Jazz Guitar Lines 2020-01-24 an interval is the distance between two notes measured in whole and half steps when we stack intervals one on top of another we produce chords if we play the intervals in the chord one after another we produce an arpeggio but since all intervals chords and arpeggios are generated by scales it follows that scales are the basis of all music

from these scales we will find our jazz lines which is what this book is about the following is a list of most of the jazz scales the student will encounter as he becomes involved in the study of improvising when we improvise we use as our weapons the scale harmony and melody the two dimensions in music are the harmony vertical and melody horizontal it is highly recommended that every student of improvising know his scales in all positions and a variety of chords that the scales generate all scales should be played in at least four positions especially the 1st position forces one to learn the theory all other position pattern scales must be transposed throughout the guitar the author has written a few pages in the beginning of the book serving as a prerequisite for the jazz lines to follow it is essential that the student know the scales key signatures intervals and chord constructions that will be used throughout the book in order to benefit fully from this approach to jazz the student must understand the full meaning of the words practice and analysis most students confuse practice with playing or reading through the exercise to really improve and absorb the material every phase must be practiced this means the fingering must be committed to memory slowly at first and then as fast as technique allows the idea must be so ingrained in the mind that it flows from any part of the fingerboard that the performer desires this is the way great players approach an idea from any fret string or position if there is no harmonic or melodic analysis of the material being studied then the learning skill becomes

superfluous and there is no comprehension and absorption and without this proper digestion the performer cannot use it as his taste dictates all of the great players have had a great technique and this is the first goal of the young student great chops as the student matures musicianship will grow but technique is at the grasp of all who seek it start today to acquire it

Patterns for Jazz 2019-12-12 ron geaves demonstrates how the
convergence of prem rawat formerly known as guru maharaj ji
and glastonbury fayre in 1971 was a key event in

understanding the jigsaw that came to be known as new age
spirituality the book charts the discovery of prem rawat in india
in 1969 by a small number of british and north american hippies
and explores how his arrival in britain in june 1971 as well as
his speech from the pyramid stage at the fayre at just 13 years
old escalated his activities to make him one of the key
influencers of 1970s counterculture spirituality both glastonbury
and prem rawat have gone on to re emerge in significantly
different identities to the ones presented in 1971 the meeting
between the two demonstrates how alternative spiritualities

were being formed in the 1960s and how some strands went on to develop into the new age counterculture that eventually permeated mainstream cultures in Britain and the USA
