Beyond The Phoenix Project 2018-02-27 this is a companion transcript of the audio series beyond the phoenix project intended to be used for reference and to enable further research of cited material and not as a standalone work in the audio series gene kim and john willis present a nine part discussion that includes an oral history of the devops movement as well as discussions around pivotal figures and philosophies that devops draws upon from goldratt to deming from lean to safety culture to learning organizations the book is a great way for listeners to take an even deeper dive into topics relevant to devops and leading technology organizations

Origins of NASA Names 1976 the project has become fundamental to international development and humanitarian practice playing a key role in defining objectives funding streams and ultimately determining what success looks like this book provides a much needed overview of the project in international development practice guiding the reader through the latest theoretical debates and exploring the core tools and stages of planning and design the book starts with an overview of the role of the project through development history before taking the reader through the stages of a standard project management cycle each chapter introduces the stage the most common tools used to support that phase of planning and the critical debates that exist around it with examples to illustrate discussions from around the world and a range of development fields the book explores the challenges to working effectively in contemporary aid contexts including the role of politics and the pressures wrought by the demands to demonstrate quantified results throughout the book argues for the need to see the project as a form of governmentality that arranges resources and people in time and space and that extends neoliberal forms of managerial control in the sector ending with suggestions for innovation this book is perfect for anyone looking for an accessible and engaging guide to the international development project whether student researcher or practitioner

The Project in International Development 2023-06-26 project x origins is a ground breaking guided reading programme for the whole school with action packed stories fascinating non fiction and comprehensive guided reading support this pack contains 1 set of guided reading notes and 5 reading books a home for ted hamster on the run in the home a new home otters at home

Project X Origins: Pink Book Band, Oxford Level 1+: My Home: Mixed Pack of 5 2014-01 the origins of modern environmental thought provides readers with a concise and lively introduction to the seminal thinkers who created the modern environmental movement and inspired activism and policy change beginning with a brief overview of the works of thoreau mill malthus leopold and others de steiguer examines some of the earliest philosophies that underlie the field he then describes major socioeconomic factors in postworld war ii america that created the milieu in which the modern environmental movement began with the publication of rachel carson's silent spring the following chapters offer summaries and critical reviews of landmark works by scholars who helped shape and define modern environmentalism among others de steiguer examines works by barry commoner paul ehrlich kenneth boulding garrett hardin herman daly and arne naess he describes the growth of the environmental movement from 1962 to 1973 and explains a number of factors that led to a decline in environmental interest during the mid 1970s he then reveals changes in environmental awareness in the 1980s and concludes with commentary on the movement through 2004 updated and revised from the age of environmentalism this expanded edition includes three new chapters on stewart udall roderick nash and e f schumacher as well as a new concluding chapter bibliography and updated material throughout this primer on the history and development of environmental consciousness and the many modern scholars who have shaped the movement will be useful to students in all branches of environmental studies and philosophy as well as biology economics and physics

Project X Origins: Pink Book Band, Oxford Level 1+: My Family: Mixed Pack of 5 2014-01 this open access wide ranging collation of papers examines a host of issues in studying second generation immigrants their life courses and their relations with older generations tightly focused on methodological aspects both quantitative and qualitative the volume features the work of authors from numerous countries from differing disciplines and approaches a key addition in a corpus of literature which has until now been restricted to studying the childhood adolescence and youth of the children of immigrants the material includes analysis of longitudinal and transnational efforts to address challenges such as defining the population to be studied and the difficulties of follow up research that spans both time and geographic space in addition to perceptive reviews of extant literature chapters also detail work in surveying the children of immigrants in europe the usa and elsewhere authors address key questions such as the complexities of surveying each generation in families where parents have migrated and left children in their country of origin and the epistemological advances in methodology which now challenge assumptions based on the westphalian nation state paradigm the book is in part an outgrowth of temporal factors immigrants children are now reaching adulthood in more significant numbers but also reflects the added sophistication and sensitivity of social science surveys in linking theoretical and methodological factors it shows just how much the study of these second generations and their families can be enriched by evolving methodologies this book is open access under a cc by license

Situating Children of Migrants across Borders and Origins 2017-10-25 this collection of papers the third in a series of volumes on the work of the comparative austronesian project explores indigenous austronesian ideas of origin ancestry and alliance and considers the comparative significance of these ideas in social practice the papers examine social practice in a diverse range of societies extending from insular southeast asia to the islands of the pacific

Origins, Ancestry and Alliance 2006-10-01 max cat ant and tiger are excited about meeting the winner of the the wow award but when they discover there is an imposter in the building how will they work out who the real winner is this book is part of project x origins a ground breaking guided reading programme for the whole school

Project X Origins: Grey Book Band, Oxford Level 14: In the News: The WOW! Award 2014-01 this book provides a unique phenomenological dialogue between psychology and philosophy on the origin of bioethics that shows the importance of bringing emotions into bioethical discourse divided into two parts the book begins by defining bioethics and explaining the importance of emotions in making us human allowing us to consider life holistically ferrarello argues that emotions and bioethics are better served when they are combined and that dismissing emotions as nothing more than a nuisance to our rationality has created a society that does not fit our human nature chapters explore how ethics relate to intimate life and how ethical agents determine themselves within their surrounding world uniquely and interrogatively using bioethics to consider not only medical dilemmas but also issues concerning environmental and individual well being by addressing personal interpersonal and societal problems as dynamically interconnected in bioethical problems she helps us to renew our sense of responsibility toward a good quality of life this interdisciplinary book is invaluable reading for students of health science psychology and philosophy as well as for those interested in the link between emotions and bioethical discourse

from both a psychological and philosophical perspective

Human Emotions and the Origins of Bioethics 2020-12-06 this book introduces feminist voices into the study of platonic and aristotelian texts that modern western philosophy has treated as foundational the book concerns the extent to which platonic and aristotelian texts are un redeemably sexist masculinist or phallogocentric

In the Beginning-- 1989 life appears ungraspable yet its understanding lies at the heart of current preoccupations in our attempt to understand life through its origins the ambition of the present collection is to unravel the network of the origin of the various spheres of sense that carry it onwards the primogenital matrix of generation tymieniecka elaborated as the fulcrum of this collection elucidates the main riddles of the scientific philosophical controversies concerning the status of various spheres that seek to make sense of life

Project X Origins: Pink Book Band, Oxford Level 1+: My Family: Tiger's Family 2014-01 schwartzman s study of the first portuguese republic demonstrates the significant ways in which a nation s social and political structures are shaped by its position in the global economy

Zuni Origins 2009-12-01 our understanding of human origins has been revolutionized by new discoveries in the past two decades in this book three leading paleoanthropologists and physical scientists illuminate in friendly accessible language the amazing findings behind the latest theories they describe new scientific and technical tools for dating dna analysis remote survey and paleoenvironmental assessment that enabled recent breakthroughs in research they also explain the early development of the modern human cortex the evolution of symbolic language and complex tools and our strange cousins from flores and denisova

The Origin and Significance of Zero 2024-03-11 who are we where are we from these questions have troubled people for centuries the textbooks have long taught us that human beings evolved from anthropoid apes today a new science molecular anthropology tells us this 7 billion human beings in the world share a common grand grand father the y chromosome adam and share a common grand grand mother the mitochondrial eve after reading information in this book you will be convinced that human beings could not be the result of evolution sudden mutation or in any way related to the anthropoid apes

Zeroes and Origins 2015-05-19 round up sees max and his friends stand up to some bullies who are threatening a

swan and her cygnets will the bullies see the error of their ways this book is part of project x origins a ground breaking guided reading programme for the whole school

The Social Origins of Democratic Collapse 1989 heresy is a central concept in the formation of orthodox christianity where does this notion come from this book traces the construction of the idea of heresy in the rhetoric of ideological disagreements in second temple jewish and early christian texts and in the development of the polemical rhetoric against heretics called heresiology here author robert royalty argues one finds the origin of what comes to be labelled heresy in the second century in other words there was such a thing as heresy in ancient jewish and christian discourse before it was called heresy and by the end of the first century the notion of heresy was integral to the political positioning of the early orthodox christian party within the roman empire and the range of other christian communities this book is an original contribution to the field of early christian studies recent treatments of the origins of heresy and christian identity have focused on the second century rather than on the earlier texts including the new testament the book further makes a methodological contribution by blurring the line between new testament studies and early christian studies employing ideological and post colonial critical methods

The Science of Human Origins 2016-09-17 project x origins is a ground breaking guided reading programme for the whole school this pack contains 1 set of guided reading notes and 5 reading books 1 of each of a wild ride don't look down atlantic adventure sam's flood plan the water cycle

The Origin of Species by DNA Coding 2020-06-15 this volume explores the role of structure and agency in shaping post school pathways for migrant origin young people providing new insights from countries with different migration histories and transition systems the book collates the work of leading international scholars to cover a number of jurisdictions across europe looking in depth at migrant transitions in different contexts the chapters examine the influence of different education systems migration status race and ethnicity social class gender and resilience on the success of transitions to higher education and the labour market the book highlights the need for host countries to put in place comprehensive policies to counter ethnic inequalities and discrimination in their education and labour market systems while facilitating and supporting immigrant youth in pursuing their post school pathways this timely book will be of great interest to scholars researchers and postgraduate students in the fields of migration studies sociology of education and equity in education policymakers will find this book useful in informing policy development in education and the labour market

Project X Origins: Brown Book Band, Oxford Level 11: Conflict: Round-up 2014-01 on planet mythos a utopia is endangered when the mothergod mysteriously dies right after childbirth one son was planned but five were born with the death of their wise leader a perfect chance arises for a criminal organization to take form this shakes the utopia to its foundation and breaks the peace they've known for billions of years dimago was chosen as heir to mythos placing vikor the firstborn on a path of revenge the five brothers live their lives cluelessly running into each other as their fates are forever intertwined the planet's destiny rests in their hands but a mysterious figure has other plans for mythos pulling their strings from the shadows

The Origin of Heresy 2013-05-07 in this compelling whodunnit elaine dewar reads the science follows the money and connects the geopolitical interests to the spin when the first tv newscast described a sars like flu affecting a distant chinese metropolis investigative journalist elaine dewar started asking questions was sars cov 2 something that came from nature as leading scientists insisted or did it come from a lab and what role might controversial experiments have played in its development why was wuhan the pandemic's ground zero and why, on the other side of

the atlantic had two researchers been marched out of a lab in winnipeg by the rcmp why were governments so slow to respond to the emerging pandemic and why now is the government of china refusing to cooperate with the world health organization and who or what is drastic locked down in toronto with the world at a standstill dewar pored over newspapers and magazines preprints and peer reviewed journals email chains and blacked out responses to access to information requests she conducted zoom interviews and called telephone numbers until someone answered as she hunted down the truth of the virus s origin in this compelling whodunnit she reads the science follows the money connects the geopolitical interests to the spin and shows how leading science journals got it wrong leaving it to interested citizens and junior scientists to pull out the truth

Project X Origins: Purple Book Band, Oxford Level 8: Water: Mixed Pack of 5 2014-01 max makes an exciting discovery in a charity shop in the silver box which will soon change his life and the lives of three of his friends forever this book is part of project x origins a ground breaking guided reading programme for the whole school
