this book gives a new view on the legacy of jerzy grotowski 1933 1999 one of the central and yet misunderstood figures who shaped 20th century theatre focusing on his least known last phase of work on ancient songs and the craft of the performer salata posits grotowski s work as philosophical practice and more particularly as practical research in the phenomenology of being arguing that grotowski s departure from theatrical productions and thus critical consideration resulted from his uncompromising pursuit of one central problem what does it mean to reveal oneself the very question that drove his stage directing work the book demonstrates that the answer led him through the path of gradually stripping the theatrical phenomenon down to its most elemental aspect which shows itself through the craft of the performer as a non representational event this particular quality released at the heights of the art of the performer is referred to as aliveness or true liveness in this study in order to shift scholarly focus onto something that has always fascinated great theatre practitioners including stanislavski and grotowski and of which academic scholarship has limited grasp salata s theoretical analysis of aliveness reaches out to phenomenology and a broad range of post structural philosophy and critical theory through which grotowski s project is portrayed as philosophical practice

## Grotowski, Women, and Contemporary Performance

2015-04-30

as the first examination of women's foremost contributions to Jerzy Grotowski's cross-cultural investigation of performance, this book complements and broadens existing literature by offering a more diverse and inclusive re-assessment of Grotowski's legacy, thereby probing its significance for contemporary performance practice and research. Although the particularly strenuous physical training emblematic of Grotowski's approach is not gender-specific, it has historically been associated with a masculine conception of the performer, incarnated by Ryszard Cieslak in the Constant Prince, thus overlooking the work of Rena Mirecka, Maja Komorowska, and Elizabeth Alhaca, to name only the leading women performers identified with the period of theatre productions. This book therefore redresses this imbalance by focusing on key women from different cultures and generations who share a direct connection to Grotowski's legacy, while clearly asserting their artistic independence. These women actively participated in all phases of the Polish director's practical research and continue to play a vital role in today's transnational community of artists whose work reflects Grotowski's enduring influence. Grounding her inquiry in her embodied research and on-going collaboration with these artists, Magnat explores the interrelation of creativity, embodiment, agency, and spirituality within their performing and teaching, building on current debates in performance studies, experimental ethnography, indigenous research, global gender studies, and ecocriticism. The author maps out interconnections between these women's distinct artistic practices across the boundaries that once delineated Grotowski's theatrical and post-theatrical experiments. grzegorz niziolek's *The Polish Theatre of the Holocaust* is a pioneering analysis of the impact and legacy of the Holocaust on Polish theatre and society from 1945 to the present. It reveals the role of theatre as a crucial medium of collective memory and collective forgetting of the trauma of the Holocaust carried out by the Nazis on Polish soil. The period gave rise to two of the most radical and influential theatrical ideas during work on productions that addressed the subject of the Holocaust: Grotowski's poor theatre and Kantor's theatre of death. But the author examines a deeper impact in the role that theatre played in the processes of collective disavowal to being a witness to others suffering. In the first part, the author examines six decades of Polish theatre shaped by the perspective of the Holocaust in which its presence is variously visible or displaced. Particular attention is paid to the various types of distortion and the effect of wrong seeing enacted in the theatre, as well as the traces of affective reception: shock, heightened empathy, indifference. In part two, Niziolek examines a range of theatrical events, including productions by Leon Schiller, Jerzy Grotowski, Tadeusz Kantor, Andrzej Wajda, Krzysztof Warlikowski, and Ondrej Spišák. He considers how these productions confronted the experience of bearing witness and were profoundly shaped by the legacy of the Holocaust. *The Polish Theatre of the Holocaust* reveals how, by testifying about society's experience of the Holocaust, theatre has been the setting for fundamental processes taking place within Polish culture as it confronts suppressed traumatic wartime experiences and a collective identity shaped by the past.
