giudiziarie un pezzo di storia sociologica e insieme un racconto letterario secondo i severi canoni del realismo narrativo il volume esamina i rapporti di lavoro non contrattuali schiavitù e servaggio che a lungo contraddistinsero l'economia europea sia pure con andamenti assai diversi nelle differenti aree i saggi in esso contenuti esaminano la evoluzione del servaggio visto come il lato economico del regime signorile e delle diverse forme di sottomissione personale fino alla vera e propria tratta degli schiavi di cui i mercanti europei furono protagonisti mettendo in luce una situazione assai to venetian history 1400 1797 provides a single volume overview of the most recent developments it is organized thematically and covers a range of topics including political culture economy religion gender art literature music and the environment each chapter provides a broad but comprehensive historical and historiographical overview of the current state and future directions of research the time before the emergence of nation states however it is convenient to think in european cases which indicate instability or cooperation in these zones of contact three representative geographic regions have been central to an international conference which was questioning the specificities of zones of fracture poland lithuania has been linked with two zones the baltic sea and the balkans the northern italian states were situated between two tectonic regions the balkans and the rhine valley the balkans by themselves were divided into various mini zones and confronted with the ottoman empire the panels did not only try to look for comparisons but intended to find out the complexity and the different experiences within zones of frontiers in an european context the overlapping of various lines especially in the fields of law taxes and the church has been brought into sharper focus archeologia dei relitti postmedievali archaeology of post medieval shipwrecks a cura di carlo beltrame il volume che raccoglie undici contributi di archeologi marittimi di molti paesi ha l'obiettivo di accendere i riflettori sulle enormi potenzialità dei relitti di età storica mettendo a confronto da un lato approcci diversi di ambito mediterraneo ma anche statunitense australiano e nord europeo dall'altro contesti archeologici con caratteristiche altrettanto diverse per l'ambiente di giacitura e per l'impiego civile o militare dell'imbarcazione gli studi diacronici ma incentrati sul cinquecento e sull'ottocento coprono le varie sfaccettature dell'indagine storica dei relitti di età postmedievale quali la costruzione navale il commercio e la vita di bordo ma anche aspetti di tipo squisitamente metodologico quali l'archeologia sperimentale navale si tratta di una novità assoluta per l'editoria scientifica italiana in cui questo particolare ma molto promettente ambito della ricerca archeologica non aveva ancora trovato adeguato spazio this volume is devoted to the spheres in which conflict and rivalries unfolded during the renaissance and how these social cultural and geographical settings conditioned the polemics themselves this is the second of three volumes on renaissance conflict and rivalries which together present the results of research pursued in an international leverhulme network the underlying assumption of the essays in this volume is that conflict and rivalries took place in the public sphere that cannot be understood as single all inclusive and universally accessible but needs rather to be seen as a conglomerate of segments of the public sphere depending on the persons and the settings involved the articles collected here address various questions concerning the construction of different segments of the public sphere in renaissance conflict and rivalries as well as the communication processes that went on in these spaces to initiate control and resolve polemical exchanges since its launch in 1987 the history of cartography series has garnered

critical acclaim and sparked a new generation of interdisciplinary scholarship cartography in the european enlightenment the highly anticipated fourth volume offers a comprehensive overview of the cartographic practices of europeans russians and the ottomans both at home and in overseas territories from 1650 to 1800 the social and intellectual changes that swept enlightenment europe also transformed many of its mapmaking practices a new emphasis on geometric principles gave rise to improved tools for measuring and mapping the world even as large scale cartographic projects became possible under the aegis of powerful states yet older mapping practices persisted enlightenment cartography encompassed a wide variety of processes for making circulating and using maps of different types the volume s more than four hundred encyclopedic articles explore the era s mapping covering topics both detailed such as geodetic surveying thematic mapping and map collecting and broad such as women and cartography cartography and the economy and the art and design of maps copious bibliographical references and nearly one thousand full color illustrations complement the detailed entries this book describes and explains how the so called system of legal proofs which consisted of a strict set of evidentiary rules was replaced with the free evaluation of the evidence in france germany and the netherlands between 1750 and 1870 blanca is the ideal place for the slow movement to enjoy the charm of its landscapes and to relax and live better one cannot hurry the act of creation maybe well haiwai and blanca this book has been written for you in ten languages english german dutch italian french swedish russian arabic japanese and chinese over the last fifty years the life and work of edmund burke 1729 1797 has received sustained scholarly attention and debate the publication of the complete correspondence in ten volumes and the nine volume edition of burke s writings and speeches have provided material for the scholarly reassessment of his life and works attention has focused in particular on locating his ideas in the history of eighteenth century theory and practice and the contexts of late eighteenth century conservative thought this book broadens the focus to examine the many sided interest in burke s ideas primarily in europe and most notably in politics and aesthetics it draws on the work of leading international scholars to present new perspectives on the significance of burke s ideas in european politics and culture the encyclopedia of italian literary studies is a two volume reference book containing some 600 entries on all aspects of italian literary culture it includes analytical essays on authors and works from the most important figures of italian literature to little known authors and works that are influential to the field the encyclopedia is distinguished by substantial articles on critics themes genres schools historical surveys and other topics related to the overall subject of italian literary studies the encyclopedia also includes writers and subjects of contemporary interest such as those relating to journalism film media children s literature food and vernacular literatures entries consist of an essay on the topic and a bibliographic portion listing works for further reading and in the case of entries on individuals a brief biographical paragraph and list of works by the person it will be useful to people without specialized knowledge of italian literature as well as to scholars this book presents a broad overview of succession law encompassing aspects of family law testamentary law and legal history it examines society and legal practice in europe from the middle ages to the present from both a legal and a sociological perspective the contributing authors investigate various aspects of succession law that have not yet been thoroughly examined by legal historians and in doing so they not only add to our knowledge of past succession law but also provide a valuable key to interpreting and understanding current european succession law readers can explore such issues as the importance of a father s permission to marry in relation to disinheritance as well as inheritance transactions and private dynastic and cross border successions further themes addressed by the expert contributors include women s inheritance rights the laws of succession for the prince in legal consulting and succession in the rota romana s jurisprudence publisher description a new investigation that shows how conversionary preaching to jews was essential to the early modern catholic church and the roman religious landscape starting in the sixteenth century jews in rome were forced every saturday to attend a hostile sermon aimed at their conversion harshly policed they were made to march en masse toward the sermon and sit through it all the while scrutinized by local christians foreign visitors and potential converts in catholic spectacle and rome s jews emily michelson demonstrates how this display was vital to the development of early modern catholicism drawing from a trove of overlooked manuscripts michelson

reconstructs the dynamics of weekly forced preaching in rome as the catholic church began to embark on worldwide missions sermons to jews offered a unique opportunity to define and defend its new triumphalist global outlook they became a point of prestige in rome the city's most important organizations invested in maintaining these spectacles and foreign tourists eagerly attended them the title of preacher to the jews could make a man's career the presence of christian spectators roman and foreign was integral to these sermons and preachers played to the gallery conversionary sermons also provided an intellectual veneer to mask ongoing anti jewish aggressions in response jews mounted a campaign of resistance using any means available examining the history and content of sermons to jews over two and a half centuries catholic spectacle and rome's jews argues that conversionary preaching to jews played a fundamental role in forming early modern catholic identity this book illustrates the complexity and variety of victualling systems in early modern italy for a long time the historiography of urban provisioning systems in late medieval and early modern times featured a conceptual opposition between victualling administration and the market in this book on the contrary the term victualling system *systema annonario* is employed according to its historical meaning designating an organised set of public and private channels evolved typically in urban contexts for the procurement and distribution of the goods essential for the daily life of common people according to this definition specifically a victualling system included also the market as one of the different channels for the procurement and distribution of goods what characterises the italian case in the european context are both the earliness of these institutions and the long lasting political and economic fragmentation of the peninsula these factors determined the great variety and complexity of the solutions adopted in order to show these features the analysis focuses on four central issues the configuration of systems institutional pragmatism and variety articulation of circuits and plurality of actors the seven relevant case studies included in this book all based on direct archival research cover a wide range of geographical contexts and institutional arrangements from the north to the south of the peninsula and include both large sized cities milan and rome medium sized cities bergamo vicenza and ferrara and entire regions the march of ancona and sicily this allows the reader to appreciate regional and local differences in detail making this book of interest for academics and scholars in economic social and urban history presents excavation data and pottery finds from the stratigraphy underneath the cathedral of siena the surveys were conducted between 2000 2003 the ultimate goal is to trace a view of the settlement types and economic framework that has affected the hill of the cathedral from the classical age to the late middle ages *il secolo breve è finito nel 1991 come è come sarà il nuovo secolo in cui abbiamo cominciato a vivere come illustrations explores the history and mysteries of the coral road from the mediterranean to japan from italy with its ancient traditions of deep sea coral fishery production and trade the reader is transported to tibet and india where coral has long been revered as a buddhist treasure and amulet the focus then moves to japan with the book highlighting the vivid red coral tree of folklore and festivals and the lavish use of the exotic gemstone in the magnificent accessories and craftwork of the edo period 1603 1868 before tracing the history of japanese coral fishery trade and production in modern times inspired by an urgently perceived need to preserve the legacy of precious coral for future generations this retrospective yet forward looking book will appeal to a wide readership from
