the author is david c lafaver the words written in this book are the reason for gods bible these 135 different topics are davids way of explaining the scriptures to the average populace and just how some things in the bible could be questionable remember david always said it was just his opinion and that we should make up our own minds its called free will its apparent that god told david to bring forth writings of such for the majority of the populace so they could read that god is not complicated that only people make it that way he always stated why is it that people tell you where to go when you try to tell them how to live but when it comes to the bible the populace will not pick up the bible read and make up their own minds but will instead listen to what others tell them in memory of david c lafaver written for gods glory only in a world that is growing more secular with lives that are increasingly engaged in consumerism our spirit must fight mightily to be recognized by ourselves as well as others what s worse many are unaware of the dangers that engulf us matthew 24 33 cautions even so when you see all these things you know that it is near right at the door but many today think the bible is merely an outdated book meant for religious zealots rather that sixty six historical texts filled with history and some very graphic descriptions of the future that is unfolding before us today in sharing my own story and trying to answer those questions that trouble all of us it is my hope to awaken the curiosity that

has sparked mankind's questioning about who we are and why we are here all to often i hear the refrain we cannot know the mind of god perhaps but i firmly believe that having been given intellect and curiosity we have an obligation to try to use rational thought to get closer to understanding all the many questions that start with why faith is difficult to achieve and harder to maintain even the disciples were regularly challenged in their faith and they knew jesus personally they walked with him daily how much harder must it be for us these two thousand years later in a world that is falling apart around us a collection of readings where the christian asks god why and how these questions in turn forces the christian to ask themselves why as well it is the purpose of this book to show how a person's spiritual hunger can either increase or decrease depending on how they respond to suffering suffering is something that polarizes for some suffering causes the individual to seek god in a far greater way than ever before and for others suffering can cause them to turn their back on god and say how could a loving god let this happen to me this book is about my family and the choice we made to turn to god in the midst of suffering and how we are now able to say how could we possibly have gone through what we have without a loving god to help support and guide us it outlines the journey we have experienced both before and after my wife entered into eternity it looks at how god has been with us through it all and how he has helped us every step of the way especially as we have chosen to follow him in life death and eternity we live in a sex saturated world how can you live a life of integrity in the midst of a sexual onslaught from the author of the every man series more than 4 million copies sold every believer's thought life helps all christians men and women alike understand how to live a life of sexual integrity by taking every thought captive jesus made it clear that while sexual integrity is expressed through the body it's rooted in the mind but aligning our thoughts with god's thoughts isn't always easy illicit sexual thoughts don't need to have free rein in your mind the bible provides an arsenal of weapons to win the battle jesus invites you to live with full sexual integrity in your behavior heart and mind instead of succumbing to the despair and darkness of sin you can take every thought captive and replace it with thoughts that align with god's truth allowing him to bring about his best for your life this book will teach you how to reframe your brain for optimum sexual integrity why logic and willpower are not enough to win this battle fortunately there's a better strategy why one of the big missing weapons in the war for your mind is not something you do but the realization of who you are how to live out the biblical mandate to take every thought captive and set your mind on things above how to be fully present in every moment god has for you so you can live with

moderate and liberal christians unite reclaim jesus from the evangelical christian right imagine a faith tradition divided up into literally thousands of denominations based on such silly things as organizational structure how many bishops can you fit on the head of a needle or theological differences such as whether baptism is to be done by dunking or by

sprinkling or whether or not the bread and the cup are actually transformed into the body and blood of christ during the lords supper the doctrine of transubstantiation imagine that even within a single denomination of this faith tradition those who profess to share the same faith have diametrically opposed views on the nature of god the source of salvation the nature of sin the meaning of scripture the relationship of science and religion of reason and faith of truth certainty and doubt imagine further that they cannot even agree on the nature and or message of the man upon whom their religion is founded finally imagine that a vocal minority of these diametrically opposed views is dominating the public airwaves while the silent majority remains hunkered down in the hallowed halls of their sanctuaries while the message of this vocal minority is embraced by a few in search of simple answers imagine that the masses of un churchd de churchd under churchd never been churchd fed up with church are turned off and are walking away in droves unfortunately there is no need to imagine any of this it is happening right here right now in the united states of america the faith tradition is called christianity the vocal minority that is dominating the bully pulpit of public opinion is the evangelical christian right and the silent majority are moderate and liberal christians everywhere mainlining christianity is a call to christianitys silent majority to stand up and speak out and to join in a new reformation through the vehicle of 95 theses for the 21st century the book is divided into eight separate sections religion christianity and worldviews truth certainty doubt fear faith physical truths in search of a theory of everything t o e spiritual scriptural literal and mythical truths in search of the logos from jesus the man to jesus the christ in search of the logos jesus and the love ethic interfaith interconnectedness and the logos the logos intersects with the t o e god is love within each section is a series of messages designed to offer a practical theological roadmap to just such a reformation moderate and liberal christians unite reclaim jesus from the evangelical christian right reclaimjesus net
