Managing Human Resources in Health Care Organizations

1989-01-01

have you ever been in a healthcare setting and thought about how the organization could be more efficient have you ever thought of ways to reduce the amount of time spent in waiting rooms or do you work in a healthcare organization and find yourself thinking about how to improve the

organization if you have this book is for you this book is an overview of healthcare organizations in the united states their administration and management and their governance this book is for those with a developing interest in healthcare organization operations administration and management and for those who have some expertise but who wish an overview or refresher of these topics unlike most other texts this book has an agenda or purpose aimed at aiding the reader the book knows that you have your own specific personal goals regarding healthcare organizations e g improve your healthcare administration skills learn more about healthcare organizations in general it also assumes that readers have different specific goals the purpose of this book is to enable you to develop your own learning path to reach your learning goal regardless of what that goal happens to be the intent of the book is to provide you with content and resources to pursue a personal learning path that content extends past the reading of this text and will help you in your chosen work or study the unique purpose of the book requires a unique format the format includes tons of resources coupled with the socratic method and suggested competency development tasks the socratic method promotes understanding of a topic by posing questions on that topic an answer to the question requires a learner reader to think critically and synthesize information the overall competency goal for all readers of this book is that it enables each reader to think more critically and more independently about healthcare organization structure and governance in new and interesting ways the book is organized into four 4 lessons each lesson is organized around competency objectives questions readings competency

development tasks e.g. quiz to organize your thinking and cement your learning it is a format which makes extensive use of the resources available on the internet as such the book provides links to external sites to connect you to the larger real world of healthcare organizations to help you better build your own learning path the links also serve as resources you can use after you complete this book many might say that the most valuable part of this book is the list of resources provided for the reader these links more than 600 are directly accessible in the content in the e book version for the print version and for reference in the e book version the full url for each link in the book can be found at the corresponding in text link number bib in the section at the end of the book entitled bibliography associated url link list the list includes data management and research links needed for healthcare administration management and operations and because everyone loves a road trip field trip there are also virtual field trips to the often hidden places of interest on the web there are also trivia questions just for fun because everyone also loves little known but interesting fun facts this book is dense in the physics sense of the word one needs to take a break every so often to absorb the material this is one of the reasons why virtual field trips and trivia questions are provided historical and social context is important in healthcare many of the links virtual field trips and trivia questions provide this context
