The Literary and Scientific Repository, and Critical Review 1822

this book examines the textual social cultural practical and institutional environments to which the expression teaching and learning contexts refers it reflects on the extent to which studying such environments helps us to better understand ancient or modern sources and how notions of teaching and learning are to be understood tackling two problems the first is that of certain sources of scientific knowledge being studied without taking into account the various contexts of transmission that gave this knowledge a long lasting meaning the second is that other sources are related to teaching and learning activities but without being too precise and demonstrative about the existence and nature of this teaching context in other words this book makes clear what is meant by context and highlights the complexity of the practice hidden by the words teaching and learning divided into three parts the book makes accessible teaching and learning situations presents comparatist approaches and emphasizes the notion of teaching as projects embedded in coherent treatises or productions

The American Phrenological Journal and Repository of Science, Literature and General Intelligence 1851

the second edition of this guide to basic reference sources in the social sciences contains nearly three times as many entries 2 200 as the earlier edition and also includes several other notable enhancements in addition to revising and substantially enlarging the chapters on reference sources li has further increased the usefulness of this reference volume by adding a chapter on geography and one on business that is distinct from economies since the publication of the first edition there have been two obvious developments in information storage and retrieval the rapid development of online databases and the development of cd rom instead of devoting a separate chapter to these developments the book incorporates online databases cd rom and other forms of data sources into the text in addition there is a brief introduction to these developments although the general deadline for inclusion in the volume was december 1988 quite a few titles published in 1989 are included
