scholarship that examines how understandings of honor changed in latin america between political independence in the early nineteenth century and the rise of nationalist challenges to liberalism in the 1930s these rich historical case studies reveal the uneven processes through which ideas of honor and status came to depend more on achievements such as education and employment and less on the birthright privileges that were the mainstays of honor during the colonial period whether considering court battles over lost virginity or police conflicts with prostitutes vagrants and the poor over public decorum the contributors illuminate shifting ideas about public and private spheres changing conceptions of race the growing intervention of the state in defining and arbitrating individual reputations and the enduring role of patriarchy in apportioning both honor and legal rights each essay examines honor in the context of specific historical processes including early republican nation from the earliest records of human civilization until the dawn of the twentieth century and in widely separated cultures throughout the world the story of honor was inseparable from the story of mankind today an acquaintance with the concept of honor is indispensable to understanding the culture of the islamic world and its sense of grievance against the west where honor has been disregarded or actively despised for three quarters of a century james bowman draws from an wealth of sources across many centuries to illuminate honor s curious history in our own culture and he discovers that western honor was always different from that found elsewhere its idiosyncratic qualities derived partly from the classical tradition but mainly from the judeo christian heritage whose emphases on individual morality and more recently on sincerity and authenticity in private and personal life have acted as continual challenges to the traditional notion of honor as it is still maintained in other parts of the world these challenges to honor and the accommodations with it that they ultimately produced are a fundamental theme in our own culture s distinctive history and the eventual collapse of the honor culture in the west is the background against which the war on terror and the clash of civilizations ought to be seen jacket tommaso santini together with the sanctum consilium solutionum is called again to solve a mysterious case that undermines the roots of the church thirty three years earlier the semen of a boy possessed by the devil was taken to fertilize a young woman nine months later belial bompiani was born a satanic sect made belial the new antichrist thanks to a profane text called the dark bible a nefarious prophecy will make belial at the beginning of his thirty third year of life a destructive instrument that will want to mortally strike the church by making use of that execrable text once again the solver will find himself facing an unspeakable enemy he and his team are given the task of finding who may be the man who embodies the son of satan and to kill him before he can make it to his thirty third year of life what was imperial honor and how did it sustain the british raj if no man may harm me with impunity was an ancient theme of the european aristocracy british imperialists of almost all classes in india possessed a similar vision of themselves as overlords belonging to an honorable race so that ideals of honor condoned and sanctified their rituals connecting them with status power and authority honor most broadly legitimated imperial rule since imperialists ostensibly kept india safe from outside threats yet at the individual level honor kept the white herd together providing the protocols and etiquette for the imperialist who had to conform to the strict notions of proper and improper behavior in a society that was always obsessed with maintaining its dominance over india and indians examining imperial society through the prism of honor therefore opens up a new methodology for the study of british india this book examines the important social role of charitable institutions for women and children in late renaissance florence wars social unrest disease and growing economic inequality on the italian peninsula displaced hundreds of thousands of families during this period in order to handle the social crises generated by war competition for social position and the abandonment of children a series of private and public initiatives expanded existing charitable institutions and founded new ones philip gavitt s research reveals the important role played by lineage ideology among florence s elites in the use and manipulation of these charitable institutions in the often futile pursuit of economic and social stability considering families of all social levels he argues that the pursuit of family wealth and prestige often worked at cross purposes with the survival of the very families it was supposed to preserve this collection of essays is dedicated to a recently deceased philosopher and humanist nalin ranasinghe his central philosophical and humanistic preoccupation was with the human soul not surprisingly his greatest inspiration was socrates credo care for your soul and the title of his first book was the soul of socrates in this and his later writings ranasinghe expressed his growing concern over the idea that the human soul has been highjacked due to the way our civilization has developed the highest and noblest aspirations of our civilization have been replaced by our obsession with money pleasure and power we now live in a time where we do not know who we are nor who the people around us are despite all of the technical gadgets connecting us virtually this is the age of disconnect and loneliness as well as of the degradations of humanity ranasinghe insisted that the two keys for recovery are the self knowledge of the soul and a continuous dialogue with others we need to relearn how to

relate to ourselves and others as unique individuals not as objects for the satisfaction of our needs following his ideas the twenty essays presented here are divided into two parts the soul in reflection and the soul in dialogue the contributors come from various countries around the globe and work in different disciplines and their chapters aim to revive our interest in the soul and the obscured core of our humanity this book will appeal to undergraduate and graduate students of philosophy however the essays are written in a non technical language also making them accessible to the
