ethics and integrity in
research are increasingly important for social
scientists around the world we are tackling more
complex problems in the face of expanding and not
always sympathetic regulation this book surveys the
recent developments and debates around researching
ethically and with integrity and complying with ethical
requirements the new edition pushes beyond the work of
the first edition through updated and extended coverage
of issues relating to international indigenous business
interdisciplinary and internet research through case
studies and examples drawn from all continents with results
across the social science disciplines the book
demonstrates the practical value of thinking negotiably
