InfoWorld 1994 richard belzer and david wayne are back to set the record straight after dead wrong this time they re going to uncover the truth about the many witness deaths tied to the jfk assassination for decades government pundits have dismissed these coincidental deaths even regarding them as myths as urban legends like most people richard and david were initially unsure about what to make of these coincidences after all events don t consult the odds prior to happening they simply happen then someone comes along later and figures out what the odds of it happening were some of the deaths seemed purely coincidental heart attacks hunting accidents others clearly seemed noteworthy witnesses who did seem to know something and did seem to die mysteriously hit list is a fair examination of the evidence of each case leading to necessarily different conclusions the findings were absolutely staggering as some cases were clearly linked to a clean up operation after the murder of president kennedy while others were the result of other forces the impeccable research and writing of richard belzer and david wayne show that if the government is trying to hide anything they re the duo who will uncover it
