UPSC Mains : MATHEMATICS Question Papers (2010-2020) 2015-10-14 where did we lose our idealism and why and at what cost in these conversations with people of a younger generation mamphela ramphela responds to the growing despair among young south africans about the cracks that are appearing in our system of governance and threatening the idealism of the country that reinvented itself with the dawn of democracy in 1994 she shows incisively how successive post apartheid anc governments have betrayed the nation for a culture of impunity among those close to the seat of power where corruption goes unremarked and accountability has been swept aside enduring poverty inequity and a failing

public service most notably in health and education are the results at once challenging and encouraging ramphela urges young south africans our future leaders to set aside their fears to take control of their rights and responsibilities as citizens in upholding the values of the constitution and to confront the growing inequality that is undermining good governance social justice and stability

Artificial Intelligence 2023-02-03 this book examines the presence and effects of new technologies in the lives of young people the rapid pace of change in the development and use of digital technologies and the likely impact this has on youth means that the topic has wide implications for educational institutions theory and practice there is a demand for a concentration on the ways in which new devices such as smart phones and tablets as well as new platforms and recent notions such as the flipped classroom are affecting the way education is being provided however there is also still a small minority who do not have full access to the internet and the disadvantages suffered by this group must also be addressed the internet offers a vast range of opportunities for young people and yet for various reasons it is not always available this can partly be attributed to the controls that schools impose on the use of digital technology for reasons of safety and security and can in part be explained by the fact that policy makers have contradictory attitudes to technology while they may argue for the need to have a well educated and well trained workforce they fear the threats to privacy and safety posed by the internet this book asserts that society needs to have more open debate about the threats and opportunities of digital technology as it is a dynamic and ever changing topic for us all this book was originally published as a special issue of the oxford review of education
