

a distinctive debut novel by a mature new voice sheds light on a previously neglected aspect of war its casualties and victims and those forces unleashed by a conflict that changed the world forever it s 1943 and jack devine a farmer s son from the rural north of scotland is finally called up to the raf jack dreams of becoming a pilot breaking hearts and returning home a hero the realities of training are very different with boredom bullying and casual violence the norm drawn together by a love of jazz music jack makes friends with terry a worldly welshman dabbling in the black market joe a fellow scot and aggressive anti fascist and the public school educated clive the group form a jazz band to surprising acclaim and for a while an alternative future to that preordained for each seems possible but the initial camaraderie soon gives way to simmering resentment as age old tensions resurface when one of the four dies in a suspicious flying accident another in the group is suspected of murder jack must not only navigate the demands of pilot training an errant girlfriend constant redeployments and a bloody war that is getting ever nearer but also the ever present danger closer to home and the increasing realization that the dice are stacked against those like him wishing to escape the shackles of the old order the comedy of philosophy brings modern debates in continental philosophy to bear on the historical study of early cinematic comedy through the films of mack sennett buster keaton charlie chaplin harold lloyd and the marx brothers lisa trahair investigates early cinema s exploration of sense and nonsense by utilizing the contributions to the philosophy of comedy made by freud and bataille and by examining significant poststructuralist interpretations of their work trahair explores the shift from the excessive physical slapstick of the mack sennett era to the so called structural comedy of the 1920s and also offers a new perspective on the importance of psychoanalysis for the study of film by focusing on the implications of freud s theory of the unconscious for our understanding of visuality

scratch projects passion peers play the labour markets and european societies as a whole are subject to constant change one way to face these challenges is the application of entrepreneurial skills like self motivation time management etc the authors give examples of entrepreneurship in the fields of digitalization social innovation and eco innovation and present special groups of entrepreneurs e g migrants and their entrepreneurial spirit thus the readers get insight in how an innovative and competitive europe can look like the organ is one of the oldest instruments in western music and its sound has inspired many of the greatest composers from the past half a millennium from bach through to messiaen the full possibilities of the instrument however have often been overlooked orchestration textbooks tend to mention the organ only in passing with little practical advice for the composer to latch onto many organ books will explain technical jargon and how the organ is designed but do not discuss what should actually be written in the score this book on the other hand offers a practical guide for composers on how to write idiomatically for the instrument with the aim of helping them exploit the instrument s full timbral and technical potential it provides in depth advice not only on notation but also the full resources of the modern organ including dedicated chapters on registration writing for manuals and pedals and using the organ in ensembles among others multiple musical examples are quoted from across the history of organ repertoire with a particular focus on contemporary composers and music there is advice tailored to non classical musicians such as guidance on virtual instruments the online companion website to this book provides video demonstrations chapter summaries sample organ stop lists and other useful further resources in summary the goal of this book is to show not just what organ music was or what it is but what it can be

thanks to the successes of directors and actors like john woo jackie chan and chow yun fat the

cinema of hong kong is wildly popular worldwide and there is much more to this diverse film culture than most western audiences realize beyond martial arts and comedy hong kong films are a celebration of the grand diversity and pageantry of moviemaking covering action comedy horror eroticism mythology historical drama modern romances and experimental films information on 1 100 films produced in british hong kong from 1977 to 1997 is included here

Entrepreneurship! 2021-06

the labour markets and european societies as a whole are subject to constant change one way to face these challenges is the application of entrepreneurial skills like self motivation time management etc the authors give examples of entrepreneurship in the fields of digitalization social innovation and eco innovation and present special groups of entrepreneurs e g migrants and their entrepreneurial spirit thus the readers get insight in how an innovative and competitive europe can look like

Organ 2011-09-20

the organ is one of the oldest instruments in western music and its sound has inspired many of the greatest composers from the past half a millennium from bach through to messiaen the full possibilities of the instrument however have often been overlooked orchestration textbooks tend to mention the organ only in passing with little practical advice for the composer to latch onto many organ books will explain technical jargon and how the organ is designed but do not discuss what should actually be written in the score this book on the other hand offers a practical guide for composers on how to write idiomatically for the instrument with the aim of helping them exploit the instrument s full timbral and technical potential it provides in depth advice not only on notation but also the full resources of the modern organ including dedicated chapters on registration writing for manuals and pedals and using the organ in ensembles among others multiple musical examples are quoted from across the history of organ repertoire with a particular focus on contemporary composers and music there is advice tailored to non classical musicians such as guidance on virtual instruments the online companion website to this book provides video demonstrations chapter summaries sample organ stop lists and other useful further resources in summary the goal of this book is to show not just what organ music was or what it is but what it can be

First Time Solo 2013-05-23

First Time Solo is a book that provides a practical guide for composers on how to write idiomatically for the instrument with the aim of helping them exploit the instrument's full timbral and technical potential.
