the life games of the seventh world chess champion vasily smyslov the seventh world champion had a long and illustrious chess career he played close to 3 000 tournament games over seven decades from the time of lasker and capablanca to the days of anand and carlsen from 1948 to 1958 smyslov participated in four world championships becoming world champion in 1957 smyslov continued playing at the highest level for many years and made a stunning comeback in the early 1980s making it to the finals of the candidates cycle only the indomitable energy of 20 year old garry kasparov stopped smyslov from qualifying for another world championship match at the ripe old age of 63 in this first volume of a multi volume set russian fide master andrey terekhov traces the development of young vasily from his formative years and becoming the youngest grandmaster in the soviet union to finishing second in the world championship match tournament with access to rare soviet era archival material and invaluable family archives the author complements his account of smyslov s growth into an elite player with dozens of fascinating photographs many never seen before as well as 49 deeply annotated games german grandmaster karsten müller s special look at smyslov s endgames rounds out this fascinating first volume this book is an extremely well researched look at his life and games a very welcome addition to the body of work about smyslov from the foreword by peter svidler the writings of mikhail moiseevich botvinnik 1911 1995 are legendary and botvinnik s legacy is deeply imprinted in the dna of every grandmaster today says andy soltis in his foreword to this book the patriarch took professionalism in chess to a new level and was the first to emphasize preparation what a player does before a game plays an enormous if not decisive role in what happens during a game in this book botvinnik writes the story of the three clashes with his compatriot vasily smyslov matches full of tension between two virtually equal opponents and his match with tigran petrosian which marks the end of an era the mighty botvinnik lost his world title fifteen years after he conquered the highest crown for the first time the first part of this book gives botvinnik s view of three world championship matches and how he prepared for them the matches were as great a clash of personalities as in any world championship as much as karpov versus kasparov while botvinnik played the role of a stern father smyslov was like the smiling easy going uncle botvinnik was proud of what he called his hard character smyslov seemed to get along with everyone his attitude was to try to do his best and let fate decide the last part of the book is the gripping account of a heroic battle the ageing botvinnik desperately tries to bounce back after his armenian opponent tigran petrosian has taken an early lead but ultimately the patriarch fails mikhail botvinnik one of the greatest chess players of all time analyses many of the games reveals his match strategy and comments on the strategic choices of his opponent this important historical document also features annotations and writings by smyslov petrosian and other top grandmasters the games of a secret training match by botvinnik and botvinnik s legendary notebooks including the final one containing his preparation for a match with bobby fischer in 1969 a match that was never to be the concept of deviance has been central to the academic study of western esotericism since its inception this book being the proceedings of the 6th biennial conference of the european society for the study of western esotericism esse explores the relationship between esotericism and various forms of deviance as concept category and practice from antiquity until late modernity the volume is the first to combine incisive conceptual explorations of the concept of deviance and how it informs and challenges the study of esotericism alongside a wide range of empirically grounded case discussions a crucial decision spared chess grandmaster david bronstein almost certain death at the hands of the nazis one fateful move cost him the world championship russian champion mark taimanov was a touted as a hero of the soviet state until his loss to bobby fischer all but ruined his life yefim geller s dream of becoming world champion was crushed by a bad move against fischer his hated rival yuri averbakh had no explanation how he became the world s oldest grandmaster other than the quixotic nature of fate vasily smyslov the only one of the five to become world champion would reign for just one year fortune he said gave him pneumonia at the worst possible time this book explores how fate played a capricious role in the lives of five of the greatest players in chess history today s young players have benefited greatly from working with chess computers there is little doubt that advanced software and electronic training programs have significantly contributed to the rise of the standards of play but there is a negative side to this many young chess players see the computer as the ultimate response to nearly everything they think that computer analysis is the best and the fastest way to find the truth in any position on the board as a result many of those players have gradually stopped thinking and analysing for themselves prominent russian chess trainer alexander kalinin knows that what you need in order to make real progress in chess is not more computer input but increased understanding to fully digest all available data and to discover the ultimate secrets of chess you must dislodge your decision making from your addiction to the computer and re develop the habit of using your own brain kalinin helps players seeking the master title by showing how concrete knowledge leads to improved decisions at the board a master must understand the importance of aesthetics knows how to curb the influence of the computer accepts that the classical heritage is essential in his development learns the importance of human interaction in reaching analytical mastery and grasps how to spot and fight his weaknesses kalinin provides candidate masters with a wealth of study and training material the large majority of that material has never been published before kalinin reveals the mistakes he himself made on his road to the master title most examples are taken from games of players who themselves are on the road to chess mastery this brand new edition contains every move standard international algebraic notation of every game played in world championship competition including all official such titles since 1886 and all decisive matches by the world s leading players for the 50 played by the greatest chessplayer of all time the series in itself is a continuation of kasparov s mammoth history of chess comprising my great predecessors and modern chess kasparov s historical volumes have received great critical and public acclaim for their rigorous analysis and comprehensive detail regarding the developments in chess that occurred both on and off the board this new volume and series continues in this vein with kasparov scrutinising his most fascinating encounters from the period 1973 1985 whilst also charting his development away from the board this period opens with the emergence of a major new chess star from baku and ends with kasparov s first clash with reigning world champion anatoly karpov a mammoth encounter that stretched out over six months it had been known in russia for some time that kasparov had an extraordinary talent but the first time that this talent was unleashed on the western world was in 1979 the russian chess federation had received an invitation for a player to participate in a tournament at banja luka and under the impression that this was a junior event sent along the fifteen year old kasparov as yet without even an international rating far from being a junior tournament banja luka was actually a major international event featuring numerous world class grandmasters undeterred kasparov stormed to first place scoring 11½ 15 and finishing two points clear of the field over the next decade this broad daylight between kasparov and the rest of the field was to become a familiar sight in the world s leading tournaments this is a continuation of a series of comprehensive chronological reference works listing the results of men s chess competitions all over the world individual and team matches the present volume covers 1961
