**Introduction to SAP S/4HANA** 2020-11-12 the idea of a right to privacy which arose in reaction

to the rapid rise of newspapers instant photography and the paparazzi of the 19th century has

evolved into a constitutional right in much of the developed world it is enshrined in hong kong

through articles 28 29 30 and 39 of the basic law hong kong stands proud as the first jurisdiction

in asia to enact legislation to safeguard personal data in the form of the personal data privacy

ordinance cap 486 the ordinance which came into force in 1996 at its centre are the six data

protection principles based on the 1980 oecd guidelines the office of the privacy commissioner

for personal data was created under this legislation to provide oversight and ensure compliance

the octopus scandal in mid 2010 eventually led to substantial changes being made to the

ordinance that were enacted in 2012 and 2013 the main amendments being the direct marketing

provisions and the provision of legal assistance and representation to aggrieved persons in this

digital age the ordinance is proving to be the main safeguard of our privacy rights the data

protection principles seek to create broad common principles based on fairness that apply to the

public and private sectors the passage of twenty years since the enactment of the ordinance has

given rise to a substantial body of case law and administrative decisions on these principles and

the other provisions of the ordinance the new amendments have already been the subject of

judicial scrutiny this publication which replaces its predecessor has the dual aim of becoming a

practitioner s guide on the important subject of personal data privacy containing as it does a

detailed exposition of the principles and provisions in the ordinance and a comprehensive source

of reference materials and of enabling the privacy commissioner to discharge his major duty to promote awareness and understanding of the ordinance the second edition includes not only a full discussion of these principles but also summaries of all the seminal cases and administrative appeals board rulings in this area as well as a comprehensive list of all the pertinent cases
