**Crimean War** 2014-01-27 the Crimean War was fought far from its namesake peninsula in Ukraine until now accounts of Britain's and France's naval campaigns against Czarist Russia in the Baltic, White Sea and Pacific have remained fragmented, minimized or thinly referenced. This book considers each campaign from an imperial perspective extending from South America to Finland. Ultimately this regionally focused approach reveals that even the smallest Anglo-French naval campaigns in the remote White Sea had significant consequences in fields ranging from medical advances to international maritime law. Considering the perspectives of neutral powers including China, Japan and Sweden, Norway allows Rath to examine the Crimean conflict's impact on major historical events ranging from the opening of Tokugawa Japan to Russia's annexation of large swaths of Chinese territory. Complete with customized maps and an extensive reference section, this will become essential reading for a varied audience.

The Crimea in 1854, and 1894 1895 the Crimean War was the most destructive armed conflict of the Victorian era. It is remembered for the unreasoning courage of the charge of the Light Brigade, for the precise volleys of the Thin Red Line and the impossible assaults upon Sevastopol's Redan. It also demonstrated the inefficiency and ineffectiveness of the British military system based on privilege and purchase, poor organization at staff level and weak leadership from the commander in chief with a lack of appreciation of the conditions the troops would experience in the Crimea. The needless death of thousands of soldiers, the Royal Navy by comparison was highly effective and successfully undertook its operations in the Baltic, the Black Sea and the Sea of Azov. The relative performance of the two branches of Britain's armed forces is reflected in the despatches sent back to the UK by the respective commanders. The comparative wealth of detail provided by Admirals Napier, Dundas and Lyons contrast sharply with the limited though frequent communications from Generals Raglan, Codrington and Simpson. The despatches of all these commanding officers are presented in this compilation just as they were when first published in the 1850s. They tell of the great battles of the Alma, Balaklava and Inkerman, of the continuing struggle against Sevastopol and the naval operations which cut the Russian communications and ensured an eventual, if costly, victory. They can be read just as they were when revealed to the general public more than 150 years ago.

The Crimean War 2014-06-06 Sevastopol is one of the classic sieges of all time, the culminating struggle for the strategic Russian port in 1854-5 was the final bloody episode in the costly Crimean War. It was a story of trench warfare, struggles for strongpoints, Redans and bitter bravery and tenacity on both sides. Above all, perhaps it was a struggle in which the skills of military engineers came into their own. Published by Order of the Secretary of State for War, this handsome two-volume publication is a very detailed official history with maps and diagrams. Part I sets the siege of Sevastopol in the context of the war as a whole, from the invasion of the Crimea to the close of the winter campaign 1854-55. Part II, from February 1855 to the fall of Sevastopol, September 1855. This book is one which no serious student of the Crimea can afford to be without.
