first published in 1937 this book presents itself as a philosophic dialogue starting with the diversity of men s ideas about good in the first part it considers the creation and criteria of good and its relation to truth pleasure and happiness in the second part the book examines some kinds of good pointing out their defects and limitations and suggesting the character of good which we might hold to be perfect the topic of the book is treated both philosophically and practically making it intriguing reading addressing a wide range of issues in applied linguistics sociolinguistics and multilingualism this volume focuses on language users the people making creative connections between existing scholarship in language policy and contemporary theory and research in other social sciences authors from around the world offer new critical perspectives for analyzing language phenomena and language theories suggesting new meeting points among language users and language policy makers norms and traditions in diverse cultural geographical and historical contexts identifying and expanding on previously neglected aspects of language studies the book is inspired by the work of elana shohamy whose critical view and innovative work on a broad spectrum of key topics in applied linguistics has influenced many scholars in the field to think out of the box and to reconsider some basic commonly held understandings specifically with regard to the impact of language and languaging on individual language users rather than on the masses people can become stuck in many ways and for a wide variety of reasons explains the author of fatal pauses that rare book that both clinicians and general readers can benefit from and enjoy novelistic in its depictions of composite patients but clear eyed in its analysis the book offers a 3 d method of addressing stuck ness which is defined as not stopping something that is bad for us or not starting and staying with something that is good for us the process of discovering why one is stuck deciding to become unstuck and then asserting the discipline required to do so is brought to vivid life by one of the most respected psychiatrists of our day the book s structure is logical and engaging the am i stuck scale can be self administered by general readers or administered by clinicians to their patients this first chapter sets the stage for what follows the 3 d method of getting unstuck is presented in a systematic easy to comprehend manner that begins with a brief overview and proceeds to more detailed instructions and insights riveting case examples make up the heart of the book they are not mere summaries but consist of thorough and detailed clinical descriptions that provide context in addition to extensive dialogue and analysis several of these cases are divided into multiple chapters providing a comprehensive clinical picture to help both mental health professionals and lay readers increase their understanding of being stuck a range of categories or stuck ness is addressed including being trapped by career choices limited by obesity paralyzed by an unsatisfying marriage incapacitated by addiction and imprisoned by the need to please of special note is the case example of a young man whose interpersonal relationships have gradually but progressively become reduced to computer based encounters the author s examination of this individual s fixation on video games and virtual realities and his escape from this cyberprison through treatment is both timely and compelling finally the author provides an evolutionary and neurobiological overview of how we become stuck which helps the reader grasp the underpinnings of this behavior and learn how to become unstuck written in a warm and disarming style fatal pauses will find a home in clinicians libraries waiting rooms and on family room bookshelves the international handbook of research in professional and practice based learning discusses what constitutes professionalism examines the concepts and practices of professional and practice based learning including associated research traditions and educational provisions it also explores professional learning in institutions of higher and vocational education as well the practice settings where professionals work and learn focusing on both initial and ongoing development and how that learning is assessed the handbook features research from expert contributors in education studies of the professions and accounts of research methodologies from a range of informing disciplines it is organized in two parts the first part sets out conceptions of professionalism at work how professions work and learning can be understood and examines the kinds of institutional practices organized for developing occupational capacities the second part focuses on procedural issues associated with learning for and through professional

practice and how assessment of professional capacities might progress the key premise of this handbook is that during both initial and ongoing professional development individual learning processes are influenced and shaped through their professional environment and practices moreover in turn the practice and processes of learning through practice are shaped by their development all of which are required to be understood through a range of research orientations methods and findings this handbook will appeal to academics working in fields of professional practice including those who are concerned about developing these capacities in their students in addition students and research students will also find this handbook a key reference resource to the field the fictional novel real life is about a young male adult whose entire family s life changed when their beloved father was inexplicably murdered on their front porch the main character real being the new man of the house must do what it takes to support his now broken family he decides to embark on a strenuous journey with selling drugs thinking that it was the best way of survival in chicago at first the lifestyle change brings him and his family sudden riches but then real gets into trouble with the wrong people how will he be able to handle all of life s unforgiving pressures thrown at him because of senseless gun violence a certain twist will be revealed with the sequel to my hopeful hit real life i as the author wrote this story to entertain the issue of street violence i feel that this terrible epidemic has gone on far enough i try to explain how gun violence alters lives forever the lives of the families affected and their friends around them i also try to tell a heartfelt story that will hopefully move everyone enough to want and embrace change change we so desperately need there are no more gripping and engaging stories than those that are true real life encounters situations and dramas that involve real people real life dramas is a collection of nine factual accounts experienced by real people in authentic situations these accounts have been related to the author in detail who has then dramatised these actual events in story form stories of tragedy triumph and survival read them if you dare this book consists of eight chapters five of which provide a summary of the tutorials and workshops organised as part of the chipset summer school high performance modelling and simulation for big data applications cost action on new trends in modelling and simulation in hpc systems which was held in bucharest romania on september 21 23 2016 as such it offers a solid foundation for the development of new generation data intensive intelligent systems modelling and simulation ms in the big data era is widely considered the essential tool in science and engineering to substantiate the prediction and analysis of complex systems and natural phenomena ms offers suitable abstractions to manage the complexity of analysing big data in various scientific and engineering domains unfortunately big data problems are not always easily amenable to efficient ms over hpc high performance computing further ms communities may lack the detailed expertise required to exploit the full potential of hpc solutions and hpc architects may not be fully aware of specific ms requirements the main goal of the summer school was to improve the participants practical skills and knowledge of the novel hpc driven models and technologies for big data applications the trainers who are also the authors of this book explained how to design construct and utilise the complex ms tools that capture many of the hpc modelling needs from scalability to fault tolerance and beyond in the final three chapters the book presents the first outcomes of the school new ideas and novel results of the research on security aspects in clouds first prototypes of the complex virtual models of data in big data streams and a data intensive computing framework for opportunistic networks it is a valuable reference resource for those wanting to start working in hpc and big data systems as well as for advanced researchers and practitioners sometimes you find happiness where and when you least expect it for mirabelle zielinski s children happiness always seems to be just out of reach her polished oldest daughter katya clings to a stale marriage with a workaholic husband and three spoiled children her son ivan so creative is a down in the dumps songwriter with the worst taste in women and the baby impulsive irina who lives life on a whim is now reluctantly pregnant and hitched to a man who is twice her age on the weekend of their parents anniversary party lies will be revealed hearts will be broken but love will also be found and the biggest shock may come from mirabelle herself because she has a secret that will change everything the secret to streamlined scheduling of mining and civil engineering projects is a solid understanding of the basic concepts of rock cutting mechanics comparing theoretical values with experimental and real world results mechanical excavation in mining and prominence in the international education policy discourse sponsored organized and administered by the organization for economic cooperation and development oecd pisa seems well on its way to being institutionalized as the main engine in the global accountability regime the goal of this book is to problematize this development and pisa as an institution building force in global education it scrutinizes the role of pisa in the emerging regime of global educational governance and questions the presumption that the quality of a nation s school system can be evaluated through a standardized assessment that is insensitive to the world s vast cultural and institutional diversity the book raises the question of whether pisa s dominance in the global educational discourse runs the risk of engendering an unprecedented process of worldwide educational standardization for the sake of hitching schools more tightly to the bandwagon of economic efficiency while sacrificing their role to prepare students for independent thinking and civic participation a companion to russian cinema provides an exhaustive and carefully organised guide to the cinema of pre revolutionary russia of the soviet era as well as post soviet russian cinema edited by one of the most established and knowledgeable scholars in russian cinema studies the most up to date and thorough coverage of russian soviet and post soviet cinema which also effectively fills gaps in the existing scholarship in the field this is the first volume on russian cinema to explore specifically the history of movie theatres studios and educational institutions the editor is one of the most established and knowledgeable scholars in russian cinema studies and contributions come from leading experts in the field of russian studies film studies and visual culture chapters consider the arts of scriptwriting sound production design costumes and cinematography provides five portraits of key figures in soviet and russia film history whose works have been somewhat neglected this is a comprehensive collection of essays that explores cutting edge work in experimental philosophy a radical new movement that applies quantitative and empirical methods to traditional topics of philosophical inquiry situates the discipline within western philosophy and then surveys the work of experimental philosophers by sub discipline contains insights for a diverse range of fields including linguistics cognitive science anthropology economics and psychology as well as almost every area of professional philosophy today edited by two rising scholars who take a broad and inclusive approach to the field offers a complete introduction for non specialists and students to the central approaches findings challenges and controversies in experimental philosophy dorrie gilbert a potter who lives alone is completely unprepared for motherhood when her oddball overweight and orphaned nephew hugo comes to live with her demanding to know the truth about his parents and horrified that she doesn t own a television so he can watch the soap opera he s devoted to as dorrie and hugo attempt to work things out each learns some hard and surprising but deeply satisfying truths about real life this book recalls an era when criticism could change the way we look at the world in the tradition of matthew arnold and edmund wilson james wood reads literature expansively always pursuing its role and destiny in our lives in a series of essays about such figures as melville flaubert chekhov virginia woolf and don delillo wood relates their fiction to questions of religious and philosophical belief he suggests that the steady ebb of the sea of faith has much to do with the revolutionary power of the novel as it has developed over the last two centuries to read james wood is to be shocked into both thinking and feeling how great our debt to the novel is in the grand tradition of criticism wood s work is both commentary and literature in its own right fiercely written polemical and richly poetic in style this book marks the debut of a masterly literary voice does an exciting weekend for you

mean scrubbing all the grouting in your bathroom with a toothbrush have you ever felt the urge to kidnap the cable guy and tie him to the bed like kathy bates in misery because you are terrified the tv will stop working once he s gone do you ponder marrying the albanian builder who has just fitted alcove shelving because he s brought you more happiness in three days than your useless ex boyfriend brought you in three years are you engaged in endless rows with call centre staff called keeley who hang up on you because you are shouting and hysterical are you convinced the entire world is engaged in a conspiracy to drive you insane especially the automated phone system that generates ten text messages whenever you try to book a minicab do you write to do lists that need paginating and include items such as re mortgage house get pregnant climb kilimanjaro welcome to melissa kite s life if you answered yes to three or more of these questions clearly you too are a desperate single woman trying to survive in the modern world if not congratulations you will have a good laugh reading this book in his second book vincent patrierno takes readers on a journey from darkness to light from poetry to essays patrierno artfully expresses thought to help readers further understand and find comfort in the life in which they live migrant experiences accentuate general aspects of the human condition therefore this volume explores migrant s movements not only as geographical movements from here to there but also as movements that constitute an embodied cognitive and existential experience of living in between or on the borderlands between differently figured life worlds focusing on memories nostalgia the here and now social experiences of daily living and the hopes and dreams for the future the volume demonstrates how all interact in migrants and refugees experience of identity and quest for well being legacies logics logistics brings together a set of essays written both before and after the financial crisis of 2007 08 by eminent africanist and economic anthropologist jane i guyer each was written initially for a conference on a defined theme when they are brought together and interpreted as a whole by guyer these varied essays show how an anthropological and socio historical approach to economic practices both in the west and elsewhere can illuminate deep facets of economic life that the big theories and models may fail to capture focusing on economic actors whether ordinary consumers or financial experts guyer traces how people and institutions hold together past experiences legacies imagined scenarios and models logics and situational challenges logistics in a way that makes the performance of economic life on platforms made of these legacies logics and logistics work in practice individual essays explore a number of topics including time frames and the future the use of percentages in observations and judgments the explanation of prices the coexistence of different world currencies the reapplication of longtime economic theories in new settings and crucially how we talk about the economy how we use stable terms to describe a turbulent system valuable as standalone pieces the essays build into a cogent method of economic anthropology this volume provides the audience with an updated in depth and highly coherent material on the conceptually appealing and practically sound information technology of computational intelligence applied to the analysis synthesis and evaluation of social networks the volume involves studies devoted to key issues of social networks including community structure detection in networks online social networks knowledge growth and evaluation and diversity of collaboration mechanisms the book engages a wealth of methods of computational intelligence along with well known techniques of linear programming formal concept analysis machine learning and agent modeling human centrality is of paramount relevance and this facet manifests in many ways including personalized semantics trust metric and personal knowledge management just to highlight a few of these aspects the contributors to this volume report on various essential applications including cyber attacks detection building enterprise social networks business intelligence and forming collaboration schemes given the subject area this book is aimed at a broad audience of researchers and practitioners owing to the nature of the material being covered and a way it is organized the volume will appeal to the well established communities including those active in various disciplines in which social networks their analysis and optimization are of genuine relevance those involved in operations research management various branches of engineering and economics will benefit from the exposure to the subject matter as stephen king has continued to publish numerous works beyond one of the many high points of his career in the 1980s scholarship has not always kept up with his output this volume presents 13 essays 12 brand new on many of king s recent writings that have not received the critical attention of his earlier works this collection is grouped into three categories king in the world around us spotlight on the dark tower and writing into the millennium each examines an aspect of king s contemporary canon that has yet to be analyzed make informational books part of the k 2 learn to read experience with strategies for shared reading writing activities ways to guide parent involvement and real life success stories this collection explores the politics of game play and its cultural context by focusing on the asia pacific region drawing from micro ethnographic studies to

macro political economy analysis of techno nationalisms and transcultural flows of cultural capital it provides an interdisciplinary model for thinking through the politics of gaming buildings have a long lifetime and so they are a major target for any structural changes in consumption patterns conversely long lifetimes come with associated strong inertia this book examines the opportunities to influence energy consumption in housing and buildings and provides options for implementation at a macro meso and micro level a collection of stories centering on the ordinary things which occupy real life which is not always what it seems please note this is a companion version not the original book sample book insights 1 the issue of men s depression is a difficult one to deal with as it is seen as unmanly it is a condition that is both shame filled and shameful and yet it is extremely impactful 2 depression is a disorder of feeling and yet men are often reluctant to acknowledge it men and women often express depression differently and their pathways toward it are distinct 3 the traditional socialization of boys and girls hurts them both each in particular complementary ways girls and later women tend to internalize pain boys and later men tend to externalize pain depression in men unless it is dealt with tends to be passed along 4 i had been treating david and elaine for close to six months elaine first wanted me to see the two of them not for chad s sake but for the sake of their marriage after twenty years she felt miserable alone david was good natured and helpful but she
