questo numero della rivista aut aut presenta gli articoli di giovanni leghissa giovanni scibilia davide zoletto raymond williams aihwa ong edoardo greblo tiziano possamai giuseppe varchetta guido paolo ridoni dan wiesenfeld massimo recalcanti duccio manetti federica romanini stefano crosara thomas bernhard this book is on military history of india this is an aspect of indian history that has received scanty attention the political social and cultural aspects of indian history have been more than adequately dealt with by eminent indian and western scholars this deficiency is largely responsible for the lack of insight in the real life of india and has produced distorted judgments about things indian those who want to have correct perspective of indian history must learn the military aspect of indian history in this book the following six battles have been described and analyzed 1 the battle of jhelum 2 the battle of tarori 3 the battle of kanwa 4 the battle of rakshas tagadi 5 the battle of panipat 6 the battle of assaye the conclusion is that if india wants to remain free and not become a satellite of a bigger power it must build an indigenously superior weapon system borrowed knowledge and weapons may help overcome temporary deficiency but it is not a permanent solution the history of the ancient civilizations in 6 volumes is one of the best known works by historian max duncker the author s object in regard to the ancient east was not to retrace the beginning of human civilization but rather to understand and establish the value and extent of those early phases of civilization to which the entire development of the human race goes back the narrative embraces the independent civilizations of the ancient east which came to exercise a mutual influence on each other first it follows the realm on the Nile and the kingdoms of hither Asia as far as the point where the nations of Iran began to influence their destinies and then it attempts to set forth the peculiar development of the Aryan tribes in the valleys of the Indus and the Ganges down to the times of Tshandragupta and Asoka then follows the history of the Bactrians the Medes and the Persians until the period when the nations of the Table Land of Iran were united by Cyrus and Darius with the countries of Western Asia when Aryan life and Aryan civilization gained the supremacy over the whole region from Ceylon to the Nile and the Hellespont the forms of life at which the great empires of Asia had arrived are finally brought face to face with the more youthful civilization attained by the Hellenes in their mountain cantons this new development is followed down to the first great shock when East and West met in conflict and the Achaemenids sought to crush the Hellenes under the weight of Asia with the failure of this attempt the history of antiquity concludes English Summary the series Fragmenta Comica will provide a complete commentary on the fragments of Greek comedy the aim of the commentary is twofold on the one hand it is meant to make accessible these mostly rather challenging texts from a number of different perspectives on the other hand it should help in the reconstruction the plays where this is possible as well as in achieving a literary historical classification of the authors the fragments and testimonia will be translated the results obtained in the commentary will be integrated into general surveys published in the Studia Comica series on comedy and comedy techniques such as parody and satire as well as on its political function the project is planned to take fifteen years to complete German description Die Reihe Fragmenta Comica wird die vollständige Kommentierung der Fragmente der griechischen Komödie bieten Ziel der Kommentare ist es einerseits die in der Regel schwierig zu verstehenden Texte unter allen möglichen Gesichtspunkten zu erschließen andererseits wo dies möglich ist eine Rekonstruktion der Stücke zu versuchen und eine literaturgeschichtliche Einordnung der Autoren vorzunehmen die Fragmente und Testimonien werden übersetzt die in den Kommentaren erzielten Ergebnisse sollen in allgemeine Studien einfließen die in den Studia Comica veröffentlicht werden zur Komik und komischen Techniken wie Parodie Satire sowie zur politischen Funktion Prof Dr Bernhard Zimmermann leitet die Forschungsstelle Kommentierung der Fragmente der griechischen Komödie an der Heidelberger Akademie der Wissenschaften die Arbeitsstelle des Projekts ist am Seminar für Klassische Philologie der Universität Freiburg angesiedelt ein Weblog berichtet aktuell über den Fortgang des Projekts das auf 15 Jahre ausgelegt ist das Projekt ist international vernetzt und arbeitet mit Zentren zur Erforschung der fragmentarisch erhaltenen griechischen Literatur in Italien Großbritannien und den USA zusammen Vol 1 36 1879 1914 Give statistics for 1878 1913 a comprehensive introduction to the concepts of joining technologies for hybrid structures this book introduces the concepts of joining technology for polymer metal hybrid structures by addressing current and new joining methods this is achieved by using a balanced approach focusing on the scientific features structural physical chemical and metallurgical polymer science phenomena and engineering properties mechanical performance design applications etc of the currently available and new joining processes it covers such topics as mechanical fastening adhesive bonding advanced joining methods and statistical analysis in joining technology joining of polymer metal hybrid structures principles and applications is structured by joining principles in adhesion based mechanical fastened and direct assembly methods the book discusses such recent technologies as friction riveting friction spot joining and ultrasonic joining this is used for applications where the original base material characteristics must remain unchanged additional sections cover the main principles of statistical analysis in joining technology illustrated with examples from the field of polymer metal joining joining methods discussed include mechanical fastening bolting screwing riveting hinges and fits of polymers and composites adhesive bonding and other advanced joining methods friction staking laser welding induction welding etc provides a combined engineering and scientific approach used

to describe principles properties and applications of polymer metal hybrid joints describes the current developments in design of experiments and statistical analysis in joining technology with emphasis on joining of polymer metal hybrid structures covers recent innovations in joining technology of polymer metal hybrid joints including friction riveting friction spot joining friction staking and ultrasonic joining principles illustrated by pictures 3d schemes charts and drawings using examples from the field of polymer metal joining joining of polymer metal hybrid structures principles and applications will appeal to chemical polymer materials metallurgical composites mechanical process product and welding engineers scientists and students technicians and joining process professionals the social psychology of bargaining and negotiation focuses on the integrative survey of work done in social psychology on the processes of negotiation and bargaining the publication first takes a look at bargaining relationship an overview of social psychological approaches to the study of bargaining and the social components of bargaining structure discussions focus on the number of parties involved in the bargaining exchange factors affecting bargaining effectiveness structural and social psychological characteristics of bargaining relationships and availability of third parties the text then examines the issue components of bargaining structure and bargainers as individuals including individual differences in personality and background interpersonal orientation issue incentive magnitude and reward structure and intangible issues in bargaining the book ponders on social influence and influence strategies and interdependence topics include motivational orientation parameters of interdependence in bargaining overall pattern of moves and countermoves and appeals and demands the publication is a valuable source of data for researchers interested in the social psychology of bargaining and negotiation ad hoc and interdisciplinary the field of interaction design claims no unified theory yet guidelines are needed in essays by 26 major thinkers and designers this book presents the rich mosaic of ideas which nourish the lively art of interaction design the editors introduction is a critical survey of interaction design with a debt and contribut instrumentation and automatic control systems the encyclopedia of library and information science provides an outstanding resource in 33 published volumes with 2 helpful indexes this thorough reference set written by 1300 eminent international experts offers librarians information computer scientists bibliographers documentalists systems analysts and students convenient access to the techniques and tools of both library and information science impeccably researched cross referenced alphabetized by subject and generously illustrated the encyclopedia of library and information science integrates the essential theoretical and practical information accumulating in this rapidly growing field first published in 1987 routledge is an imprint of taylor francis an informa company specialist periodical reports provide systematic and detailed review coverage of progress in the major areas of chemical research written by experts in their specialist fields the series creates a unique service for the active research chemist supplying regular critical in depth accounts of progress in particular areas of chemistry for over 80 years the royal society of chemistry and its predecessor the chemical society have been publishing reports charting developments in chemistry which originally took the form of annual reports however by 1967 the whole spectrum of chemistry could no longer be contained within one volume and the series specialist periodical reports was born the annual reports themselves still existed but were divided into two and subsequently three volumes covering inorganic organic and physical chemistry for more general coverage of the highlights in chemistry they remain a must since that time the spr series has altered according to the fluctuating degree of activity in various fields of chemistry some titles have remained unchanged while others have altered their emphasis along with their titles some have been combined under a new name whereas others have had to be discontinued the current list of specialist periodical reports can be seen on the inside flap of this volume this edition of this handbook updates and expands its review of the research theory issues and methodology that constitute the field of educational communications and technology organized into seven sectors it profiles and integrates the following elements of this rapidly changing field

A History of the Councils of the Church: A.D. 326 to A.D. 429 1876 questo numero della rivista aut aut presenta gli articoli di giovanni leghissa giovanni scibilia davide zoletto raymond williams aihwa ong edoardo greblo tiziano possamai giuseppe varchetta guido paolo ridoni dan wiesenfeld massimo recalcati duccio manetti federica romanini stefano crosara thomas bernhard

A History of the Christian Councils, from the Original Documents: A.D. 326 to A.D. 420 1876 this book is on military history of india this is an aspect of indian history that has received scanty attention the political social and cultural aspects of indian history have been more than adequately dealt with by eminent indian and western scholars this deficiency is largely responsible for the lack of insight in the real life of india and has produced distorted judgments about things indian those who want to have correct perspective of indian history must learn the military aspect of indian history in this book the following six battles have been described and analyzed 1 the battle of jhelum 2 the battle of tarori 3 the battle of kanwa 4 the battle of rakshas tagadi 5 the battle of panipat 6 the battle of assaye the conclusion is that if india wants to remain free and not become a satellite of a bigger power it must build an indigenously superior weapon system borrowed knowledge and weapons may help overcome temporary deficiency but it is not a permanent solution

**(XV, 411, [4] p.), Tomo 2 (326, [5] p.)** 1831 the history of the ancient civilizations in 6 volumes is one of the best known works by historian max duncker the author s object in regard to the ancient east was not to retrace the beginning of human civilization but rather to understand and establish the value and extent of those early phases of civilization to which the entire development of the human race goes back the narrative embraces the independent civilizations of the ancient east which came to exercise a mutual influence on each other first it follows the realm on the Nile and the kingdoms of hither Asia as far as the point where the nations of Iran began to influence their destinies and then it attempts to set forth the peculiar development of the Aryan tribes in the valleys of the Indus and the Ganges down to the times of Shandragupta and Asoka then follows the history of the Bactrians the Medes and the Persians until the period when the nations of the table land of Iran were united by Cyrus and Darius with the countries of western Asia when Aryan life and Aryan civilization gained the supremacy over the whole region from Ceylon to the Nile and the Hellespont the forms of life at which the great empires of Asia had arrived are finally brought face to face with the more youthful civilization attained by the Hellenes in their mountain cantons this new development is followed down to the first great shock when East and West met in conflict and the Achaemenids sought to crush the Hellenes under the weight of Asia with the failure of this attempt the history of antiquity concludes
