Ace Your Next Interview

2017-02-10

this book presents a thorough quantitative and qualitative corpus assisted investigation of the language employed in a specialized communicative activity type namely the political interview aired on british and american sunday morning talk shows more specifically interviewers and interviewees turns are analyzed here so as to unveil the stratification of discourses characterizing their speech which inevitably favours the proliferation of a mixture of different lexico grammatical traits and pragmatic functions previous studies in this field mainly adopt a conversation analysis approach thus focusing on turn allocation and organization this book adds a different perspective by resorting to a combination of corpus driven and corpus based techniques in the study of a specifically designed corpus of contemporary tv political interviews the result being a comprehensive investigation of the genre the analysis tackles both specialized language aspects and variation between spoken and written english in the genre at stake throughout the study linguistic forms are associated when relevant with their pragmatic functions in context bringing to

the fore for example differences between the ways in which interviewers and interviewees interact with each other and with the audience particular emphasis is also placed on salient distinguishing traits characterizing american and british interviews

Assessing the Language of TV Political Interviews

2019-06-10

with the success of the netherlands in the world baseball classic baseball in europe has begun to receive more attention but few realize just how far back the sport s history stretches on the continent baseball has been played in europe since the 1870s and in several countries the players and devoted followers have included royalty hall of famers from the u s major leagues and captains of industry featuring approximately 80 new interviews and 70 new photos and images this second edition builds extensively on the previous edition s country by country histories of more than 40 european nations also included are two new appendices on european players signed by mlb organizations and european countries performance in worldwide rankings

Urban Origin-destination Surveys

1973

urban governance and sustainability are rapidly becoming key issues around the world currently three billion people half the population of the planet live in cities and by 2050 a full two thirds of the world s population will be housed in ever larger and increasingly densely populated urban areas the economic social and environmental challenges posed by urbanization on such a large scale and at such a rapid pace are staggering for local regional and national governments working towards sustainability solutions to the myriad problems plaguing the quest for sustainability at the city level are equally as diverse and complex but are rooted in the assumptions of the sustainability agenda developed at the rio earth summit and embodied in local agenda action 21 these assumptions state that good governance is a necessary precondition for the achievement of sustainable development particularly at the local level and that the mobilization of local communities is an essential part of this process yet until now these assumptions which have guided the policies and programmes of over 6000 local authorities around the world have never been seriously tested drawing on three years of field research in 40 european towns and cities governing for sustainable cities is the first book to examine empirically the processes of urban governance in sustainable development looking at a host of core issues including institutional and social capacity institutional design social equity politics partnerships and cooperation and creative policy making the authors draw compelling conclusions and offer strong guidance this book is

essential reading for policy makers politicians
activists and ngos planners researchers and
academics whether in europe north america
australasia or transitional and developing
countries concerned with advancing sustainability
in our rapidly urbanizing world
