technology provided the author of this book with the inspiration to develop a more comprehensive research method to assess buildings analysing buildings from context to detail in time
abcd research method technology at academic level should be considered in the analysis of a building in this book the focus is on construction engineering the study of the requirements
associated with constructing buildings providing information on practice is a key element in construction engineering which is a learning process changes are made during the life of a
building and they might be made differently if the history and technical aspects of the building were studied in greater detail both maintenance and changes require us to understand the
building concerned
