 world war and it made the military world sit up and take notice improved parachutes and the creation of gliders that could carry troops  
 meant that assault forces could be dropped or landed behind enemy lines this was a significant new tactic which had a dramatic impact  
 on several of the key campaigns and it is the subject of simon and jonathan forty s in depth highly illustrated history they tell the story  
 of the development of airborne forces how they were trained and equipped and how they were landed and put into action in every  
 theatre of the global conflict the results were mixed german airborne forces were victorious on crete but the cost was so great that  
 hitler vowed never to use them in the same way again the allies saw things differently after crete they built up elite units who would  
 play important roles in later battles in normandy for example where the british 6th airborne division took vital bridges prior to the d
