Understanding The Origin And Global Spread Of Covid-19

2022-06-29

this curated collection of scientific papers on the origin and global spread of covid 19 is a unique project that offers explanations at odds with mainstream views as the theme mainly focuses on panspermia viruses microorganisms and their spores and cometary arrival of even more complex cellular organisms no other scientific group has paid attention to the temporal unfolding scientific order at the many required levels of understanding astrobiological and astrophysical geographical and the temporal order of global proportions yet regional epidemics the immunologic dimensions to the infection and epidemic data the genetics of the sars cov 2 virus as it adapted varied and appeared in different human populations in the crucial first few months of the pandemic this in depth analysis over a two year period allows a better understanding of what engulfed the world during the covid 19 pandemic how it happened and the most plausible way there are many lessons for future generations that can be distilled from the contributions found in this book

The London Catalogue of Books Published in Great Britain 1855

patricia e roy is the winner of the 2013 lifetime achievement award canadian historical association patricia roy s latest book the oriental question continues her study into why british columbians and many canadians from outside the province were historically so opposed to asian immigration drawing on contemporary press and government reports and individual correspondence and memoirs roy shows how british columbians consolidated a white man s province from 1914 to 1941 by securing a virtual end to asian immigration and placing stringent legal restrictions on asian competition in the major industries of lumber and fishing while its emphasis is on political action and politicians the book also examines the popular pressure for such practices and gives some attention to the reactions of those most affected the province s chinese and japanese residents it is a critical investigation of a troubling period in canadian history

from fads crazes and manias to collective delusions scares panics and mass hysterias history is replete with examples of remarkable social behavior many are fueled by fear and uncertainty others are driven by hope and expectation for others still the causes are more obscure this

massive collection of extraordinary social behaviors spans more than two millennia and attempts to place many of the episodes within their greater historical and cultural context perhaps the most well known example of unusual collective behavior occurred in 1938 when a million or more americans were frightened or panicked after listening to a realistic radio drama about a martian invasion of new jersey based on an adaptation of the h g wells novel war of the worlds less known but equally remarkable scares based on wells book occurred in chile in 1944 when army units were mobilized in ecuador in 1949 when riots broke out leaving more than a dozen dead as well as in buffalo in 1968 rhode island in 1974 and europe in 1988 and 1998 the modern civilized world is by no means immune to such peculiar episodes in the late 20th century scores of people in the u s and europe were wrongly incarcerated following claims of satanic ritual abuse by authorities untutored in false memory syndrome this episode recalls the european witch terror of the late middle ages when innocent people were tortured and executed for consorting with the devil based on the flimsiest of evidence outbreak the encyclopedia of extraordinary social behavior is an authoritative reference on a broad range of topics collective behavior deviance social and perceptual psychology sociology history folklore religious studies political science social anthropology gender studies critical thinking and mental health never before have so many sources been brought together on the mesmerizing topic of collective behavior
