cryptography the use of codes and ciphers to protect secrets began thousands of years ago until recent decades it has been the story of what might be called classical cryptography that is of methods of encryption that use pen and paper or perhaps simple mechanical aids the first was the period of manual cryptography starting with the origins of the subject in antiquity and continuing through world war i throughout this phase cryptography was limited by the complexity of what a code clerk could reasonably do aided by simple mnemonic devices in this article we ll look back at the history and evolution of cryptography ancient cryptography 1900 bc one of the first implementations of cryptography was found in the use of non standard hieroglyphs carved into the wall of a tomb from the old
