ride control electronic damper technologies tenneco innovative monroe ride refine hcs damping technology tenneco innovative monroe ride refine hcs damping tenneco introduces advanced add on valve technology that tenneco introduces advanced add on valve technology that tenneco debuts innovative electronic suspension technology tenneco introduces advanced add on valve technology that tenneco inc flexible reliable performance for damper testing ride control electronic damper technologies tenneco inc tenneco introduces advanced add on valve technology that tenneco advanced suspension technologies ai online tenneco unveils the future in suspension technology tenneco s innovative passive damping technology to drive tenneco to showcase latest ride solutions markets insider home damper technology ltd industrial dampers specialists

## **ride control electronic damper technologies tenneco** ***May 03 2024***

tenneco offers three different electronic damper technologies each designed for a specific market application continuously controlled electronic suspension system ces digital ride control valve technology drivtm and dual mode damper technology developed by tenneco in conjunction with Öhlins racing ces is a semi active suspension

## **innovative monroe riderefine hcs damping technology** ***Apr 02 2024***

lake forest ill dec 1 2021 prnewswire tenneco nyse ten has expanded its portfolio of monroe riderefine add on technologies for passive dampers to include a new tunable

## ***tenneco innovative monroe riderefine hcs damping*** ***Mar 01 2024***

december 1 2021 tenneco has expanded its portfolio of monroe riderefine add on technologies for passive dampers to include a new tunable end stop technology that supports global

## **tenneco introduces advanced add on valve technology that *Jan 31 2024***

northville mich feb 12 2024 globe newswire tenneco has expanded its industry leading monroe oe solutions passive valving portfolio with the introduction of an advanced highly tunable

## **tenneco introduces advanced add on valve technology that *Dec 30 2023***

tenneco is a leading global supplier of passive and electronic damping technologies for original equipment oe and aftermarket applications for more information visit oe monroe com stroke dependent damping dramatically enhances comfort by reducing damping levels during short strokes of the unit s internal piston

## ***tenneco debuts innovative electronic suspension technology Nov 28 2023***

waterford mich business wire tenneco inc nyse ten a leading global supplier of ride performance and clean air products and systems has introduced its digital suspension

technology

## **tenneco introduces advanced add on valve technology that *Oct 28 2023***

feb 12 2024 05 00 am northville mich feb 12 2024 globe newswire tenneco has expanded its industry leading monroe oe solutions passive valving portfolio with the introduction of an

## **tenneco inc flexible reliable performance for damper testing *Sep 26 2023***

tenneco inc flexible reliable performance for damper testing mts enables a global damper supplier to perform trusted tests at the track on the line and in the lab customer challenge tenneco develops innovative ride performance products for a wide range of passenger cars light trucks and commercial vehicles

## ***ride control electronic damper technologies tenneco***

## ***inc Aug 26 2023***

strong tenneco strong s electronic damper technologies br target the entire spectrum of light vehicles br from high end luxury vehicles to smaller br city vehicles helping oems achieve the br

## **tenneco introduces advanced add on valve technology that Jul 25 2023**

northville mich feb 12 2024 globe newswire tenneco has expanded its industry leading monroe oe solutions passive valving portfolio with the introduction of an advanced highly tunable

## ***tenneco advanced suspension technologies ai online Jun 23 2023***

cvsa2 is the latest generation of tenneco s suspension range with lightweight semi active dampers each damper features two electro hydraulic valves they control rebound and compression motions independently delivering a larger tuning range for even higher levels of comfort and control

## ***tenneco unveils the future in suspension technology May 23 2023***

conventional systems using tenneco s frequency selective damping fsd technology provide an enhanced ride experience at minimal system cost for the small and midsize vehicle segment fsd offers enhanced comfort and improved tire grip at high frequencies and good car body control at low frequencies

## ***tenneco s innovative passive damping technology to driv Apr 21 2023***

march 30 2022 new tenneco valve s exceptional tuning range delivers outstanding comfort agility and control lake forest ill march 30 2022 prnewswire tenneco nyse ten today announced that the fourth generation mercedes benz c class will be the first vehicle to feature its newly introduced monroe oe solutions mcx valving system

## ***tenneco to showcase latest ride solutions markets***

## **insider *Mar 21 2023***

oct 26 2023 04 00 am company s advanced electronic and passive dampers helping oems deliver superior driving experience innovative cold start thermal unit technology offers highly

## **home damper technology ltd industrial dampers specialists *Feb 17 2023***

damper technology ltd dtl design and manufacture high quality industrial dampers for industries and applications around the globe
