from key conferences in 2011 such as truth be told amsterdam truth at work paris paradoxes of truth and denotation barcelona and axiomatic theories of truth oxford studying the nature of the concept of truth has always been a core role of philosophy but recent years have been a boom time in the topic with a wealth of recent conferences examining the subject from various angles this collection of essays recognizes the pressing need for a volume that brings scholars up to date on the arguments offering academics and graduate students alike a much needed repository of today s cutting edge work in this vital topic of philosophy the volume is required reading for anyone needing to keep abreast of developments and is certain to act as a catalyst for further innovation and research

getting a handle on finances can be challenging at any age whether you re a parent struggling to explain savings to your children a newly engaged couple considering joint bank accounts or a baby boomer entering retirement kevin o leary has advice to help you make and keep more money as a lead dragon of cbc s dragons den and abc s shark tank kevin s success with money management and in business is legendary but he s made mistakes along the way too and he s writing this book so others like his son and daughter can benefit from his experiences each chapter is geared to a specific age or stage in life you ll find real life examples of common money mistakes and strategies for avoiding them cold hard truth quizzes and charts aimed at boosting your wallet wisdom and tips and tricks for making more money and growing it faster to achieve financial freedom in long road to hard truth the 100 year mission to create the national museum of african american history and culture robert l wilkins tells the story of how his curiosity about why there wasn t a national museum dedicated to african american history and culture became an obsession eventually leading him to quit his job as an attorney when his wife was seven months pregnant with their second child and make it his mission to help the museum become a reality long road to hard truth chronicles the early history when staunch advocates sought to create a monument for black soldiers fifty years after the end of the civil war and in response to the pervasive indignities of the time including lynching jim crow segregation and the slander of the racist film birth of a nation the movement soon evolved to envision creating a national museum and wilkins follows the endless obstacles through the decades culminating in his honor of becoming a member of the presidential commission that wrote the plan for creating the museum and how with support of both black and white democrats and republicans congress finally authorized the museum in september 2016 exactly 100 years after the movement to create it began the smithsonian will open the national museum of african american history and culture the book s title is inspired in part by james baldwin who testified in congress in 1968 that my history contains the truth about america it is going to be hard to teach it long road to hard truth concludes that this journey took 100 years because many in america are unwilling to confront the history of america s legacy of slavery and discrimination and that the only reason this museum finally became a reality is that an unlikely bipartisan coalition of political leaders had the courage and wisdom to declare that america could not and should not continue to evade the hard truth
