the descriptions of the weather in medieval icelandic sagas have long been considered unimportant mere adjuncts to the action this is not true the way the weather is depicted can give us an insight into the minds of medieval icelanders the first part of this book illustrates how the christian world view of authors of the twelfth to fourteenth centuries influenced their descriptions of meteorological conditions in earlier times the second part is more literary in approach it points out the formulaic nature of descriptions of storms and shows how references to the weather help to structure the narrative

in some sagas it also demonstrates how medieval icelandic attitudes to the weather affect the portrayal of the hero die fantastische weltraum opera geht in die zweite runde für die frischgebackenen eltern alana und marko hat die flucht vom planeten klufft gerade erst begonnen kuriose menschwesen eine verrückte story und ganz große unterhaltung sind also wieder garantiert der raketenstart ist gelungen doch alana und marko stehen vor neuen schwierigkeiten im weltall denn immer noch befinden sich prinz robot iv und der kopfgeldjäger der wille und auf ihren fersen um sie gnadenlos zur strecke zu bringen das sind aber nicht alle probleme denen die kleine familie gegenübersteht zuerst nämlich muss alana mit ihren schwiegereltern klarkommen diese habe sich in letzter sekunde ebenfalls auf das raumschiff gezaubert und markos mutter klara kann die liebe ihres sohnes zu einer landfall frau nicht so einfach akzeptieren und markos vater hat ein schreckliches geheimnis mit an bord gebracht und dann ist da noch gwendolyn die marko nie ganz verziehen hat dass er sie hat sitzen lassen ausgezeichnet mit 3 eisner awards 2013 beste comicserie beste neue comicserie bester autor

monsters seem inevitably linked to humans and not always as mere opposites maaheen ahmed examines good monsters in comics to show how romantic themes from the

eighteenth and the nineteenth centuries persist in today's popular culture. Comics monsters questioning the distinction between human and monster self and other are valuable conduits of romantic inclinations engaging with romanticism and the many monsters created by romantic writers and artists such as Mary Shelley, Victor Hugo, and Goya. Ahmed maps the heritage functions and effects of monsters in contemporary comics and graphic novels. She highlights the persistence of recurrent romantic features through monstrous protagonists in English and French language comics and draws out their implications. Aspects covered include the dark romantic predilection for ruins and the sordid, the solitary protagonist and his quest, nostalgia, the prominence of the spectacle as well as excessive emotions and above all the monster's ambiguity and rebelliousness. Ahmed highlights each romantic theme through close readings of well-known but often overlooked comics including Enki Bilal's *Monstre* tetralogy, Jim O'Barr's *The Crow* and Emil Ferris's *My Favorite Thing is Monsters* as well as the iconic comics series Alan Moore's *Swamp Thing* and Mike Mignola's *Hellboy*. In blurring the otherness of the monster, these protagonists retain the exaggeration and uncontrollability of all monsters while incorporating romantic characteristics. Surveying the past two decades of scholarship on the medieval historiography of Norway, this book provides a critical appraisal of the principal issues involved in the study of the primary sources and the key areas of scholarship and future research.
