we appear to have more control over our lives than ever before if we could get things right the perfect job relationship family body and mind then we d be happy with enough economic growth and technological innovation we could cure all societal ills the happiness problem shows that this way of thinking is too simplistic and can even be harmful no matter how much progress we make we will still be vulnerable to disappointment loss and suffering the things we do to make us happy are merely the tip of the iceberg sam wren lewis offers an alternative process that acknowledges insecurity and embraces uncertainty drawing on our psychological capacities for curiosity and compassion he proposes that we can connect with and gain a deeper understanding of the personal and social challenges that define our time
