as many of the key players from earlier phases including foreign interventionist powers leave the scene although this new phase offers new possibilities and increased hope for afghanistan s future the huge problems created in earlier phases remain this book presents a comprehensive overall assessment of the current state of politics and society in afghanistan outlining the difficulties and discussing the future possibilities many of the contributors are afghans or afghan insiders who are able to put forward a much richer view of the situation than outside foreign observers

Sustainable Development 2018 despite efforts made by the international development financing organizations the structure of intervention through multi country projects with regional development goals has not been easy to design and implement one of the reasons is the lack of clarity in the enabling legal framework and tools both within the client countries as well as the development organizations against this backdrop this study based essentially on desk research with limited field consultation attempts to discuss primarily from a legal and institutional perspectives the tools prospects as well as the opportunities for designing and implementing regional projects with particular focus on the emerging practice of the world bank and with a special reference to the asia region the study comprises an introduction deals with the general setting the world bank approach toward regional projects the importance of political will and commitment the general legal structures for regional

projects the uniqueness and challenges for asia the prospects and proposals and provides a brief conclusion

CHALLENGES AND PROSPECTS IN AFRICAN EDUCATION SYSTEMS 2021-05-25

this volume addresses the conditions allowing the transformation of specific children s rights into capabilities in settings as different as children s parliaments organized leisure activities contexts of vulnerability children in care it addresses theoretical questions linked to children s agency and reflexivity education the life cycle perspective child participation evolving capabilities and citizenship the volume highlights important issues that have to be taken into account for the implementation of human rights and the development of peoples capabilities the focus on children s capabilities along a rights based approach is an inspiring perspective that researchers and practitioners in the field of human rights would like to deepen

Challenges and Prospects for Clinical Trials in India 2021-09-27 this volume offers a comprehensive evaluation of the concept of global order with a particular emphasis on the role of regional organisations within global governance institutions such as the united nations building from a solid theoretical base it draws upon the expertise of numerous leading international scholars offering a broad array of timely and relevant case studies these all take into consideration the historical setting before analysing the contemporary situation and offering suggestions for potential realignments and readjustments that may be witnessed in the future the volume adopts an interdisciplinary approach when addressing some of the most pressing issues of global governance which our global community must tackle this presents the readers an opportunity to understand related topics such as political economy international law institutions of global governance in conjunction with the academic field of international relations ir it further helps students and interested readers understand the theoretical and practical foundations to the changing nature of global affairs

Higher Education in the Next Decade 2013-10-21 pan genomics applications challenges and future prospects covers current approaches challenges and future prospects of pan genomics the book discusses bioinformatics tools and their applications and focuses on bacterial comparative genomics in order to leverage the development of precise drugs and treatments for specific organisms the book is divided into three sections the first an overview of pan genomics and common approaches brings the main concepts and current approaches on pan genomics research the second case studies in pan genomics thoroughly discusses twelve case and the last current approaches and future prospects in pan multiomics encompasses the developments on omics studies to be applied on bacteria related studies this book is a valuable source for bioinformaticians genomics researchers and several members of biomedical field interested in understanding further bacterial organisms and their relationship to human health covers the entire spectrum of pangenomics highlighting the use of specific approaches case studies and future perspectives discusses current bioinformatics tools and strategies for exploiting pangenomics data presents twelve case studies with different organisms in order to provide the audience with real examples of pangenomics applicability

Prospects and Challenges of Book Publishing and Marketing in Nigeria 2014

Crimea 2021-11-16 masterarbeit aus dem jahr 2020 im fachbereich politik internationale politik thema entwicklungspolitik hawassa university sprache deutsch abstract currently there has been a growing interest in small rural business development and entrepreneurship as conduits for accelerating job opportunities for the youth and for poverty reduction despite the policy recognition the economic performance of the rural entrepreneurs or enterprises is not ground breaking this might not be without any factors that daunting the development of the rural entrepreneurs to make their due contribution to the development of their community hence this study was undertaken in order to assess common militating challenges of the development pace and fate of rural entrepreneurship to trace out the opportunities open to start new businesses and expand the existing ones and to examine the prospects of rural entrepreneurship in order to achieve the desired objectives the study both qualitative as well as quantitative methods were employed from the total of 503 entrepreneurs in the study area 125 samples were selected using multistage sampling technique in line with this structured questionnaire and unstructured interview were employed as instruments of data collection the data collected through questionnaire was analyzed quantitatively and to analyze the interview data qualitative approach was applied after the data analyzed carefully it was found that the rural entrepreneurship in the study area conditioned by different business environment factors which are either internal or external to the businesses personal traits of business owners and managerial competences and skill related deficiencies are among internal factors affecting their success whereas market factors economic factors political factors and social factors were among the challenges external to the

business setting it was also found that rural areas are not unfortunate areas to do business even though there were militating challenges in order to make them a true catalysts of rural development rural entrepreneurs themselves should be vigilant of the existing opportunities and make attempt to change opportunities into business government should also play a primary role in solving its internal limitations that hinder the possibility of rural transformation through rural entrepreneurship and different bodies i e media ngos should take part in promoting rural entrepreneurship

China's One Belt One Road 1999-01-01 the fundamental point that the book makes is about the relevance of non violence as an effective means of articulating a distinctive voice of protest
