there have been several books on leicester during the second world war but i felt that some significant omissions remained first and foremost i wanted to give a voice to the people who lived through those times but whose personal stories are rarely heard in the official records i also

wanted to touch upon some of the themes not generally covered or glossed over in other histories notable amongst which were the crime wave which swept the city during the war and the race disturbances that occurred during 1943 44 balanced against these are other untold stories such as the gallantry and sacrifices of the men women and children of the city the requisitioned factories and offices which from 1939 onwards became home to the army s largest ever pay office and the contribution made by the city s industry to the war effort finally i also wanted to take a little time to explore what happened after the celebrations had ended and the bunting had been put away although some of the stories may make uncomfortable reading i have tried to be as balanced in my reporting as possible

excerpt from madagascar and its people in writing this book my object has been to describe in a popular form what is known respecting madagascar its physical aspects its animal and vegetable life its people their habits language and religious beliefs i have introduced much which has been the result of personal observation while at the same time i have not hesitated to avail myself of the labours of other writers both french and english it will be seen therefore that in two or three chapters my task has been rather that of compilation than of original composition and in these portions of the book i can lay claim to no other merit than that of industry in gathering information in some cases from sources not easily accessible which may help to give a more vivid picture of the country and its inhabitants it appeared to me that there was room for such a work more especially at the present time when madagascar is throwing off the traditions of long centuries of superstition and standing forward as a country resting upon god the religious progress of the island has already been described in detail by the rev william ellis i have therefore touched but lightly upon this most interesting portion of its history i could not however leave it unnoticed and i trust that the narrative i have given affords a truthful though brief representation of this wonderful story about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections
