mary tudor s reign is regarded as a period where within a short space of time an early modern european state attempted to reverse the religious policy of preceding governments this required the use of persuasion and coercion of propaganda and censorship as well as the controversial decision to revive an old statute against heresy the efforts to renew catholic worship and to revive catholic education and spirituality were fiercely opposed by a small but determined group of protestants who sought ways of thwarting the return of catholicism the battle between those seeking to renew catholicism and those determined to resist it raged for the full five years of mary s reign this volume brings together eleven authors from different disciplines english literature history divinity and the history of the book who explore the different policies undertaken to ensure that catholicism could flourish once more in england the safety of the clergy and of the public at the mass was of paramount importance since sporadic unrest took place early on steps were taken to ensure that reformist worship was stopped and that the country re embraced catholic practices this involved a number of short and long term plans to be enacted by the regime these included purging the universities of reformist ideas and ensuring the re education of both the laity and the clergy on a wider scale this was undertaken via the pulpit and the printing press those who opposed the return to catholicism did so by various means some retreated into exile while others chose the press to voice their objections as this volume details the regime s responses to the actions of individuals and to the clandestine texts produced by their opposition come under scrutiny throughout this volume the work presented here also offers new insight into the role of king philip and his spanish advisers these essays therefore present a detailed assessment of the role of the spanish who came with to england as a result of the marriage of philip and mary they also move away from the ongoing discussions of persecution seeking rather to present a more nuanced understanding of the regime s attempts to renew and revive a nation of worshippers and to eradicate the disease of heresy they also look at the ways those attempts were opposed by individuals at home and abroad thereby providing a broad ranging but detailed assessment of both catholic renewal and protestant resistance during the years 1553 1558
