he accomplished a lifelong dream of having that career in law enforcement the many gruesome and violent crimes he investigated took their toll on his health and psyche realizing what his lifelong career had done he had to find an avenue to allow him to keep associated with his work without the trials and tribulations of the job knowing it was a risk to get out of investigations he pursued a position with the us army protective services unit this action would allow him to continue working until retirement this decision caused him to leave investigations but to stay in the job until his retirement at the end the us army did offer him a chance to return to criminal investigations but he turned them down and retired he moved to sun city center florida where he enjoys spending time with his wife of thirty five plus years elda traveling throughout the united states and other parts of the world with her and reading the many books accumulated over the years this new book by the well known anthropologists jean and john l comaroff explores the global preoccupation with criminality in the early twenty first century a preoccupation strikingly disproportionate in most places and for most people to the risks posed by lawlessness to the conduct of everyday life ours in an epoch in which law making law breaking and law enforcement are ever more critical registers in which societies construct contest and confront truths about themselves an epoch in which criminology broadly defined has displaced sociology as the privileged means by which the social world knows itself they also argue that as the result of a tectonic shift in the triangulation of capital the state and governance the meanings attached to crime and with it the nature of policing have undergone significant change also that there has been a palpable muddying of the lines between legality and illegality between corruption and conventional business even between crime and policing which exist nowadays in ever greater hyphenated complicity thinking through crime and policing is therefore an excursion into the contemporary order of things or rather into the metaphysic of disorder that saturates the late modern world indeed has become its leitmotif it is also a meditation on sovereignty and citizenship on civility class and race on the law and its transgression on the political economy of representation this work examines how lesbian detective and mystery fiction represents lesbian characters and experience within the confines of the genre as this book points out such fiction reveals the lesbian s increasing visibility in the wider society nevertheless it can still be difficult to find a complete representation of lesbian life in mainstream literature often the best place to find the lesbian represented in books is within the pages of genre fiction especially the detective story this book looks at how the lesbian characters public and private lives intersect often at the point of coming out or of moving from isolation to connection with the community also considered is the lesbian detective s typical confrontation with two crucial elements of the investigator s role the use of violence and the acquisition and expression of authority within police systems other topics of discussion include the cultural environments in which the stories are situated and the use of humor as a key weapon in the lesbian detective s investigative arsenal gathering accurate data probably constitutes one of the most important aspects of crime investigation and prevention how do we put the data to use how can we improve our methods of handling the information we collect by describing a project for the development and implementation of a computerized crime mapping system in the chicago area this book makes a significant contribution toward a more efficient and intelligent use of crime data to understand and prevent crime in a community setting this collection establishes new perspectives on the idea of mystery as it is enacted and encoded in the genre of detective fiction essays reclaim detective fiction as an object of critical inquiry examining the ways it shapes issues of social destabilization moral ambiguity reader complicity intertextuality and metafiction breaking new ground by moving beyond the critical preoccupation with classification of historical types and generic determinants contributors examine the effect of mystery on literary
