Tax Risk Management 2006-02 most people would agree that tax systems ought to be just and perhaps a great deal more just than they are at present what is more difficult is to agree on what tax justice is this book considers a range of different approaches to and ideas about the nature of tax justice and covers areas such as imbalances in international tax arrangements that deprive developing countries of revenues from natural resources and allow wealthy taxpayers to use tax havens protests against governments and large business attempts to influence policy through more technical means such as the oecd s base erosion and profits shifting project interpersonal matters such as the ways in which tax systems disadvantage women and minorities the application of wider philosophical or economic theories to tax systems the purpose of the book is not to iron out these underlying differences into a grand theory but rather to gain a more precise understanding of how and why we disagree about tax justice in doing so the editors are assisted by a stellar cast of contributors from four continents with a wide variety of views and experiences but a common interest in this central question of how to agree and disagree about tax justice this is of course not only an intellectual exercise but also a necessary precursor to achieving real world change
