resource for companies to improve strategic planning and ensure they are implementing effective corporate strategy bull presents a comprehensive range of methods to analyse the tools that analyse business competitive data and market information bull consistent approach and detailed instructions allow for readers to implement strategy quickly and effectively bull management consultants and strategy departments can use this book to make a case for the most effective method to apply to any problem

that academics critical of management theory don't critique its history and proposes a kind of liberation theology in response but this is not as doctrinaire it's more like replacing some well justified habits with a refreshing originality of approach the outcome is stimulating the author offers a cogently argued deconstruction of some well known frameworks in strategy and delivers his own reinterpretation of strategic discourse there are five longer case studies in the book and several shorter vignettes scattered throughout early chapters as well as pedagogical aids at the end of each chapter

best of biz the business information site do you worry about organizations becoming slaves to markets do you wish that organizations had the nerve to build their own ethos rather than just grubbing for profit do you aspire to inspiration rather than perspiration why does management practice get in the way of thinking and creativity

stephen cummings provides insight and guidance in a book of genuine scholarship and creativity john mcgee president of the strategic management society usa management courses need more of what stephen is offering he wants us to go on an unlearning curve one which leads to fresh thinking about strategy and the emerging roles and responsibilities of business and companies this book not only tells us where we are coming from but more importantly it inspires us to think profoundly about where we could go it's also a very good read

josephine green director of trends and strategy philips recreating strategy provides a challenging examination of the emergence of management which combines postmodern and orthodox perspectives stephen cummings is able to provide not only a fresh treatment of strategy and ethics but also to engage with a variety of potential audiences he provokes and informs in equal measure

richard whipp cardiff university a truly eclectic approach to strategy intellectually capturing the book is great fun to read at the same time a must for those who want to discuss management beyond styles fads and fashions

hubert wagner qonsult recreating strategy is written for students of strategy change management and more general management and organization theory courses it will provide a better understanding of how to bring together and apply the many analytical frameworks relating to the organization as a whole

stephen cummings challenges the view that there is never one best framework and shows why the latest theory is not necessarily better than earlier ones the textbook includes short and long case studies interesting pictorial aids and examples and a generally more participative and

rewarding approach than that offered by more mainstream texts
powerpoint slides to accompany the book are now also available by
clicking on the link to sample chapters and resources in the left hand
margin the book also offers more scope for individual lecturers who wish
to encourage students to question assumptions and think creatively
