American National Standard for Writing Abstracts 1971 recommendations by the national council on education standards and testing ncest are provided concerning whether national standards and a system of assessments are desirable and feasible and how national standards and a system of assessments are to be developed and implemented the ncest found that the absence of explicit national standards keyed to world class levels of performance severely hampers the ability to monitor the nation s progress toward the six national education goals without well defined and demanding standards american education has gravitated toward de facto national minimum expectations with curricula focusing on low level reading and arithmetic skills and on small amounts of factual material in other content areas most current assessment methods cannot determine if students are acquiring the skills knowledge they need to prosper in the future these assessments reinforce the emphasis on low level skills and processing bits of data rather than on problem solving and critical thinking it is concluded that high national education standards and a voluntary linked system of assessments are desirable and feasible mechanisms for raising expectations revitalizing instruction and rejuvenating education reform efforts for all american schools and students the ncest will work toward local commitment to high national expectation for achievement for all students and toward developing federal state and local policies that ensure high quality resources instructional materials and well prepared teachers acknowledgments authorization for the ncest public comments the six national education goals and reports of the standards assessment implementation english mathematics science history and geography task forces of the ncest are appended rlc

American National Standard Guidelines for Format and Production of Scientific and Technical Reports 1974 the third edition of the national standards for sport coaches outlines the standards for quality sport coaching based on the latest research and practical work in coaching science and the varied fields of exercise science this useful resource outlines the standards which highlights the core responsibilities coaches should possess along with supporting competencies that provide insight into the knowledge and skills needed to support a quality amateur sport experience for athletes coaches sport administrators and coach educators and developers who are informed about core coaching responsibilities and competencies can improve the preparation training and evaluation of sport coaching ultimately the national standards for sport coaches should assist in improving the sport experiences for all athletes and will elevate the profession of coaching
