Life Before Life 2020-02-08 for the past forty years doctors at the university of virginia medical center have conducted research into young children s reports of past life memories dr ian stevenson the founder of

this work has always written for a scientific audience now in this provocative and fascinating book dr jim b tucker a child psychiatrist who currently directs the research shares these studies with the general public life before life is a landmark work one that has the potential to challenge and ultimately change our understandings about life and death children who report past life memories typically begin talking spontaneously about a previous life when they are two to three years old some talk about the life of a deceased family member while others describe the life of a stranger they may recount details about previous family members events in the previous life or the way they died in that life the children tend to show a strong emotional involvement with the apparent memories and often cry to be taken to the previous family in many cases parents have taken their children to the places they named where they found that an individual had died whose life matched the details given by the child during the visits some children have recognized family members or friends from that individual s life many children have had birthmarks that matched wounds on the body of the deceased individual researchers have studied more than 2500 such cases and their careful investigations have produced an impressive body of work jama the journal of the american medical association stated in a review of one of dr stevenson s scientific books that in regard to reincarnation he has painstakingly and unemotionally collected a detailed series of cases in which the evidence is difficult to explain on any other grounds life before life explores the various features of this world wide phenomenon describing numerous cases along the way we meet a boy in michigan who after being born with three birthmarks that matched wounds on his deceased brother begins talking about events from the brother s life a boy in turkey who gives a number of accurate details including the name of a man who lived 500 miles away and died fifty years before the boy was born and a girl in sri lanka who is able to recognize the family members of a deceased stranger as they are presented to her one by one giving specifics about their lives that she could not have known from their appearance dr tucker presents this material in a straightforward way relating extraordinary stories that have been amassed with a scientific approach he then considers how best to interpret the evidence and he lets readers reach their own conclusions which for many will be profound

Past Lives Unveiled 2024-02-23 one night in july 2023 the author of this novella had trouble sleeping and
 found themselves in a state of trance where they kept recalling numerous past life memories i then
 decided to turn this into a novella making each memory its own short little chapter little vignettes this
 novella is essentially a series of fragmented memories from numerous different past lives spanning the
 entire history of the world from places as exotic as ancient rome china mongolia egypt africa the middle
 ages the ice age native american lives as well as more contemporary times that give an overview about
 how past life memories work going back and forth between one life to another showing the good the bad
 the ugly the simple the mundane and the profound all in one it essentially amounts to a brief spiritual
 autobiography showing the development of one soul over the course of several thousand years in fairly
 random order that give an overview of development of one soul over the course of human history
