this handbook aims to help association of southeast asian nations asean parliamentarians play their role in operationalising the asean guidelines for promoting responsible investment in food agriculture and forestry asean rai it is based on responsible investments in agriculture and food systems a practical handbook for parliamentarians and parliamentary advisors published by the food and agricultural organization of the united nations fao and the international institute for sustainable development iisd in 2020 it adapts that earlier handbook to the asean context and provides asean parliamentarians with practical guidance on how to contribute to an enabling environment for responsible investment in agriculture and food systems in their countries based on the asean rai guidelines

OECD Investment Policy Reviews: Myanmar 2020 2020-11-24

this book sheds new light on the potential application of eu law to situations arising outside eu territory and its consequences in today s globalized world eu law and the ecj s decisions have been calling for exceptions and defining new connecting elements that make the traditional approach of eu law based on the territoriality principle less straightforward this is the case with e g the effects doctrine in the context of eu competition law as was fully recognized after the ecj s intel case moreover recently approved rules concerning the eu s internal market eu environmental law and eu data protection law have made it more difficult to define the application of eu law in terms of a pure link to the territoriality principle the book examines these and other problems from the perspectives of various branches of eu economic law with regard to eu competition law it presents among others studies on the evolution of the effects doctrine in the us and the eu extraterritoriality of competition law global cartels merger control state aid and cooperation between ncas furthermore it includes several studies concerning extraterritorial issues in trade relations between the eu and china eu screening regulation of foreign direct investments eu trade agreements eu investment law and eu financial services the twenty one contributing authors are internationally respected experts on eu law

BISNIS Bulletin 2000

empirical studies and theoretical analyses examine the causes and consequences of disruptions in cross border economic relationships including political conflict economic sanctions and institutional collapse cross border economic relationships gradually strengthened in the decades after world war ii for most of the postwar period international trade and investment have grown faster than output a process often termed globalization in recent years however economic relationships have grown more fragile subject to disruption by such factors as political conflict economic sanctions and the dissolution of institutional arrangements this timely cesifo volume offers empirical studies and theoretical analyses that examine the causes and consequences of these disrupted economic relationships contributors propose a new theoretical framework for understanding the economic impact of intergroup conflict and develop a predictive model to analyze the contagion of regional wars they offer empirical studies of the economic effect of targeted sanctions and

boycotts including those imposed upon iran russia and myanmar argue provocatively that natural disasters are associated with increased international trade analyze trade duration finding previously identified explanatory factors to be insufficient for explaining variations in trade survival over time and critically review the hypothesis that oil was a crucial factor in the collapse of the soviet union contributors daniel p ahn tibor besedeš kilian heilmann wolfgang hess julian hinz melise jaud tristan kohli madina kukenova chenmei li rodney d ludema volker nitsch maria persson chiel klein reesink arthur silve enrico spolaore martin strieborny marvin suesse peter a g van bergeijk thierry verdier romain wacziarg

Annual Report 2011

providing a detailed examination of climate negotiations records since the 1990s this book shows that in addition to agreeing on climate policy frameworks the negotiations process is of crucial importance to success shedding light on the dynamics of international climate policymaking its respective chapters explore key milestones such as the kyoto protocol marrakech accords cancun agreement and doha framework the book identifies a minimum of three conditions that need to be fulfilled for successful climate negotiations the negotiations need to reflect the fact that climate change calls for global solutions the negotiation process must be flexible including multiple trajectories and several small steps and decisive tactical maneuvers need to be made as much can depend on for example personalities and the negotiating atmosphere with regard to the design of an international climate policy regime the main challenge presented has been the inability to agree on globally supported greenhouse gas emission reduction measures the book offers an excellent source of information for researchers policymakers and advisors alike

Congressional Executive Commission on China 2013-12-16

during the last decade the latin american and caribbean region has experienced unprecedented natural resources abundance this book highlights how transparency can help realize the benefits and reduce negative externalities associated with the extractive industries in the region a central message is that high quality and well managed information is critical to ensure the transparent and effective governance of the sector the insights from experiences in the region can help policymakers design and implement effective regulatory reforms and adopt international standards that contribute to this goal this is particularly important at a time when the recent boom experienced by extractives in the region may be coming to an end

Disrupted Economic Relationships 2019-05-07

children s rights appear universal inalienable and indivisible intended to advance young people s interests yet in practice evidence suggests the contrary the international framework of treaties procedures and national policies contains fundamental contradictions that weaken commitments to children s real world protections brian gran helps us understand what is at stake when children s rights are compromised this insightful text grounds readers in core theories and key data about children s legal entitlements the chapters tackle central questions about what rights accrue to young people whether they advance equality and how they influence children s identities freedoms and societal participation ultimately this book shows how current frameworks hinder young people from possessing and benefiting from human rights arguing that they function as cynical invitations to question whether we truly believe children are endowed with human rights the sociology of children s rights offers a critical and accessible introduction to understanding a complex issue in the contemporary world and is a compelling read for students and researchers concerned with human rights in sociology political science law social work and childhood studies

International Climate Negotiation Factors 2016-10-05

the book explores how technological competition is linked to the geopolitical contest between the us and china and why europe and the european union eu have become involved in this competition for technological supremacy china s political and economic rise the concurrent us withdrawal from the region and the rise of new technologies such as 5g and ai creates a new and more unstable geopolitical environment in the region in addition the eu far from being a global player finds it increasingly difficult to play a leading role the book analyses the nature of the ultimate goal of technological competition between the united states and china and shows how and why did the eu become the centre of this struggle the author argues that the eu has become the new battlefield of the technological struggle since wealthy societies in the eu make this competition attractive and profitable to both the us and china by shedding light on the geopolitical motivations of china and the question of whether the us can contain china s advance in this domain the book will be of interest to practitioners in the fields of international relations and political science as well as policymakers and analysts employed by diplomatic services multilateral organizations and non governmental organizations

Transparent Governance in an Age of Abundance 2014-10-31

in the past two decades the traditional role of corporate governance has been greatly augmented and transformed by increased attention to the importance of social inclusion in business decisions and of environmental impacts of business activities giving rise to the now well understood linkage among environmental social and governance esg principles this book is the first to thoroughly analyze the esg phenomenon as a tripartite corporate purpose model and the profusion of laws and regulations it continues to engender drawing on perspectives from law economics and business management the book focuses on those esg challenges that are most likely to impact companies in the coming years the author discusses such aspects of esg law regulation and practice as the following impact of digitalization on esg practices competing esg perspectives and whether there are signs of convergence toward a more universal model impact of corporate ownership patterns review of hard and soft law responses corporate control under covid 19 pandemic conditions workplace and workforce transformations various esg related corporate scandals and controversies esg regulatory responses from international entities such as the organisation for economic co operation and development oecd and international organization of securities commissions iosco and seminal esg cases in various business sectors the emphasis throughout is on developments in the european union the united states and the united kingdom both because it is in those jurisdictions that esg challenges have been and are most fully dealt with and because these economies taken together are likely to continue exerting dominating influence across the world what this book says about esg provides pertinent insights and guidance for those seeking a better understanding of esg practices and underlying theories across major economies with essential information and guidance for esg law practitioners policymakers and academicians the book gives clarity and guidance as to who should lead the charge for esg practices in business enterprises in major jurisdictional settings its detailed coverage of best esg practices will be welcomed by those conducting their business enterprises within approved regulatory perimeters

World Energy Handbook 2023-11-03
