Exploring Strategy, Text and Cases, 12th Edition

2019

the parson s handbook first published in 1899 is dearmer s brotherly advice to fellow churchmen about the correct way to conduct proper and fitting english worship concerned with general principles of ritual and ceremonial but the emphasis is squarely on the side of art and beauty in worship he was the author of books and pamphlets on church art and history and editor of the hymnbook songs of praise in 1931 the parson s handbook ran into many editions

and he devised the english hymnal to which composers ralph vaughan williams and gustav holst contributed in the parson s handbook dearmer states in the introduction that his goal is to help in remedying the lamentable confusion lawlessness and vulgarity which are conspicuous in the church at this time what follows is an exhaustive delineation sparing no detail of the young priest s ideas on how liturgy can be conducted in a proper catholic and english manner

Journal of Education and School World

1887

in july of 1884 pianist calixa lavallée performed a recital of works by american composers that began a highly influential series of such concerts over the course of the next decade hundreds of all american concerts were performed in the united states and europe a movement that fostered both the development and the perception of american music as a unique art form a tidal wave of encouragement the title of which is derived from one observer s description of the movement is the first in depth study of this significant period in american music providing a comprehensive history of the concerts as well as detailed accounts of the intense critical debate surrounding them author e douglas bomberger reveals how one decade shaped the future of american classical music and very much impacted the way we hear it

2023-08-06

14/34

khanyisa nursing college
witbank contact details

today the movement crucial in focusing discussion on american music and providing performance opportunities for composers and musicians for whom no such opportunities had before existed was far more extensive and widespread than most scholarship had credited it this oversight is due in large part to the dearth of objective studies of the concerts previous considerations have tended either toward the merely nostalgic or toward the unnecessarily disparaging bomberger s work is a corrective to this as well as much needed historical and critical account of a project whose influence had yet to be fully acknowledged
