though more than four hundred years have elapsed since the bishops bible was first published in 1568 its story has never been adequately told no book length evaluation has been published and no adequate bibliography is available for guidance in studying this least known of the tudor period bibles this neglect is surprising in that shakespeare s earlier plays reflect his use of the bishops bible and that the bishops bible was used by the translators of the king james version as the basis for their revision this study depicts the religious literary and intellectual atmosphere that produced the bishops bible describes its place in sixteenth century translations re evaluates its contribution to the study of the english bible and investigates the history and identification of the men invited to participate in the translation of allelochemicals natural products

The Day of Temptation

2017-09-05

robert cardinal sarah calls the day is now far spent his most
important book he analyzes the spiritual moral and political
collapse of the western world and concludes that the decadence
of our time has all the faces of mortal peril a cultural identity
crisis he writes is at the root of the problems facing western
societies the west no longer knows who it is because it no longer
knows and does not want to know who made it who established it
as it was and as it is many countries today ignore their own
history this self suffocation naturally leads to a decadence that
opens the path to new barbaric civilizations while making clear
the gravity of the present situation the cardinal demonstrates that
it is possible to avoid the hell of a world without god a world
without hope he calls for a renewal of devotion to christ through
prayer and the practice of virtue

The Lord's Day: Its Divine and Moral Obligation

1852

by the summer of 1943 the third reich s fate seemed sealed the
combined might of britain and the commonwealth nations the
united states and the soviet union had made a germany victory
impossible all that remained to decide was how the allies should
complete their victory would strategic bombing decide the
outcome or would ground and air forces working together play
the more significant role greg baughen follows the air and land
battles in italy france and germany between 1943 and early 1944
as well as the equally bitter battles behind the scenes as army
and air commanders debated and argued over how the war
should be won he charts the trials tribulations and successes of
the bomber offensive and assesses whether in the final analysis
the bomber strategy shortened or lengthened the war he explains
how army air support went backwards after the successes of the
desert air force and how this led to a failure to support the troops
landing on the d day beaches in normandy he also describes the
subsequent revival of tactical air support and how it went on to
play a key role in the subsequent campaigns but questions
whether eisenhower montgomery or tedder ever fully understood
how to make best use of the massive aerial forces available to
