this four volume collection reprints key debates about exactly what it means to be literate and how literacy can best be taught rather than centering on the emotional reaction of mass media debates this set focuses on research findings into processes and pedagogy the themes covered include literacy its nature and its teaching reading processes and teaching writing processes and teaching and new literacies the impact of technologies the southampton brokage books are the best source for english inland trade before modern times internal trade always matched overseas trade between 1430 and 1540 the brokage series records all departures through southampton's bargate the owner carter commodity quantity destination and date and many deliveries too twelve such years make up the database that illuminates southampton's trade with its extensive region at the time when the city was at its most important as the principal point of access to england for the exotic spices and dyestuffs imported by the genoese if southampton's international traffic was particularly important the town's commerce was representative also of the commonplace trade that occurred throughout england seventeen papers investigate southampton's interaction with salisbury london winchester and many other places long term trends and short term fluctuations the rise and decline of the italian trade the dominance of salisbury and emergence of jack of newbury the recycling of wealth and metals from the dissolved monasteries all feature here underpinning the book are 32 computer generated maps and numerous tables charts and graphs with guidance provided as to how best to exploit and extend this remarkable resource an accompanying web mounted database overlandtrade.org enables the changing commerce to be mapped and visualised through maps and trade to be tracked week by week and over a century together the book and database provide a unique resource for southampton its trading partners traders and carters freight traffic and the genealogies of the middling sort this book seeks to explore the changing nature of english society through a case study of countryside and town in southern england during the period from c 1380 to c 1520 it explores the influence of landscape and population on the agriculture of wiltshire the regional patterns of arable and pastoral farming and the growing contrast between the large scale mixed farming of the chalklands and the family farms of the claylands it examines the changing situation of the rural tenant population as it reacted to the greater opportunities available in the land market during this period wiltshire became one of the great cloth producing counties of england as reflected in its rising taxable wealth such economic expansion generated jobs both within the industry and beyond stimulating the market for food services and manufactured goods salisbury was one of the greatest cities in the kingdom and below this was a hierarchy of interesting lesser towns but such growth generated its own problems more and more people became dependent on the cloth trade and particularly on exporting cloth if exports fell as during the mid fifteenth century crisis they suffered as scholars are increasingly aware the later middle ages was a period of considerable change and this study contributes to debates about the nature of both change and continuity at a national level it will also be of value to local historians interested in one of the most important periods in wiltshire s history blackwell s cuban studies has been published annually by the university of pittsburgh press since 1985 founded in 1970 it is the preeminent journal for scholarly work on cuba each volume includes articles in both english and spanish a large book review section and an exhaustive compilation of recent works in the field archival basics for historic record collections is an introduction to the concepts policies infrastructure and tasks needed to collect preserve and make archival collections available to researchers the book is based on content presented in workshops by the council of state archivists and presented in an on line course by the american association of state and local history since 2003 arp focuses on the discreet tasks necessary to manage archival collections this is a practical how to book on managing archival collections designed for those who have responsibility for such collections but lack formal archival training the book begins by defining historic records archival collections and the differences between archives libraries and museums while identifying the steps needed to manage archival collections it then looks at collecting archival items including creating a collections policy documenting the acquisition of archival items and the steps needed to bring those items into an archives it discusses arranging preserving and describing archival collections so researchers can find the information they seek next it goes over what is needed to store protect and make archival collections available to researchers the last chapters contemplates the policies skills and infrastructure needed to successfully manage digital records and looks at creating digital copies of analog records to promote their use the book provides templates questionnaires and examples to enable the reader to create customized archival policies and procedures that accommodate the particular

circumstances they find themselves in the book also contains exercises and quizzes designed to reinforce the retention and understanding of critical concepts in addition to examples it has lists of additional resources so those who want more detailed information on particular topics can find it this book is not the only reference book needed by those doing archival work but it should be the first book they need the middle ages was a critical and formative time for western approaches to our natural surroundings an environmental history of the middle ages is a unique and unprecedented cultural survey of attitudes towards the environment during this period exploring the entire medieval period from 500 to 1500 and ranging across the whole of europe from england and spain to the baltic and eastern europe john aberth focuses his study on three key areas the natural elements of air water and earth the forest and wild and domestic animals through this multi faceted lens an environmental history of the middle ages sheds fascinating new light on the medieval environmental mindset it will be essential reading for students scholars and all those interested in the middle ages containing entries for more than 45 000 english scottish welsh irish cornish and immigrant surnames the oxford dictionary of family names in britain and ireland is the ultimate reference work on family names of the uk the dictionary includes every surname that currently has more than 100 bearers each entry contains lists of variant spellings of the name an explanation of its origins including the etymology lists of early bearers showing evidence for formation and continuity from the date of formation down to the 19th century geographical distribution and where relevant genealogical and bibliographical notes making this a fully comprehensive work on family names this authoritative guide also includes an introductory essay explaining the historical background formation and typology of surnames and a guide to surnames research and family history research additional material also includes a list of published and unpublished lists of surnames from the middle ages to the present day the systematic management of records is an important activity for information businesses such as museums and galleries but is not always recognized as a core function record keeping activities are often concentrated on small groups of records and staff charged with managing them may have limited experience in the field records management for museums and galleries offers a comprehensive overview of records management work within the heritage sector and draws on over a decade of experience in applying fundamental principles and practices to the specific circumstances of museums it introduces readers to the institutional culture functions and records common to museums and examines the legislative and regulatory environments affecting record keeping practices the book is comprised of eight chapters including a history of records keeping in the uk museum and gallery sector the basics of records management making a business case for records management requirements of legislation for records management how to conduct a records survey strategy and action planning how to develop a file plan retention schedule and records management programme and a guide to useful additional resources gives practical and tested solutions to real world issues fills a gap in the literature as a handbook in this important sector provides an overview of the sector as a whole for most windows when black women were brought from africa to the new world as slave laborers their value was determined by their ability to work as well as their potential to bear children who by law would become the enslaved property of the mother's master in laboring women reproduction and gender in new world slavery jennifer l morgan examines for the first time how african women's labor in both senses became intertwined in the english colonies beginning with the ideological foundations of racial slavery in early modern europe laboring women traverses the atlantic exploring the social and cultural lives of women in west africa slaveowners expectations for reproductive labor and women's lives as workers and mothers under colonial slavery challenging conventional wisdom morgan reveals how expectations regarding gender and reproduction were central to racial ideologies the organization of slave labor and the nature of slave community and resistance taking into consideration the heritage of africans prior to enslavement and the cultural logic of values and practices recreated under the duress of slavery she examines how women's gender identity was defined by their shared experiences as agricultural laborers and mothers and shows how given these distinctions their situation differed considerably from that of enslaved men telling her story through the arc of african women's actual lives from west africa to the experience of the middle passage to life on the plantations she offers a thoughtful look at the ways women's reproductive experience shaped their roles in communities and helped them resist some of the more egregious effects of slave life presenting a highly original theoretically grounded view of reproduction and labor as the twin pillars of female exploitation in slavery laboring women is a distinctive contribution to the literature of slavery and the history of women the twentieth century saw two world wars and many other conflicts characterised by technological change and severity of casualties medicine has adapted quickly to deal with such challenges and new medical innovations in the military field have had advantages in civil medicine there has thus been interplay between war and medicine that has not only been confined to the armed forces and military medicine but which has impacted on health and medicine for us all these themes will be examined from the boer war to the dawn of a new century and a war against terror the experiences of individuals as doctors nurses and patients are highlighted with personal sometimes graphic first hand accounts bringing home the realities of medical treatment in wartime fascinating documentation of one of the most important film societies in american history in his latest handbook on the records of the major christian religions stuart raymond focuses on the church of england he identifies the available sources comments on their strengths and weaknesses and explains how to make the best use of them the history of the church of england is covered from the reformation in the mid sixteenth century until the present day anyone who has a family connection with the church of england or a special interest in the local history of the church will find his book to be a mine of practical information and an essential aid for their research a sequence of short accessible chapters gives an insight into the relevant records and demonstrates how much fascinating genealogical information can be gleaned from them after providing a brief history of the church of england and a description of its organization stuart raymond explores the wide range of records that researchers can consult among them are parish registers bishops transcripts marriage licenses churchwardens accounts vestry minutes church magazines tithe records and the records of the ecclesiastical courts and anglican charities and missions a wealth of research material is available and this book is the perfect introduction to it this book analyses the process of reshaping liberated societies in post 1945 europe post war societies tried to solve three main questions immediately after the dark times of occupation who could be considered a patriot and a valuable member of the respective national community how could relations between men and women be re established how could the respective society strengthen national cohesion violence in rather different forms appeared to be a powerful tool for such a complex reshaping of societies the chapters are based on present primary research about specific cases and consider the different political mental and cultural developments in various nation states between 1944 and 1948 examples from italy france norway denmark greece ukraine lithuania belarus czechoslovakia and hungary demonstrate a new comparative and fascinating picture of post war europe this perspective overcomes the notorious east west dividing line without covering the manifold differences between individual european countries this book reassesses the relationship between edward i and his earls and the role of english nobility in thirteenth century governance warfare in the modern era has often been described in terms of national armies fighting national wars this volume challenges the view by examining transnational aspects of

military mobilization from the eighteenth century to the present truly global in scope it offers an alternative way of reading the military history of the last 250 years in the years following world war ii many multi national energy firms bolstered by outdated u s federal laws turned their attention to the abundant resources buried beneath native american reservations by the 1970s however a coalition of native americans in the northern plains had successfully blocked the efforts of powerful energy corporations to develop coal reserves on sovereign indian land this challenge to corporate and federal authorities initiated by the crow and northern cheyenne nations changed the laws of the land to expand native american sovereignty while simultaneously reshaping native identities and indian country itself james allison makes an important contribution to ethnic environmental and energy studies with this unique exploration of the influence of america s indigenous peoples on energy policy and development allison s fascinating history documents how certain federally supported often environmentally damaging energy projects were perceived by american indians as potentially disruptive to indigenous lifeways these perceived threats sparked a pan tribal resistance movement that ultimately increased native american autonomy over reservation lands and enabled an unprecedented boom in tribal entrepreneurship at the same time the author demonstrates how this movement generated great controversy within native american communities inspiring intense debates over culturally authentic forms of indigenous governance and the proper management of tribal lands despite the recent renaissance in studies of the reign of richard iii most historians have remained focussed on conventional themes this is the first book to examine how corporations contributed to integrating racial minorities into the american workplace in the latter half of the twentieth century in the space of about thirty years from 1964 to 1994 american corporations abandoned racially exclusionary employment policies and embraced some form of affirmative action to diversify their workforces it was an extraordinary transformation which most historians attribute to civil rights activists federal legislation and labor unions this is the first book to examine the role of corporations in that transformation whereas others emphasize corporate obstruction this book argues that there were corporate executives and managers who promoted fair employment and equal employment opportunity long before the federal government required it and who thereby helped prepare the corporate world for racial integration the book examines the pioneering corporations that experimented with integration in the 1940s and 1950s as well as corporate responses to the civil rights movement and urban crisis in the 1960s and 1970s and the widespread adoption of affirmative action in the 1980s and 1990s arms control remains a major international issue as the twentieth century closes but it is hardly a new concern the effort to limit military power has enjoyed recurring support since shortly after world war i when the united states britain and japan sought naval arms control as a means to insure stability in the far east contain naval expenditure and prevent another world cataclysm richard fanning examines the efforts of american british and japanese leaders political military and social to reach agreement on naval limitation between 1922 and the mid 1930s with focus on the years 1927 30 when political leaders statesmen naval officers and various civilian pressure groups were especially active in considering naval limits the civilian and even some military actors believed the great war had been an aberration and that international stability would reign in the near future but the coming of the great depression brought a dramatic drop in concern for disarmament this study based on a wide variety of unpublished sources compares the cultural underpinnings of the disarmament movement in the three countries especially the effects of public opinion through examination of the many peace groups that played an important role in the disarmament process the decision to strive for arms control he finds usually resulted from peace group pressure and political expediency for anyone interested in naval history this book illuminates the beginnings of the arms limitation effort and the growth of the peace movement first published in 1998 this valuable reference work offers concise expert answers to questions on all aspects of life and culture in medieval england including art architecture law literature kings women music commerce technology warfare and religion this wide ranging text encompasses english social cultural and political life from the anglo saxon invasions in the fifth century to the turn of the sixteenth century as well as its ties to the celtic world of wales scotland and ireland the french and anglo norman world of the continent and the viking and scandinavian world of the north sea a range of topics are discussed from sedulius to skelton from wulfstan of york to reginald pecock from pictish art to gothic sculpture and from the vikings to the black death a subject and name index makes it easy to locate information and bibliographies direct users to essential primary and secondary sources as well as key scholarship with more than 700 entries by over 300 international scholars this work provides a detailed portrait of the english middle ages and will be of great value to students and scholars studying medieval history in england and europe as well as non specialist readers can one individual influence the course of history in the example of churchill and the middle east during post world war i the answer is an irrefutable yes winston s

churchill first as secretary for war and air and then as colonial secretary both formulated and enacted the british imperial mandate policy for iraq and palestine thereby laying the groundwork for issues that are still relevant today including conflicts in israel internal political upheavals in iraq the complicated historical intricacies of the postwar period combined with a variety of personal and political confrontations are at the core of churchill s decisions and finally his parliamentary successes while most books on churchill attempt to cover the course of his political and personal career this volume exclusively focuses on the middle east during the formative years of 1919 1922 and explores the foundations of some of the middle east s most problematic issues today this book challenges the notion that economic crises are modern phenomena through its exploration of the tumultuous credit crunch of the later middle ages it illustrates clearly how influences such as the black death inter european warfare climate change and a bullion famine occasioned severe and prolonged economic decline across fifteenth century england early chapters discuss trends in lending and borrowing and the use of credit to fund domestic trade through detailed analysis of the statute staple and rich primary sources the author then adopts a broad based geographic lens to examine provincial credit before focusing on london s development as the commercial powerhouse in late medieval business academics and students of modern economic change and historic financial revolutions alike will see that the years from 1353 to 1532 encompassed immense upheaval and change reminiscent of modern recessions the author carefully guides the reader to see that these shifts are the precursors of economic change in the early modern period laying the foundations for the financial world as we know it today the two volumes of englishes around the world present high quality original research papers written in honour of manfred görlach founder and editor of the journal english world wide and the book series varieties of english around the world the papers thematically focus on the field that manfred görlach has helped to build and shape volume 1 contains articles on general topics and studies of what might be termed old englishes varieties of english that have been rooted in their respective regions for a long time and have been traditional focal points of scholarly study the first section contains eight general and comparative papers dealing with terminological matters or definitions of core concepts historical issues structural comparisons across a wide range of varieties the second one has nine papers on dialects of english as used in the british isles covering england scotland ulster and ireland and finally there are four contributions on north american varieties of english including southern english african american vernacular english newfoundland vernacular english and american english in a historical perspective the thematic scope comprises the levels of lexis phonology morphology syntax pragmatics and orthography as well as sociohistorical issues the question of the evolution and transmission of dialects various sources of evidence including literary dialect the two volumes of englishes around the world present high quality original research papers written in honour of manfred görlach founder and editor of the journal english world wide and the book series varieties of english around the world the papers thematically focus on the issues the question of the evolution and transmission of dialects various sources of evidence including literary dialect the identification of recorded information with continuing value that documents corporate and cultural memory is one of the archivist s primary tasks and he she accomplishes this mission in part through the process of appraisal but does traditional archival appraisal based on the concepts of primary and evidential values effectively serve the needs of institutional archivists and records managers in an age of scarcity and the challenge of electronic records can archivists and records managers continue to rely upon a methodology essentially unchanged since the early 1950s using functional analysis in archival appraisal a practical and effective alternative to traditional appraisal methodologies shows how archivists in other countries are already using functional analysis which offers a better more effective and imminently more practical alternative to traditional appraisal methodologies that rely upon an analysis of the records themselves from this book information professionals will learn what functional analysis is and how it is already used around the world its useful application for a variety of record types and media including print non textual electronic and born

digital records how functional analysis provides an alternative to a hierarchical arrangement scheme based upon record groups sub groups and series that mimics the structure of an institution or organization a recommended process for the practical and effective implementation of functional analysis now republished with minor corrections this volume provides the first comprehensive collection of charters letters and other documents issued by native rulers of wales from the early twelfth century to the edwardian conquest of 1282 3 that extinguished independent rule examines the native american experience during the american revolution deer have been central to human cultures throughout time and space whether as staples to hunter gatherers icons of empire or the focus of sport their social and economic importance has seen some species transported across continents transforming landscape as they went with the establishment of menageries and park the fortunes of other species have been less auspicious some becoming extirpated or being in threat of extinction due to pressures of over hunting and or human instigated environmental change in spite of their diverse deep rooted and long standing relations with human societies no multi disciplinary volume of research on cervids has until now been produced this volume draws together research on deer from wide ranging disciplines and in so doing substantially advances our broader understanding of human deer relationships in the past and the present themes include species dispersal exploitation patterns symbolic significance material culture and art effects on the landscape and management the temporal span of research ranges from the pleistocene to the modern day and covers europe north america and asia papers derived from international conferences held at the university of lincoln and in paris

Record Series 1894 this four volume collection reprints key debates about exactly what it means to be literate and how literacy can best be taught rather than centering on the emotional reaction of mass media debates this set focuses on research findings into processes and pedagogy the themes covered include literacy its nature and its teaching reading processes and teaching writing processes and teaching and new literacies the impact of technologies

Records Disposition Schedule 1996 when black women were brought from africa to the new world as slave laborers their value was determined by their ability to work as well as their potential to bear children who by law would become the enslaved property of the mother's master in laboring women reproduction and gender in new world slavery jennifer l morgan examines for the first time how african women's labor in both senses became intertwined in the english colonies beginning with the ideological foundations of racial slavery in early modern europe laboring women traverses the atlantic exploring the social and cultural lives of women in west africa slaveowners expectations for reproductive labor and women's lives as workers and mothers under colonial slavery challenging conventional wisdom morgan reveals how expectations regarding gender and reproduction were central to racial ideologies the organization of slave labor and the nature of slave community and resistance taking into consideration the heritage of africans prior to enslavement and the cultural logic of values and practices recreated under the duress of slavery she examines how women's gender identity was defined by their shared experiences as agricultural laborers and mothers and shows how given these distinctions their situation differed considerably from that of enslaved men telling her story through the arc of african women's actual lives from west africa to the experience of the middle passage to life on the plantations she offers a thoughtful look at the ways women's reproductive experience shaped their roles in communities and helped them resist some of the more egregious effects of slave life presenting a highly original theoretically grounded view of reproduction and labor as the twin pillars of female exploitation in slavery laboring women is a distinctive contribution to the literature of slavery and the history of women

Records Management for Museums and Galleries 2012-04-27 the twentieth century saw two world wars and many other conflicts characterised by technological change and severity of casualties medicine has adapted quickly to deal with such challenges and new medical innovations in the military field have had advantages in civil medicine there has thus been interplay between war and medicine that has not only been confined to the armed forces and military medicine but which has impacted on health and medicine for us all these themes will be examined from the boer war to the dawn of a new century and a war against terror the experiences of individuals as doctors nurses and patients are highlighted with personal sometimes graphic first hand accounts bringing home the realities of medical treatment in wartime

**Preliminary Inventory of the War Department Collection of Revolutionary War Records**

1962 fascinating documentation of one of the most important film societies in american history

**Unleashing Microsoft Windows Vista Media Center** 2008-10-23 in his latest handbook on the records of the major christian religions stuart raymond focuses on the church of england he identifies the available sources comments on their strengths and weaknesses and explains how to make the best use of them the history of the church of england is covered from the reformation in the mid sixteenth century until the present day anyone who has a family connection with the church of england or a special interest in the local history of the church will find his book to be a mine of practical information and an essential aid for their research a sequence of short accessible chapters gives an insight into the relevant records and demonstrates how much fascinating genealogical information can be gleaned from them after providing a brief history of the church of england and a description of its organization stuart raymond explores the wide range of records that researchers can consult among them are parish registers bishops transcripts marriage licenses churchwardens accounts vestry minutes church magazines tithe records and the records of the ecclesiastical courts and anglican charities and missions a wealth of research material is available and this book is the perfect introduction to it

**Laboring Women** 2011-09-12 this book analyses the process of reshaping liberated societies in post 1945 europe post war societies tried to solve three main questions immediately after the dark times of occupation who could be considered a patriot and a valuable member of the respective national community how could relations between men and women be re established how could the respective society strengthen national cohesion violence in rather different forms appeared to be a powerful tool for such a complex reshaping of societies the chapters are based on present primary research about specific cases and consider the different political mental and cultural developments in

various nation states between 1944 and 1948 examples from italy france norway denmark greece ukraine lithuania belarus czechoslovakia and hungary demonstrate a new comparative and fascinating picture of post war europe this perspective overcomes the notorious east west dividing line without covering the manifold differences between individual european countries

Records of the United States Marine Corps 1970 this book reassesses the relationship between edward i and his earls and the role of english nobility in thirteenth century governance

**Fighting Fit** 2008-09-01 warfare in the modern era has often been described in terms of national armies fighting national wars this volume challenges the view by examining transnational aspects of military mobilization from the eighteenth century to the present truly global in scope it offers an alternative way of reading the military history of the last 250 years

**Record Series** 1885 in the years following world war ii many multi national energy firms bolstered by outdated u s federal laws turned their attention to the abundant resources buried beneath native american reservations by the 1970s however a coalition of native americans in the northern plains had successfully blocked the efforts of powerful energy corporations to develop coal reserves on sovereign indian land this challenge to corporate and federal authorities initiated by the crow and northern cheyenne nations changed the laws of the land to expand native american sovereignty while simultaneously reshaping native identities and indian country itself james allison makes an important contribution to ethnic environmental and energy studies with this unique exploration of the influence of america s indigenous peoples on energy policy and development allison s fascinating history documents how certain federally supported often environmentally damaging energy projects were perceived by american indians as potentially disruptive to indigenous lifeways these perceived threats sparked a pan tribal resistance movement that ultimately increased native american autonomy over reservation lands and enabled an unprecedented boom in tribal entrepreneurship at the same time the author demonstrates how this movement generated great controversy within native american communities inspiring intense debates over culturally authentic forms of indigenous governance and the proper management of tribal lands

**Art in Cinema** 2006 despite the recent renaissance in studies of the reign of richard iii most historians have remained focussed on conventional themes

Tracing Your Church of England Ancestors 2017-08-30 this is the first book to examine how corporations contributed to integrating racial minorities into the american workplace in the latter half of the twentieth century

**Preliminary Inventory** 1962 in the space of about thirty years from 1964 to 1994 american corporations abandoned racially exclusionary employment policies and embraced some form of affirmative action to diversify their workforces it was an extraordinary transformation which most historians attribute to civil rights activists federal legislation and labor unions this is the first book to examine the role of corporations in that transformation whereas others emphasize corporate obstruction this book argues that there were corporate executives and managers who promoted fair employment and equal employment opportunity long before the federal government required it and who thereby helped prepare the corporate world for racial integration the book examines the pioneering corporations that experimented with integration in the 1940s and 1950s as well as corporate responses to the civil rights movement and urban crisis in the 1960s and 1970s and the widespread adoption of affirmative action in the 1980s and 1990s

*Collective Identities and Post-War Violence in Europe, 1944-48* 2021-11-27 arms control remains a major international issue as the twentieth century closes but it is hardly a new concern the effort to limit military power has enjoyed recurring support since shortly after world war i when the united states britain and japan sought naval arms control as a means to insure stability in the far east contain naval expenditure and prevent another world cataclysm richard fanning examines the efforts of american british and japanese leaders political military and social to reach agreement on naval limitation between 1922 and the mid 1930s with focus on the years 1927 30 when political leaders statesmen naval officers and various civilian pressure groups were especially active in considering naval limits the civilian and even some military actors believed the great war had been an aberration and that international stability would reign in the near future but the coming of the great depression brought a dramatic drop in concern for disarmament this study based on a wide variety of unpublished sources compares the cultural underpinnings of the disarmament movement in the three countries especially the effects of public opinion through examination of the many peace groups that played an important role in the disarmament process the decision to strive for arms control he finds usually resulted from peace group pressure and political expediency for anyone interested in naval history this book illuminates the beginnings of the arms limitation effort and the growth of the peace movement

**Nobility and Kingship in Medieval England** 2014 first published in 1998 this valuable reference work offers concise expert answers to questions on all aspects of life and

culture in medieval england including art architecture law literature kings women music commerce technology warfare and religion this wide ranging text encompasses english social cultural and political life from the anglo saxon invasions in the fifth century to the turn of the sixteenth century as well as its ties to the celtic world of wales scotland and ireland the french and anglo norman world of the continent and the viking and scandinavian world of the north sea a range of topics are discussed from sedulius to skelton from wulfstan of york to reginald pecock from pictish art to gothic sculpture and from the vikings to the black death a subject and name index makes it easy to locate information and bibliographies direct users to essential primary and secondary sources as well as key scholarship with more than 700 entries by over 300 international scholars this work provides a detailed portrait of the english middle ages and will be of great value to students and scholars studying medieval history in england and europe as well as non specialist readers

**Transnational Soldiers** 2012-11-28 can one individual influence the course of history in the example of churchill and the middle east during post world war i the answer is an irrefutable yes winston s churchill first as secretary for war and air and then as colonial secretary both formulated and enacted the british imperial mandate policy for iraq and palestine thereby laying the groundwork for issues that are still relevant today including conflicts in israel internal political upheavals in iraq the complicated historical intricacies of the postwar period combined with a variety of personal and political confrontations are at the core of churchill s decisions and finally his parliamentary successes while most books on churchill attempt to cover the course of his political and personal career this volume exclusively focuses on the middle east during the formative years of 1919 1922 and explores the foundations of some of the middle east s most problematic issues today

*Catalog of Copyright Entries* 1977 this book challenges the notion that economic crises are modern phenomena through its exploration of the tumultuous credit crunch of the later middle ages it illustrates clearly how influences such as the black death inter european warfare climate change and a bullion famine occasioned severe and prolonged economic decline across fifteenth century england early chapters discuss trends in lending and borrowing and the use of credit to fund domestic trade through detailed analysis of the statute staple and rich primary sources the author then adopts a broad based geographic lens to examine provincial credit before focusing on london s development as the commercial powerhouse in late medieval business academics and students of modern economic change and historic financial revolutions alike will see that the years from 1353 to 1532 encompassed immense upheaval and change reminiscent of modern recessions the author carefully guides the reader to see that these shifts are the precursors of economic change in the early modern period laying the foundations for the financial world as we know it today

**Rockin' Records Buyers-Sellers Reference Book and Price Guide 2010 Edition** 2010 the two volumes of englishes around the world present high quality original research papers written in honour of manfred görlach founder and editor of the journal english world wide and the book series varieties of english around the world the papers thematically focus on the field that manfred görlach has helped to build and shape volume 1 contains articles on general topics and studies of what might be termed old englishes varieties of english that have been rooted in their respective regions for a long time and have been traditional focal points of scholarly study the first section contains eight general and comparative papers dealing with terminological matters or definitions of core concepts historical issues structural comparisons across a wide range of varieties the second one has nine papers on dialects of english as used in the british isles covering england scotland ulster and ireland and finally there are four contributions on north american varieties of english including southern english african american vernacular english newfoundland vernacular english and american english in a historical perspective the thematic scope comprises the levels of lexis phonology morphology syntax pragmatics and orthography as well as sociohistorical issues the question of the evolution and transmission of dialects various sources of evidence including literary dialect

*Sovereignty for Survival* 2015-10-20 the two volumes of englishes around the world present high quality original research papers written in honour of manfred görlach founder and editor of the journal english world wide and the book series varieties of english around the world the papers thematically focus on the field that manfred görlach has helped to build and shape volume 1 contains articles on general topics and studies of what might be termed old englishes varieties of english that have been rooted in their respective regions for a long time and have been traditional focal points of scholarly study the first section contains eight general and comparative papers dealing with terminological matters or definitions of core concepts historical issues structural comparisons across a wide range of varieties the second one has nine papers on dialects of english as used in the british isles covering england scotland ulster and ireland and finally there are four contributions on north american varieties

of English including southern English African American Vernacular English Newfoundland Vernacular English and American English in a historical perspective the thematic scope comprises the levels of lexis phonology morphology syntax pragmatics and orthography as well as sociohistorical issues the question of the evolution and transmission of dialects various sources of evidence including literary dialect

Richard III 1991-03-14 the identification of recorded information with continuing value that documents corporate and cultural memory is one of the archivist's primary tasks and he/she accomplishes this mission in part through the process of appraisal but does traditional archival appraisal based on the concepts of primary and evidential values effectively serve the needs of institutional archivists and records managers in an age of scarcity and the challenge of electronic records can archivists and records managers continue to rely upon a methodology essentially unchanged since the early 1950s using functional analysis in archival appraisal a practical and effective alternative to traditional appraisal methodologies shows how archivists in other countries are already using functional analysis which offers a better more effective and imminently more practical alternative to traditional appraisal methodologies that rely upon an analysis of the records themselves from this book information professionals will learn what functional analysis is and how it is already used around the world its useful application for a variety of record types and media including print non-textual electronic and born-digital records how functional analysis provides an alternative to a hierarchical arrangement scheme based upon record groups sub-groups and series that mimics the structure of an institution or organization a recommended process for the practical and effective implementation of functional analysis

*Racial Integration in Corporate America, 1940-1990* 2009-11-13 now republished with minor corrections this volume provides the first comprehensive collection of charters letters and other documents issued by native rulers of Wales from the early twelfth century to the Edwardian conquest of 1283 that extinguished independent rule

**Racial Integration in Corporate America, 1940-1990** 2009-09-21 examines the native American experience during the American Revolution

Peace And Disarmament 2014-10-17 deer have been central to human cultures throughout time and space whether as staples to hunter-gatherers icons of empire or the focus of sport their social and economic importance has seen some species transported across continents transforming landscape as they went with the establishment of menageries and parks the fortunes of other species have been less auspicious some becoming extirpated or being in threat of extinction due to pressures of over-hunting and/or human instigated environmental change in spite of their diverse deep-rooted and long-standing relations with human societies no multi-disciplinary volume of research on cervids has until now been produced this volume draws together research on deer from wide-ranging disciplines and in so doing substantially advances our broader understanding of human-deer relationships in the past and the present themes include species dispersal exploitation patterns symbolic significance material culture and art effects on the landscape and management the temporal span of research ranges from the Pleistocene to the modern day and covers Europe North America and Asia papers derived from international conferences held at the University of Lincoln and in Paris
